ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND  
UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES;  
RATIOS OF INVENTORY TO SHIPMENTS; AND  
RATIOS OF UNFILLED ORDERS TO SHIPMENTS

TREND SUMMARY

Preliminary estimates indicate the following trends for January:

**Shipments:** Manufacturers' shipments in January were valued at \$1,716,187,000, down 2 per cent from the revised December value of \$1,750,077,000, but up 5 per cent from the January 1958 total of \$1,641,308,000. In the seven preceding years, January shipments generally decreased from December by an average of 3 per cent.

Using the Economic-Use Classification, the comparison of shipments values in January with the revised values for December, 1958, showed increases in the following groups: Semi-Durable Consumers' Goods (5%); Industries Producing Largely for Export group (5%); Intermediate Goods and Supplies group (3%). Increases in January in the Semi-Durable Consumers' Goods group have ranged between 1% and 15% in the six preceding years. The Industries Producing Largely for Export group showed decreases of 2% to 7% in January of four of the six preceding years, and increases of 6% and 11% in 1953 and 1955, respectively. Increases in the Intermediate Goods and Supplies group averaged 6% in four of the six preceding years, with decreases of less than 1% in the remaining two years (1955 and 1956).

Decreases in January, compared to December 1958, occurred in the following groups: Durable Consumers' Goods (11%); Construction Goods (10%); Motor Vehicles and Related Industries (10%); Heavy Transportation and Equipment (6%); Perishable Consumers' Goods (5%); Other Capital Goods (3%); and a fractional decrease in the Unclassifiable group of industries. In the six preceding years, the Durable Consumers' Goods group and the Construction Goods group show decreases in January ranging from 9% to 19% for the former and from 1% to 16% for the latter. The Motor Vehicles and Related Industries group showed a decrease in January of 1958 and 1956 (11% and 6%, respectively) but showed increases of 3% to 12% in January of the remaining four of the six preceding years. The Heavy Transportation and Equipment group showed an average decrease of 18% over the six preceding years. December-January decreases in values of shipments have been customary in the Perishable Consumer Goods group, but in a pattern of progressively smaller decreases after the 17% drop in 1955. Decreases have also been general in the Other Capital Goods group, averaging 8% over the six preceding years. The Unclassifiable group of industries shows an average decrease of 2% over the preceding six years.

The comparison of January 1959 shipments with January 1958, showed increases in all industry groups except the Heavy Transportation and Equipment group and the Construction Goods group, both of which declined by 26% and 8%, respectively. Increases in the remaining eight industry groups were as follows: Motor Vehicles and Related Industries group (20%); Unclassifiable group of industries (10%); Perishable Consumers' group (9%); Semi-Durable Consumers' Goods group (8%); Intermediate Goods and Supplies group (6%); Durable Consumers' Goods group (4%); Other Capital Goods group (3%); and the Industries Producing Largely for Export group (1%).

**Inventories:** The preliminary estimate of the value of inventory owned by manufacturers at the end of January was \$3,936,137,000, fractionally (0.6 per cent) above the revised December value of \$3,911,424,000. January inventories are normally above December levels and the increase this year was greater than that in 1958 (0.3 per cent) though not as great as in 1956 and 1957 (1.9 and 0.9 per cent, respectively). The January value was 4.5 per cent (\$185,651,000) below the January 1958 value. The year-over-year decline has decreased steadily since October 1958 when inventories were 7.3 per cent below the October 1957 level.

Total inventory held (including both inventory owned by manufacturers and inventory held under progress payments arrangements) was also fractionally 0.6 per cent (\$24,210,000) above the December value, since inventory held under progress payments was practically unchanged. Total inventory held at the end of January was \$4,418,799,000 compared with a revised December value of \$4,394,589,000. Raw materials at \$1,960,331,000 were very slightly below the December 1958 value though almost 5 per cent below the January 1958 level. Goods in process held at \$1,236,091,000 were practically unchanged from December but fractionally above the January 1958 level. If the simplifying assumption is made that all inventory held under progress payments arrangements is in the goods in process held category, then goods in process owned (i.e., less progress payments inventory) at \$753,429,000 was slightly above the December level but 3 per cent below January 1958. Finished products inventories at \$1,222,377,000 were over 2 per cent above the revised December level of \$1,194,507,000 but more than 5 per cent below the January 1958 value.

Seven of the ten Economic-Use groups showed small increases in inventory investment in January. These increases were generally in line with December-January changes over the past three years; though in three cases: the Perishable Consumers' Goods group, which remained practically unchanged; the Heavy Transportation Equipment Industries, which declined over 3%; and Industries Producing Largely for Export, which showed a 1% increase; this year's change followed the 1958 pattern rather than that of the two earlier years. Total inventory owned was down over 4% from the January 1958 level, and the largest year over year declines were in Heavy Transportation Equipment Industries (29%); Motor Vehicles and Related Industries and Construction Goods Industries (12% each), and Other Capital Goods Industries, and the Semi-Durable Consumer Goods group (each down about 7%). The only substantial year-over-year increase was in the Perishable Consumers' Goods group (7%).

The ratios of both total inventory owned to shipments (2.29) and finished products to shipments (0.71) were above the similar figures for December 1958 (2.24 and 0.68, respectively) but below the January 1958 ratios (2.51 and 0.79).

Orders: The value of new orders received during January was \$1,727,736,000, down 1% from the revised December value of \$1,742,123,000 and down 8% from the January 1958 value of \$1,886,173,000. Decreases occurred in January in two of the six preceding years (15% in 1953, and 5% in 1957) with the remaining four years showing December-January increases ranging from 3% to 12%.

Since shipments for the month were lower than new orders received, the result was an increase of \$11,549,000 or 1% in the unfilled orders level. The January value was \$2,122,407,000, which was 16% below the level at the end of January 1958.

Using the Economic-Use Classification, the comparison of the value of new orders in January 1959 with December 1958, shows increases in five of the ten industry groups as follows: Heavy Transportation and Equipment group (7%); Semi-Durable Consumers' Goods group (6%); Other Capital Goods group (6%); Industries Producing Largely for Export group (5%); Unclassifiable group of industries (5%). The erratic pattern of the Heavy Transportation and Equipment group does not establish any trend for comparison with previous years. The increase in the Semi-Durable Consumers' Goods group is smaller in 1959 than the increases in any of the previous three years. (There were small decreases in this group in 1954 and 1955). The Other Capital Goods group has shown declines in the previous five years (5% to 24%) after a 2% increase in January 1953. The industries Producing Largely for Export group has shown greater increases in the five previous years after a 10% decline in 1953. The Unclassifiable group of industries average a 2% increase over the six preceding years.

Declines in the value of new orders in January 1959, as compared to December 1958, were as follows: The Motor Vehicles and Related Industries group (11%); Durable Consumers' Goods group (8%); Construction Goods group (7%); Perishable Consumers' Goods group (5%); and the Intermediate Goods and Supplies group (3%). The decline in the Motor Vehicles and Related Industries group has followed a pattern of progressively smaller increases from 1954 to 1956 (16%, 8%, and 7%, respectively) and progressively greater decreases from 1957 to 1959 (4%, 8% and 11%, respectively). The Durable Consumers' Goods group follows too erratic a pattern over the previous six years to establish a trend. The decrease in the Construction Goods group is less than the decrease occurring in 1958 (8%) but greater than the 5% and 2% decreases in 1954 and 1955, respectively. The remaining three of the six previous years had increases of 1%, 6%, and 15% (in chronological order) for this group. The Perishable Consumers' Goods group has always shown a decrease in January of the six preceding years in the range of 5% to 17%. During the same years, the Intermediate Goods and Supplies group has followed a mixed pattern in the range of a 25% decrease to a 23% increase in the value of new orders.

There was little change in all groups in the value of unfilled orders from December 1958 to January 1959, with the one exception being a 4% increase in the Semi-Durable Consumers' Goods group. The comparison of January 1959 with January 1958, showed increases in only two groups - the Durable Consumers' Goods group (17%) and the Intermediate Goods and Supplies group (6%). Decreases occurring were largest in the Heavy Transportation and Equipment group (31%) and the Construction Goods group (21%). The remaining groups were down by percentages ranging from 3% in the Motor Vehicles and Related Industries group, to 15% for Capital Goods (other than Heavy Transportation).

Trading Outlets: January sales from Manufacturers' Trading Outlets at \$236,559,000 were about 10% below the revised December value of \$263,595,000, but about 13% above January 1958. Fairly substantial declines in Trading Outlets sales from December to January appeared in both 1956 and 1958. All published groups shared in the 1959 decline, except the Wood and Paper Industries where a 1% increase was noted.

The all industry total for Trading Outlets inventories rose 3% to \$279,580,000 in January from a revised December value of \$271,679,000. This January value is almost 2% below the similar figure for 1958. While most published groups were increasing, December to January decreases in inventory holdings appeared in Chemical Products (9%) and Food Products (over 2%).

Table 1. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT,  
IN ALL MANUFACTURING INDUSTRIES, by months. (1)

(in thousands of dollars)

(1) Table 1 includes estimates for all items in all industries; in Tables 2 and 3 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 2. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 13. (5) Preliminary.

Table 2. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

Table 2 (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES

See footnote 1, page 1. (2) See footnote 1, page 1. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held and Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

Table 3 - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(in thousands of dollars)  
CONSUMER GOODS INDUSTRIES

(1) See footnote 1, page 1. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 1. (4) Preliminary

Table 3 (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

Table 3 (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)

(in thousands of dollars)

MISCELLANEOUS INDUSTRIES

(d1) - Industries Producing Largely For Export  
(For definitions, see Page 52.)

(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys.

(2) The value of inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of inventory owned as well.

(3) Preliminary

<u>CLOTHING</u>				<u>CHEMICAL PRODUCTS</u>			
Men's Clothing	285,295	287,812	278,452	Acids, Alkalies and Salts	193,531	226,372	264,270
Women's and Children's Clothing	301,701	317,939	307,498	Fertilizers	83,399	82,639	83,771
Hosiery	60,627	60,868	59,403	Medicinal and Pharmaceutical Preparations	122,591	137,598	147,773
Other Knit Goods	104,529	111,548	110,695	Paints and Varnishes	126,305	133,211	145,143
Corsets	27,684	29,423	30,590	Soaps, Washing and Cleaning Compounds	109,378	119,511	135,254
<u>WOOD PRODUCTS</u>				Toilet Preparations	41,322	45,785	49,556
Plywood and Veneer Mills	134,708	121,017	133,770	Primary Plastics	82,741	92,757	93,211
Furniture	297,546	318,034	316,330	Adhesives	12,330	13,595	13,841
<u>PAPER PRODUCTS</u>				<u>MISCELLANEOUS MANUFACTURING INDUSTRIES</u>			
Paper Boxes and Bags	241,439	248,096	259,553	Brooms, Brushes and Mops	18,640	19,238	20,183
Pulp and Paper Mills	1,447,051	1,424,191	1,353,671	Professional and Scientific Instruments and Equipment	92,515	105,320	110,176
Roofing Paper	41,675	61,940	67,907				
<u>IRON AND STEEL</u>							
Agricultural Implements	122,679	125,243	135,643				
Boilers and Plate Work	110,693	136,343	121,077				
Fabricated and Structural Steel	203,971	240,902	243,042				
Hardware, Tools and Cutlery	158,410	153,593	143,581				
Office, Household and Store Machinery	128,262	135,819	127,993				
Iron Castings	244,031	233,734	202,977				

(1) For definitions, see page 52.

(2) Monthly estimates for 1958 are based on a projection of preliminary 1957 values.

TABLE 6(a) - RATIOS OF VALUE OF TOTAL INVENTORY OWNED TO VALUE OF SHIPMENTS  
GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months.

Date	All Manufacturing Industries	S.I.C. 1 Foods and Beverages	S.I.C. 2 Tobacco and Tobacco Products	S.I.C. 3 Rubber Products	S.I.C. 4 Leather Products	S.I.C. 5 Textile Products (except Clothing)	S.I.C. 6(a) & 6(b) Knitting Mills and Clothing (Textile and Fur)	S.I.C. 7 Wood Products	S.I.C. 8 Paper Products	S.I.C. 10 Iron and Steel Products	S.I.C. 11 Transportation Equipment	(1) S.I.C. 12 Non-Ferrous Metal Products	S.I.C. 13 Electrical Apparatus and Supplies	S.I.C. 14 Non-Metallic Mineral Products	(1) S.I.C. 15 Products of Petroleum & Coal	S.I.C. 16 Chemical Products (1)	(1) S.I.C. 17 Miscellaneous Manufacturing Industries

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

# INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 4. A double asterick indicates that the data for the industry are shown in Table 4 combined with data for one or more similar industries as indicated in the footnotes for that table.

## PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
- \* Fruit and Vegetable Preparations (1)(s)(i)(o)
- Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- Bread and Other Bakery Products (1)(s)
- Aerated Waters (1)(s)
- Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- Macaroni (1)(s)(i)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- Tobacco Processing and Packing (2)(s)(i)
- Tobacco, Cigars and Cigarettes (2)(s)
- Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- Polishes and Dressings (16)(s)(i)(o)
- Candles (17)(s)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
- Leather Gloves and Mittens (4)(s)
- Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
- \* Hosiery (6)(s)(i)(o)
- \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- Fountain Pens and Pencils (17)(s)(i)(o)
- Sporting Goods (17)(s)(i)
- Toys and Games (17)(s)(i)
- Lamps, electric, and lamp shades (17)(s)
- Pipes, lighters and smokers' supplies (17)(s)
- Umbrellas (17)(s)

## DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- Bicycles and Parts (11)(s)(i)(o)
- Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- Musical Instruments (17)(s)(i)(o)
- Clocks and Watches (17)(s)

## HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

## OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)
- \* Industrial Machinery n.e.c. (10)(s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)
- Signs (17)(s)

## CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (7)(s)(i)(o)
- Hardwood Flooring (7)(s)(i)(o)
- \* Roofing Paper (8)(s)(i)(o)
- \* Boilers and Plate Work (10)(s)(i)(o)
- \* Fabricated and Structural Steel (10)(s)(i)(o)

CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

MISCELLANEOUS INDUSTRIES

(a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

(b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)
- \* Acids, Alkalis and Salts (16)(s)(i)(o)
- \* Fertilizers (16)(s)(i)(o)
- Vegetable Oil Mills (16)(s)(i)(o)
- \* Primary Plastics (16)(s)(i)(o)
- Compressed Gases (16)(s)(i)(o)
- \* Adhesives (16)(s)(i)(o)
- Printing Inks (16)(s)
- Writing Inks (16)(s)
- Typewriter Supplies (17)(s)
- Buttons, Buckles and Fasteners (17)(s)
- Artificial Flowers and Feathers (17)(s)
- Hair Goods (17)(s)
- Stamps and Stencils (17)(s)
- Miscellaneous Industries, n.e.c. (17)(s)(i)(o)

(d) UNCLASSIFIABLE

- \*\* Starch and Glucose (1)(s)
- \* Canvas Products (5)(s)(i)(o)
- \* Plywood and Veneer Mills (7)(s)(i)(o)
- Miscellaneous Wood Products (7)(s)(i)(o)
- Commercial Printing (9)(s)
- Engraving, Stereotype and Allied Industries (9)(s)
- Printing and Publishing (9)(s)
- Heating and Cooking Apparatus (10)(s)(i)(o)
- \* Sheet Metal Products (10)(s)(i)(o)
- \* Miscellaneous Iron and Steel Products (10)(s)(i)(o)
- Machine Shop Products (10)
- Miscellaneous Transportation Equipment (11)(s)
- \* Brass and Copper Products (12)(s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products (12)
- Glass and Glass Products (14)(s)(i)(o)
- \* Petroleum Refining and Products (15)(s)(i)
- \* Paints and Varnishes (16)(s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (16)(s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

CONCEPTS, SOURCES, METHODS AND LIMITATIONS

C O N C E P T S

PLANT SHIPMENTS, ORDERS, AND INVENTORIES (Tables 1, 2, 3, 4, and 6):

Shipments - represent an estimated projection, on a monthly basis, of the latest available Gross Value of Factory Shipments from the annual Census of Industry. In the majority of cases, Census of Industry values include (a) sales from manufacturing plant of products made at the plant, (b) amounts received for repairs or custom work, (c) shipments of goods manufactured in the plant for further processing in another unit of the same company, and (d) shipments of finished products to manufacturers' sales branches for sale, for each establishment included. The value level used is defined as "factory selling value". Goods purchased for re-sale without further processing are not included. (1)

New Orders - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled. (Since progress payments are treated for this survey as sales in the month received, total unfilled orders reported each month by firms operating on a progress payments basis are reduced by the total of progress accounts for these firms.) This definition of Unfilled Orders is therefore an expression in terms of future shipments values.

Total Inventory Owned - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of:

- (a) raw materials;
- (b) goods in process;
- (c) finished goods of own manufacture at plant and warehouse;

---

(1) There are a few exceptions to the definition of Census of Industry values given above:

- (i) In two industries, Sawmills, and Slaughtering and Meat Packing, custom work is valued at the estimated selling value of the product rather than by the amounts received for such work.
- (ii) In nine industries (Fish Processing, Veneer and Plywoods, Sawmills, Pulp and Paper, Non-Ferrous Metals, Smelting and Refining, Coke and Gas Products, Petroleum Products, and Miscellaneous Products of Petroleum and Coal) the Census of Industry values represent production of finished goods rather than shipments. For these industries the Census of Industry values are adjusted by change in finished products inventory before projection for the monthly series.
- (iii) In four industries, Fabricated and Structural Steel, Aircraft, Railroad Rolling Stock and Shipbuilding, the Census of Industry value is for "work done during the year", i.e. production of finished goods plus change in goods-in-process inventory during the year, rather than shipments. For these industries, the Census of Industry values are also adjusted by change in finished products inventory before projection for the monthly series.

There are three industries apart from those listed under (ii) and (iii) above, for which adjustments to Census of Industry values are made before projection for the monthly series. In the Flour Milling, Brewing and Fruit and Vegetable Preparations industries all of which are characterized by large seasonal variations, many large firms operate on fiscal year periods (which are used in Census of Industry compilations) differing from the calendar year. In unusual years, the projection of Census of Industry values for these industries as if they represented calendar year values could cause considerable distortion in the estimates. To avoid this, the Census of Industry values from 1954 on have been adjusted to estimated calendar year values before projection. This adjustment is based on values reported to the monthly survey.

Firms operating on long-term contracts represent a special case for the monthly series. The value levels projected are those of the Census of Industry as described in the first paragraph (except for the four industries described under iii above). However, for the monthly series, all progress receipts on long-term contracts are included as sales in the month received, instead of the total sale being included in the month the sale is finalized. It is felt that this treatment gives a better indication of monthly activity, but it does allow possible distortion of value levels in that, for the Census of Industry value which is being projected, any final sale will be recorded in one specific year, while the monthly series may have spread this sale over more than one calendar year. Since the bulk of the value of long-term contract work falls in the four industries noted for which adjustments for work done are made in compiling the Census of Industry value, this inconsistency does not affect the all-industry or group totals to any great extent.

---

less (d) value of inventory held but not owned. This item cannot be assigned to specific components.

Since the series relates to manufacturing inventory only, the value of inventory of goods purchased for re-sale without further processing is not included.

Inventory Held but Not Owned represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory - some firms treat progress receipts as sales and reduce book value of inventory as payments are received; in some of these cases they no longer have records of actual holdings above the book value level. Wherever estimates are available, these have been included, but the estimates value of inventory under this heading must be considered, to some extent, incomplete.

Total Inventory Held represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from total inventory owned because of the inclusion of inventory held under progress payments arrangements. It includes items (a) to (c) as shown above under total inventory owned.

Inventory Components (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Industries and Groupings - All individual industries (Table 4) and the Standard Industrial Classification groupings of industries used in Table 2, are defined according to the Standard Industrial Classification Manual.

The Economic Use groups of industries (Table 3) were designed to facilitate the analysis of trends by a grouping based on the use made of each industry's products i.e. on the main demand factors affecting each industry. In drawing up this classification, the groupings were designed to tie in with National Accounts concepts as closely as possible; as a result the three main groupings - Consumer Goods industries, Capital Goods industries, and Construction Goods industries - contain only industries producing mainly final products in each of these categories. Only industries in which substantially more than half the production is of items clearly belonging to one or other of these three specific categories, or industries in which half the production falls into one such category and the remainder is scattered over two or more other categories, were assigned to one of the main groupings. All other industries were assigned to a miscellaneous category, which was sub-divided into three further groupings of related industries - Industries Producing largely for Export, Intermediate Goods and Supplies, and Motor Vehicles and Related Industries - and an unclassifiable group. The latter groupings cut across the Economic Use criteria to some extent. For further detail on the considerations leading to the assignment of industries for these groupings, reference should be made to the December, 1955 report.

TRADING OUTLETS SALES AND INVENTORIES (Table 5): See page 47.

#### S O U R C E S

##### (a) Monthly Estimates -

Coverage for the various series was as follows at the end of December, 1958:

Plants reporting plant shipments accounted for 75 per cent of the total 1957 preliminary gross value of shipments. Industries covered, either by samples of reporting firms or by valuation of physical stocks, accounted for 99 per cent of total 1957 preliminary gross value of shipments.

Plants reporting inventories accounted for 74 per cent of total 1956 Year-End plant and warehouse inventory values. Industries covered, either by samples of reporting firms or by valuation of physical stocks, accounted for 97 per cent of the 1956 Year-End total.

Plants reporting orders accounted for 73 per cent of the estimated 1956 Year-End Unfilled Orders Value. Industries covered accounted for 98 per cent of estimates total Unfilled Orders at December, 1956.

Firms reporting Trading Outlets sales and inventories accounted for 82% of the 1957 estimated total Trading Outlets sales. The proportion of estimated total inventory which they accounted for has not yet been calculated, but is probably close to the sales proportion.

(b) Benchmark Levels -

Benchmark data for annual corrections to the three series (see Section on Methods below) are obtained as follows:

Shipments - Benchmarks for 1955 and 1956 are the final Census of Industry gross value of shipments estimates (as modified in note (1) on page 52.) for these years. Benchmarks for 1957 and later years are the preliminary Census of Industry estimates for 1957 as published in the Preliminary Statement of Manufactures, 1957 (also modified according to the note on page 52.)

Inventories - Benchmark data are obtained from an annual Calendar Year-End survey covering all manufacturing plants with an annual production value of over \$50,000 (approximately 19,000 plants). These plants account for 95 per cent of total gross value of shipments and inflation to total is made on the basis of total shipments from the annual Census of Industry. The latest available Year-End survey values are for 1956.

Orders - Benchmark surveys for Year-End Unfilled Orders have been made for each of the years 1953 to 1956 inclusive.

The 1953 survey covered all manufacturers with an annual gross value of shipments of over \$50,000. However, in addition to lack of coverage of firms under \$50,000 (representing 5 per cent of total gross value of shipments) actual coverage was incomplete due to non-response (representing 17 per cent of g.v.s.) and to lack of value records of unfilled orders (6 per cent of g.v.s.). The total estimate was made as follows:

1. - Unfilled Orders/shipments ratios for 7 shipments size-groups were calculated for reporting firms in every industry. Shipments values used for this purpose were those for 1952, which were the latest available at time of compilation.
2. - Estimates for firms reporting unfilled orders but no value records were based on the Unfilled Orders/shipments ratios for firms reporting orders values in the same industry and size-group.
3. - Estimates for the group of firms not replying to the question were based on the assumptions that (a) gross value of shipments for firms with orders backlogs and for firms with no backlogs would be in the same proportions as for the group of reporting firms in the same industry and size-group and (b) unfilled orders/shipments ratios for the portion of the industry thus assumed to have orders would be the same as for reporting firms in the same industry and size-group.
4. - Estimates for firms under \$50,000 were made as for non-respondents, using the proportions and unfilled orders/shipments ratios of the smallest size-group for the appropriate industry.

The 1954, 1955 and 1956 surveys covered 7000 manufacturing plants. These plants accounted for approximately 80 per cent of 1953 gross value of shipments. Again, coverage was incomplete due to some non-response or to lack of value records for unfilled orders. The total estimates were made by the same method as used in 1953, except that, in most cases, industries were not sub-divided into size-groups since it was found that this additional step had little effect on the final estimates. The estimated portion of the 1956 Year-end total was approximately 15%.

Trading Outlets - Benchmark surveys covering annual sales and year-end inventories were made for each of the years 1956 and 1957. Questionnaires were sent to all manufacturing companies known to operate selling outlets carrying stock apart from their plants. Response was not complete, and estimates were, therefore, made for missing coverage. The estimated portion of the 1957 total sales amounts to 12%; the estimated portion is lower for inventory because in a number of cases it was possible to derive this information from other reports.

METHODS

(a) Current Estimates -

For eight series (plant shipments, raw materials, goods in process, plant finished products, inventory held but not owned, unfilled orders, trading outlets sales, and trading outlets inventories,) current value estimates for each industry covered are made by applying the monthly percentage changes shown by the unweighted group of reporting firms in each industry to the latest available benchmark values for the same industries. Industries not covered are carried at the latest available benchmark levels.

(The above is subject to a few exceptions. In one industry, reporting firms are treated as a stratum sample, rather than as an unweighted group. In three industries, available physical data on stocks and shipments are valued using price indexes. In three industries, shipments estimates are based on employment data and price indexes.)

Total inventory held in each industry is the sum of the estimated values for raw materials, goods in process, and finished products. Total inventory owned in each industry is calculated by deducting the estimated value for inventory held but not owned from estimated total inventory held. Value of new orders in each industry is derived from estimated shipments and unfilled orders using the formula "Unfilled Orders at end of previous month plus Net New Orders during month less Shipments during month equals Unfilled Orders at end of Current month".

(b) Benchmark Revisions -

As new benchmarks become available, estimates for the year to which the benchmarks apply are revised as follows:

- For the plant shipments series, the Census of Industry value for the year for each industry is spread by months according to the trend shown by reporting firms in the original estimate for that year.
- For the trading outlets sales series, the estimated value for the year, obtained from the Annual Trading Outlets survey, for each industry is spread by months according to the trend shown by reporting firms in the original estimate for that year.
- For the five basic inventory series (raw materials, goods in process, plant finished products, inventory held but not owned and trading outlets inventory) and the unfilled orders series, where the benchmark values apply to the Year-End rather than to the entire year as in the shipments series, the error in the original estimate for the year-end for each industry is assumed to have accumulated equally over all twelve months of the year (i.e., one-twelfth of the amount of the error is added to the original estimate for January; two-twelfths is added to the original estimate for February; three-twelfths to March and so on).
- The three derived series (total inventory held, total inventory owned, and new orders) are re-calculated on the basis of the revised data for the other six series.

LIMITATIONS TO THE USES OF THE DATA IN THIS REPORT

- (1) Data for individual industries should not be interpreted as commodity data, since very few industries produce only one commodity or only one class of commodities.
- (2) Since the series are in terms of current values, changes over time may be the result of both price and volume changes. Some indication of the extent to which changes in value are due to price changes, thus isolating the physical change which has taken place, can be obtained by reference to the wholesale price index. This procedure is, however, inadequate for anything more than a general indication of trends. The main problem is that the wholesale price index is a commodity price index, while the shipments, orders, and inventory series are industry series with the possibility of changes in commodity content over time. These changes in commodity content could seriously affect the weighting pattern to be applied to price indexes considered applicable for any specific industry. In considering inventory values, turnover rates and valuation methods are other important variables which should be taken into consideration, but for which adequate data are seldom available.
- (3) Shipments data do not necessarily represent market sales for the manufacturing universe. (a) Apart from the few exceptions as noted under (b) below they are defined (see Page 89) to include total movement of goods out of manufacturing plants (or, in some cases, divisions of plants); shipments of goods for further processing by other plants of multiple-unit companies are, therefore, included as well as shipments for sale. (b) In a few special cases, the Census of Industry values include goods-in-process change, and for these cases progress receipts on long-term contracts are included as shipments as they occur, rather than at the time sales are finalized. (c) Many manufacturers re-sell purchased goods, in addition to their sales of own products, and these re-sale items are not included.
- (4) The component breakdown for inventories is on an establishment, not a commodity, basis. Since each manufacturer reports inventories as on his own books, both for the monthly and annual surveys, and since a number of industries contain plants at various stages of processing, the finished products for one plant might represent commodities which would be considered raw materials or goods in process for another plant in the same industry. The composition of each industry must be studied before attempting to use the component breakdown as applicable to the industry as such, rather than to the firms in the industry.
- (5) For Unfilled Orders, the following reservations apply:

- (a) The series, by definition, excludes plants producing entirely for stock. Since approximately 40% of manufacturing is done by such plants, the trends shown are not necessarily applicable to manufacturing in general.
- (b) Since the series is defined as "unshipped" orders, rather than "unproduced" orders, there is always the probability that some of the Unfilled Orders are accounted for in inventory holdings. The reduction of unfilled orders by progress receipts eliminates to a considerable extent the effect of large goods-in-process holdings in connection with long-term contracts, but the amount of the remaining inventory, either goods-in-process or finished products, which is held in connection with existing unfilled orders would be difficult to evaluate.
- (c) The series includes total orders, not just those considered as "binding", so estimates of future shipments trends based on these may be overstated due to the possibility of cancellations.
- (d) Unfilled Orders for all industries include to some extent a duplication due to the fact that orders for final products in one industry may result in orders to firms at secondary or primary stages of processing. Since the total gross value of shipments will contain the same duplication, this does not invalidate the series for purposes of analysis. However, the total impact of any one order on future shipments levels will not necessarily be shown in the Unfilled Orders series, since at any stage an order may be filled from stock, rather than added to existing backlogs.
- (6) The Economic-Use grouping of industries - Table 3 - The difficulties involved in classifying both commodities as such, and industries on the basis of commodities made, are sufficient to limit the usefulness of this compilation to indications of trends only. The main difficulty is that many commodities may be used for different purposes which cut across classification lines. Depending on the use made of it, the same product may be a "final" product or a component part; or a final product may be used for consumption, investment, as a supply, or in construction. A second difficulty is that the basic data for this survey are in terms of estimates for individual industries, not for commodity data. An industry is a group of establishments primarily concerned with the production of a specified product or class of products. Many establishments produce other commodities in addition to those in which they are primarily concerned, and as a result very few industries can be considered "pure" in the sense that they produce only the product or class of products implied in their title. Therefore many industries, which might fall quite clearly into specified groups on the basis of the chief use of their main products, are much less clear-cut when the additional commodities produced in the establishments concerned are considered.

In this classification, only those industries in which substantially more than half the production is of items clearly belonging to that grouping, or in which half the production is of such items and the remainder is scattered over two or more groups, were assigned to the main categories; all industries which could not be so assigned were placed in the "Unclassifiable" category. This means that the inclusion of extraneous commodities is kept to a minimum. It does not, unfortunately, do anything about the fact that each category does not necessarily include all important relevant items. The grouping that is most seriously affected by the forced exclusion of relevant items is the Durable Goods sub-group of the Consumer Goods category. It does not contain the consumer portion of the Automobile industry, and in addition, it does not include the stove portion of Heating and Cooking Apparatus (since the latter industry had to be assigned to the Unclassifiable group). On the other hand, it does include two large industries with important production of items which should not be assigned to Consumer Durables - these are the Furniture industry, which also produces office and store furniture, as well as household furniture; and the Radios and Parts industry which also produces electronic equipment. The sub-category "Other Capital Goods Industries" contains the highest proportion of industries in which only about half of total production actually should be assigned to the specific grouping, but where the remainder of production is dispersed over a number of other groupings. It is, however, felt that this dispersion is not so likely to result in distortion as is possible with the large specific items involved in the Consumers' Durable Goods group.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND  
UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES;  
RATIOS OF INVENTORY TO SHIPMENTS; AND  
RATIOS OF UNFILLED ORDERS TO SHIPMENTS

## TREND SUMMARY

Preliminary estimates indicate the following trends for February:

Shipments - Manufacturers' shipments in February were valued at \$1,729,110,000, up 2% from the revised January value of \$1,690,983,000, and up 6% from the February 1958 total of \$1,627,203,000. Of the seven preceding years, 1957 and 1958 were the only two years to show decreases in February as compared to January of the same year (2% and 1% respectively). The remaining five years increased by an average of 4%. Shipments in the first two months of this year were valued at \$3,420,093,000, up 5% from last year's corresponding total of \$3,268,511,000.

Using the Economic-Use Classification, the comparison of shipments values in February with the revised values for January 1959 showed increases in all groups except the Perishable Consumers' Goods group which decreased by 2%, and the Intermediate Goods and Supplies group which decreased only marginally. Groups showing increases were as follows: The Semi-Durable Consumers' Goods group (14%); the Durable Consumers' Goods group (10%); the Other Capital Goods group (5%); the Motor Vehicles and Related Industries group (5%); the Heavy Transportation and Equipment group (4%); the Industries Producing Largely for Export group (3%); the Construction Goods group (2%); and the Unclassifiable group (1%). In the seven preceding years, the Perishable Consumers' Goods group usually decreased in February except for 1954 and 1956 when decreases of 3% and 1%, respectively, occurred. The Intermediate Goods and Supplies group followed a mixed pattern between a 6% decrease and an 8% increase in February of these years. In the same period, the Semi-Durable Consumers' Goods group and the Durable Consumers' Goods group showed increases ranging from 18% to 27% for the former, and from 2% to 20% for the latter. Similarly, the Other Capital Goods group had increases from 2% to 26% in February of the seven preceding years. Except for a 30% decrease in February 1957, increases have been customary in February for the Motor Vehicles and Related Industries group in these years. The Heavy Transportation and Equipment group had a 4% decrease in February last year but increased in February of the six previous years. The Industries Producing Largely for Export group followed a mixed pattern over the seven preceding years, averaging to a marginal increase. Changes in the Construction Goods group were in the range between a 5% decrease and a 12% increase. The Unclassifiable group of industries averaged a 1% decrease over the seven preceding years.

The comparison of February 1959 shipments with February 1958, showed increases in seven of the ten industry groups, using the Economic-Use Classification. These increases were as follows: Motor Vehicles and Related Industries group (23%); Unclassifiable group (13%); Intermediate Goods and Supplies group (12%); Perishable Consumers' Goods group (8%); Semi-Durable Consumers' Goods group (8%); Durable Consumers' Goods group (8%); industries Producing Largely for Export group (5%). Decreases occurred in the Heavy Transportation and Equipment group (25%); Other Capital Goods group (10%); and the Construction Goods group (5%).

The comparison of cumulative shipments for the first two months of 1959 with the same period last year, revealed a pattern similar to the year-over-year comparison for February. The industry groups showing increases were as follows: Motor Vehicles and Related Industries group (21%); Intermediate Goods and Supplies group (10%); Unclassifiable group (10%); Semi-Durable Consumers' Goods group (9%); Perishable Consumers' Goods group (8%); Durable Consumers' Goods group (4%); Industries Producing Largely for Export (1%). Decreases occurred in the Heavy Transportation and Equipment group (28%); Construction Goods group (10%); Other Capital Goods group (5%).

Inventories - The preliminary estimate of the value of inventory owned by manufacturers at the end of February 1959, was \$3,992,375,000, a fractional (0.7%) increase from the revised January value of \$3,964,029,000. February inventories are normally above January levels, though there was a fractional decline in 1958, and the increase this year is less than the 1956 and 1957 increases (2.2 and 2.3%, respectively). The year-over-year decline continues to drop with February 1959 inventories only 2.4% below the February 1958 level.

Since progress payments holdings were practically unchanged, total inventory held (including both inventory owned by manufacturers and inventory held under progress payments arrangements) at \$4,463,480,000 was also fractionally (0.3%) above the revised January value of \$4,439,265,000. Raw materials at \$1,972,154,000 were practically unchanged from the revised January figure (\$1,969,270,000), and about 2% below that of February 1958. Goods in process held increased slightly, to \$1,242,959,000 within 1% of the February 1958 level. If the simplifying assumption is made that all inventory held under progress payments arrangements is in the goods in process held category, then goods in process owned (i.e. less progress payments) at \$777,262,000 was over 2% above the revised January level of \$759,209,000 and at the level of goods in process owned in February 1958 (\$777,071,000). While still over 3% below the February 1958 level, finished products inventories in February were \$1,251,947,000, about 1% above the revised January value of \$1,234,445,000.

As was the case with total inventory, the January to February changes in inventory owned by Economic-Use Groups followed the trend of changes in 1956 and 1957 rather than that of 1958. Seven of the ten groups showed increases this year, compared with only two in 1958. The largest increase, almost 4%, was in the Construction Goods industries, which has shown sizeable January to February increases in each of the four previous years. The increase in the Motor Vehicles and Related industries Group, over 2%, while not as large as the increases in earlier years, is a noticeable change from the over 3% decline in 1958. Increases in most other groups were generally in line with the changes shown for 1956 and 1957.

The only more than fractional decline was in the Intermediate Goods and Supplies industries (over 1%) and this group showed a consistent 3 to 4% decline in the past four years. The two fractional declines were in Heavy Transportation Equipment industries, and industries Producing Largely for Export. Comparing individual group values with those of February 1958, the most noticeable increases were in the Perishable and Durable Consumers' Goods Groups (10 and 7 %, respectively), while among the declines, Heavy Transportation Equipment (26%) and Motor Vehicles and Related industries (8%) stood out.

The ratio of total inventory owned to shipments at 2.31 was down from the revised January level of 2.34, and considerable below the February 1958 value (2.51). The ratio of finished products to shipments 0.72 was similarly below both the revised January value 0.73 and that of February 1958 (0.79).

Orders - The value of new orders received during February was \$1,655,832,000. This was 6% greater than the value for February 1958. The February value was 6% lower than January, which was a smaller January-February decline than occurred in 1958 (17%) or 1957 (8%); in 1955 and 1956 the January-February decline was less than 6%, and in 1953 and 1954 February new orders rose slightly as compared with January.

New orders were \$73,278,000 lower than shipments during the month, with the result that unfilled orders declined by this amount. Unfilled orders at the end of February were valued at \$2,109,880,000, 3% below January and 14% below February, 1958.

The new and unfilled orders values for February were affected by a large cancellation in the Aircraft industry. Without this, both series would have shown small increases over January levels.

The January-February change in new orders showed a slight improvement as compared with trends of the previous six years, for five of the ten economic-use groups. In the Perishable Consumers' Goods group, Durable Consumers' Goods, Construction Goods, Export industries, and the Intermediate Goods and Supplies industries, declines during the month were somewhat less, or increases somewhat greater, than would appear normal for the month. The Capital Goods other than Heavy Transportation group, showed a 1% increase in February, but generally this month has large increases in new orders, which in the previous six years ranged from 11% in 1958 to 48% in 1955 (1956 had the only decline for this category during the six-year period). Heavy Transportation Equipment had a negative new orders value in February, due to the cancellation mentioned above; this group's January-February trend has been completely erratic in recent years. The remaining three groups (Semi-Durable Consumers' Goods industries, Motor Vehicles and Related industries, and the Unclassifiable group) had only small changes in February and no definite patterns are discernible in the previous year's figures for these groups.

A comparison of unfilled orders at the end of February as compared with the levels a year earlier shows three groups with large increases and three with large declines, while the remainder are little changed. The Semi-Durable Consumers' Goods group and the Intermediate Goods and Supplies group each had unfilled orders 14% above last year's level, and the Durable Consumers' Goods group was 25% higher. On the other hand, unfilled orders in the Heavy Transportation Equipment group were 43% below February, 1958 values. Other Capital Goods were down 11%, and Construction Goods industries were down 15%.

Trading Outlets - February sales from Manufacturers' Trading Outlets at \$219,436,000 were 1% above the revised January level of \$217,106,000, and slightly more than 1% above the February 1958 value of \$216,341,000. (Note: Because of the change noted on page 46, Trading Outlet sales and inventories for 1958 and 1959 are not strictly comparable). February sales are usually larger than January sales, but the increase this year was less than half the average increase of the four earlier years. Except for Wood and Paper industries (down 5%) and Petroleum and Coal industries (down 3%), all published groups had higher sales in February than in January 1959.

The all industry total for Trading Outlet Inventories fell 1% to \$267,238,000 from the revised January level of \$269,941,000. The February 1959 value is 3% below that of February 1958. Notwithstanding the all-industry January-to-February decrease, increases were shown by the Rubber industries, Iron and Steel industries, Electrical Apparatus industries, and the All Other industries group.

(1) Table 1 includes estimates for all items in all industries; in Tables 2 and 3 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 2. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 13. (5) Change in series between December 1958 and January 1959, see footnote 2, page 46. (6) Preliminary.

Table 2. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 1. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 1.

(4) Change in series between December 1958 and January 1959, see footnote 2, page 46. (5) Preliminary.

Table 3 (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

Table 3 (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)

(in thousands of dollars)  
MISCELLANEOUS INDUSTRIES

(dl) - Industries Producing Largely For Export  
(For definitions, see Page 51.)

(For industries included, see Page 49.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys.

(2) The value of Inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data.

Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the

equivalent of Inventory Owned as well.

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 6 Cont'd. - MANUFACTURERS' TRADING OUTLETS

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

# INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 4. A double asterick indicates that the data for the industry are shown in Table 4 combined with data for one or more similar industries as indicated in the footnotes for that table.

## PERISHABLE CONSUMER GOODS INDUSTRIES

\* Slaughtering and Meat Packing (1)(s)(i)  
 \* Sausages and Casings (1)(s)  
 \* Butter and Cheese Factories (1)(s)(i)  
 \* Concentrated Milk (1)(s)(i)(o)  
 \* Processed Cheese (1)(s)(i)

- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

## CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### C O N C E P T S

Shipments - (Tables 1 to 5) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 1 to 4) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 1 to 4) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 1 to 5) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 1 to 4) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 1 to 4) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 1 to 5) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 6) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also excluded, except for the Petroleum Products industry group, where a separation of purchased products is not possible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 4) and the Standard Industrial Classification groupings of industries used in Tables 2, 5 and 6, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 3, and 5) will be found in the December 1955 report, page 5.

### S O U R C E S

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,000 plants in 119 industries, in addition, 1,000 small plants in 45 industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

(1) BREAK IN SERIES SEE FOOTNOTE 3, PAGE 1.

ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND  
UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES;  
RATIOS OF INVENTORY TO SHIPMENTS; AND  
RATIOS OF UNFILLED ORDERS TO SHIPMENTS

## T R E N D     S U M M A R Y

Preliminary estimates indicate the following trends for March:

**SHIPMENTS:** - Manufacturers' shipments in March were valued at an estimated \$1,820,418,000, up 6% from the revised February value of \$1,723,245,000 and up 3% from the March 1958 total of \$1,770,644,000. Shipments increased in March of each of the seven preceding years, with increases ranging from 4% in 1952, to 12% in 1953, 1954 and 1957. Shipments in the first quarter of this year were valued at \$5,234,646,000, up 4% from last year's corresponding total of \$5,039,155,000.

Using the Economic-Use Classification, the comparison of shipments values in March with the revised values for February 1959 showed increases in all groups. The increases were as follows: Construction Goods group (13%); Other Capital Goods group (11%); Intermediate Goods and Supplies group (7%); Industries Producing Largely for Export group (6%); Motor Vehicle and Related Industries group (5%); Perishable Consumers' Goods group (5%); Semi-Durable Consumers' Goods (5%); Heavy Transportation Equipment group (3%); Durable Consumers' Goods group (2%); Unclassifiable group (2%). In the seven preceding years, seven of the ten groups had March increases in shipments as follows: Construction Goods group (average increase of 15%); Other Capital Goods group (average increase of 11%); Intermediate Goods and Supplies group (average increase of 8%); Industries Producing Largely for Export group (average increase of 9%); Semi-Durable Consumers' Goods group (average increase of 12%); Unclassifiable group (average increase of 6%); and the Motor Vehicles and Related Industries group which showed increases ranging from a marginal increase in 1955, to a 77% increase in 1957. (This latter increase in the Motor Vehicles and Related Industries group reflects the occurrence of the annual peak of shipments in March instead of subsequent months as in 1955, 1956, and 1958.) The remaining three industry groups had increases in six of the seven preceding years. The Perishable Consumers' Goods group decreased by 3% in March 1952, but increased by an average of 8% in the remaining six years. The Durable Consumers' Goods group decreased by 2% in March 1957, but increased by an average of 13% in the remaining six years. The Heavy Transportation Equipment group decreased by 11% in March 1956, but increased by an average of 12% in the remaining six years.

The comparison of March 1959 shipments with March 1958, showed increases in six of the ten industry groups, using the Economic-Use Classification. These increases were as follows: Motor Vehicles and Related Industries group (19%); Intermediate Goods and Supplies group (9%); Unclassifiable group (6%); Perishable Consumers' Goods group (5%); Semi-Durable Consumers' Goods group (4%); Industries Producing Largely for Export group (1%). Decreases occurred in the Heavy Transportation and Equipment group (25%); Construction Goods group (8%); Other Capital Goods group (4%); and a fractional decrease in the Durable Consumers' Goods group.

Cumulative shipments for the first quarter of 1959 were higher in seven of the ten industry groups when compared to the same quarter last year. The industry groups showing increases were as follows: Motor Vehicle and Related Industries group (21%); Intermediate Goods and Supplies group (9%); Unclassifiable group (8%); Semi-Durable Consumers' Goods group (8%); Perishable Consumers' Goods group (7%); Durable Consumers' Goods group (3%); Industries Producing Largely for Export group (1%). Decreases occurred in the Heavy Transportation and Equipment group (25%); Construction Goods group (9%); and the Other Capital Goods group (4%).

**INVENTORIES:** - The preliminary estimate of the value of inventory owned by manufacturers at the end of March 1959 was \$4,023,849,000 up \$21,132,000 (0.5%) from the revised February value of \$4,002,717,000. March inventories are generally higher than February, though 1957 and 1958 showed only small changes, and this year's increase was less than those in 1955 and 1956 (1.0% and 1.5%, respectively). The level of inventory owned in 1959 continues to approach that of 1958 with March 1959 only 1.5% below the March 1958 level.

Since progress payments holdings were practically unchanged from the revised February level, total inventory held (including both inventory owned by manufacturers and inventory held under progress payments arrangements) at \$4,460,976,000 was also 0.5% above the revised February value (\$4,440,051,000). Raw materials at \$1,971,148,000 were up very slightly from the revised February figure (\$1,970,582,000) but about 2% below March 1958. Goods in process held (\$1,211,672,000) were up fractionally from the revised February level (\$1,206,034,000) but 3% below the level of March 1958. If the simplifying assumption is made that all inventory held under progress payments arrangements is in the goods in process held category, then goods in process owned (i.e. less progress payments) at \$774,545,000 was almost 1% above the revised February value of \$768,700,000 and fractionally above the March 1958 level. Although over 1% above the revised February value (\$1,263,435,000), finished products inventory at \$1,278,156,000 was more than 2% below the March 1958 level.

February to March changes in inventory owned by Economic-Use Groups were generally upwards though all changes were small. The only more than 1% changes were in Industries Producing Largely for Export (up about 3%) and Semi-Durable Consumers' Goods Industries (down just over 1%). In both cases the changes were in line with the pattern of earlier years. While changes in other groups were in general smaller than in earlier years, their direction was in most cases the same. Exceptions were the Other Capital Goods Industries, where the slight increase this March was the first March increase since 1956, and the Construction Goods Industries, which were practically unchanged this year, while 3 of the 4 earlier years showed substantial March increases. Motor Vehicles and Related Industries inventories show no definite pattern of February-March changes, though past changes in both directions have been considerably larger than this year's slight increase.

On a year-over-year comparison, only three groups were above March 1958. Both Perishable and Durable Consumers' Goods Industries were up substantially (6% and 8%, respectively) from last year's level. Industries Producing Intermediate Goods and Supplies were also up about 1% from March 1958. The groups down most noticeably from a year ago were: Heavy Transportation Equipment Industries (26%); Construction Goods Industries (5%); Motor Vehicles and Related Industries and Unclassifiable Industries, (both about 4%).

The ratio of total inventory owned to shipments in March 1959, at 2.21, was below both February 1959 (2.32) and March 1958 (2.31). The finished products to shipments ratio, 0.70, was similarly below February 1959 (0.73) and March 1958 (0.74).

TRADING OUTLETS: - Sales from Manufacturers' Trading Outlets in March at \$227,912,000 were about 1% above the February level (\$225,493,000) and about 2% above March 1958. March sales are generally higher than February, and the increase this year is less than half the average increase of the previous four years. The Petroleum and Coal Industries (down 5%) were the only ones not to share in the March increase. The most noticeable sales increases were in Wood and Paper Products (up 22%) and the Rubber Industries (up 15%).

The value of inventories held at Manufacturers' Trading Outlets at \$254,194,000 was down about 1% from the revised February value (\$256,173,000), and down over 5% from the March 1958 level. February to March changes in inventories in the past four years have been mixed. Iron and Steel Industries and Chemical Industries, were both up about 3%, Electrical and Rubber Industries were practically unchanged, and all other groups showed declines.

ORDERS: - The value of new orders received during March was \$1,822,295,000, an increase of 11% from the revised February value of \$1,636,773,000 and an increase of 5% from the March 1958 value of \$1,736,906,000. Increases in the range of 1% to 11% occurred in six of the seven preceding years. The one decrease (4%) was in March 1954.

New orders exceeded shipments by \$1,877,000 during the month, with the result that unfilled orders increased by this amount. The level of unfilled orders at the end of March was \$2,098,563,000, which was marginally above the February level of \$2,096,686,000 and 13% below the level at the end of February 1958 (\$2,421,133,000).

There were increases in the value of new orders in eight of the ten economic-use groups in the current February-March comparison, but comparison with the seven preceding years did not indicate any pronounced improvement or decline in any of the economic-use groups. The one exception was the Industries Producing Largely for Export group which increased by 22% in March 1959, compared to a 1% decrease in March 1956 and smaller increases in the six preceding years (ranging from 2% to 21%). The March 1959 increase of 5% in the Perishable Consumers' Goods group was lower than the increase in any of the preceding six years. The Semi-Durable Consumers' Goods group decreased in four of the seven preceding years (decreases from 1% to 5%) but the remaining three years (1955, 1957 and 1958) had increases greater than the 1% increase in March 1959. The Intermediate Goods and Supplies group increased by 4% in March 1959 compared to decreases ranging from 2% to 7% (in 1953, 1955 and 1956) and increases ranging from 3% to 11% in the remaining four preceding years. The Unclassifiable group showed a marginal increase in March 1959 compared to a 5% decrease in 1952 and increases between 2% and 10% in the remaining six preceding years. In March 1959, the Construction Goods group increased by 17%, the Other Capital Goods group increased by 5%, the Motor Vehicles and Related Industries group increased only marginally, and the Durable Consumers' Goods group decreased by 10%. For these last four groups there is no definite pattern discernible in previous year's figures. The Heavy Transportation and Equipment Group showed a positive new orders value in March 1959 after a negative value in February, but the level was lower than March last year. The February-March trend for this group has been erratic in previous years.

A comparison of unfilled orders at the end of March as compared with February levels showed increases in seven of the ten economic-use groups as follows: Perishable Consumers' Goods group (9%); Industries Producing Largely for Export group (7%); Construction Goods group (4%); and approximately 1% increases in the Other Capital Goods group, the Motor Vehicles and Related Industries group, the Intermediate Goods and Supplies group; and in the Unclassifiable group. Decreases occurred in the Semi-Durable Consumers' Goods group (13%); the Heavy Transportation and Equipment group (5%); and in the Durable Consumers' Goods group (2%).

Unfilled Orders increased in four economic-use groups in the comparison of March 1959 with March of last year. The increases were as follows: Durable Consumers' Goods group (21%); Intermediate Goods and Supplies group (18%); Motor Vehicles and Related Industries group (5%); and the Semi-Durable Consumers' Goods group (5%). The largest decreases were in the Heavy Transportation and Equipment group (46%) and the Construction Goods group (10%). The remaining groups (Perishable Consumers' Goods, Other Capital Goods, Industries Producing Largely for Export, and the Unclassifiable group) showed decreases between 1% and 3%.

Table 1. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT,  
IN ALL MANUFACTURING INDUSTRIES, by months. (1)

(in thousands of dollars)

(For definitions, see Page 51.)

Date	SHIPMENTS <sup>(2)</sup>	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held			
						TOTAL	Raw Materials	Goods in Process	Finished Products <sup>(5)</sup>
1955 -									
January	1,396,578	1,500,182	2,618,344	3,331,590	462,891	3,794,481	1,737,919	1,088,573	967,989

(1) Table 1 includes estimates for all items in all industries in Tables 2 and 3 following, which represent the different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 2. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 13. (5) Change in series between December 1953 and January 1959, see footnote 2, page 46. (6) Preliminary.

Table 2. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(in thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) The value of unfilled orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of inventory owned as well. (5) Preliminary.

(1) See footnote 1, page 1. (2) This grouping does not include the consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 1.

(4) Change in series between December 1958 and January 1959, see footnote 2, page 46. (5) Preliminary.

Table 3 (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(in thousands of dollars)

CAPITAL GOODS INDUSTRIES

(b1) - Total Capital Goods Industries. (1)

MISCELLANEOUS INDUSTRIES

(dl) - Industries Producing Largely For Export

(For definitions, see Page 51.)

(For industries included, see Page 49.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys.

(2) The value of inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of inventory owned as well.

Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 6 Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

(in thousands of dollars)

(For description, see December 1958 report, page iv)

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported trading outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) First quarter.

# INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 4. A double asterick indicates that the data for the industry are shown in Table 4 combined with data for one or more similar industries as indicated in the footnotes for that table.

## PERISHABLE CONSUMER GOODS INDUSTRIES

\*\* Slaughtering and Meat Packing (1)(s)(i)  
 \*\* Sausages and Casings (1)(s)  
 \*\* Butter and Cheese Factories (1)(s)(i)  
 \*\* Concentrated Milk (1)(s)(i)(o)  
 \*\* Processed Cheese (1)(s)(i)  
 \*\* Other Dairy Products (1)(s)(i)  
 \* Fruit and Vegetable Preparations (1)(s)(i)(o)  
 Breakfast Foods (1)(s)(i)(o)  
 \* Biscuits and Crackers (1)(s)(i)(o)  
 Bread and Other Bakery Products (1)(s)  
 Aerated Waters (1)(s)  
 Distilled Liquors (1)(s)(i)  
 \* Breweries (1)(s)(i)  
 \* Wines (1)(s)(i)(o)  
 \* Confectionery (1)(s)(i)(o)  
 Macaroni (1)(s)(i)  
 \*\* Miscellaneous Food Preparations (1)(s)(i)(o)  
 Tobacco Processing and Packing (2)(s)(i)  
 Tobacco, Cigars and Cigarettes (2)(s)(i)  
 Salt (14)(s)(i)  
 \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)  
 \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)  
 \* Toilet Preparations (16)(s)(i)  
 Polishes and Dressings (16)(s)(i)(o)  
 Candles (17)(s)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES

\* Rubber Footwear (3)(s)(i)  
 \* Leather Footwear (4)(s)(i)(o)  
 Leather Gloves and Mittens (4)(s)  
 Miscellaneous Leather Products (4)(s)  
 \* Carpets, Mats and Rugs (5)(s)(i)(o)  
 \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)  
 \*\* Automobile Accessories, Fabric (5)(s)  
 \*\* Embroideries etc. (5)(s)  
 \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)  
 \*\* Men's Clothing (6)(s)(i)(o)  
 \*\* Men's Clothing Contractors (6)(s)  
 \*\* Children's Clothing (6)(s)(i)(o)  
 \*\* Women's Clothing (6)(s)(i)(o)  
 \*\* Women's Clothing Contractors (6)(s)  
 \* Hosiery (6)(s)(i)(o)  
 \* Other Knit Goods (6)(s)(i)(o)  
 \* Corsets and Foundation Garments (6)(s)(i)(o)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

Fur Goods (6)(s)(i)  
 Hats and Caps (6)(s)(i)(o)  
 Oiled and Waterproof Clothing (6)(s)  
 Fabric Gloves and Mittens (6)(s)  
 Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)  
 \* Brooms, Brushes and Mops (17)(s)(i)(o)  
 Fountain Pens and Pencils (17)(s)(i)(o)  
 Sporting Goods (17)(s)(i)  
 Toys and Games (17)(s)(i)  
 Lamps, electric, and lamp shades (17)(s)  
 Pipes, lighters and smokers' supplies (17)(s)  
 Umbrellas (17)(s)

## DURABLE CONSUMER GOODS INDUSTRIES

\* Furniture (7)(s)(i)(o)  
 Bicycles and Parts (11)(s)(i)(o)  
 Boat Building (11)(s)  
 \* Jewellery and Silverware (12)(s)(i)(o)  
 \* Radios and Parts (13)(s)(i)(o)  
 \* Refrigerators and Appliances (13)(s)(i)(o)  
 Musical Instruments (17)(s)(i)(o)  
 Clocks and Watches (17)(s)

## HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

Aircraft (11)(s)(i)(o)  
 \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)  
 Shipbuilding and Repairing (11)(s)(i)(o)

## OTHER CAPITAL GOODS INDUSTRIES

\* Agricultural Implements (10)(s)(i)(o)  
 \* Hardware and Tools (10)(s)(i)(o)  
 \* Household, Office and Store Machinery (10)(s)(i)(o)  
 \* Machine Tools (10)(s)(i)(o)  
 \* Industrial Machinery n.e.c. (10)(s)(i)(o)  
 \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)  
 Signs (17)(s)

## CONSTRUCTION GOODS INDUSTRIES

Sash, Door and Planing Mills (7)(s)(i)(o)  
 Hardwood Flooring (7)(s)(i)(o)  
 \* Roofing Paper (8)(s)(i)(o)  
 \* Boilers and Plate Work (10)(s)(i)(o)  
 \* Fabricated and Structural Steel (10)(s)(i)(o)

CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

MISCELLANEOUS INDUSTRIES

(a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

(b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)
- \* Acids, Alkalis and Salts (16)(s)(i)(o)
- \* Fertilizers (16)(s)(i)(o)
- Vegetable Oil Mills (16)(s)(i)(o)
- \* Primary Plastics (16)(s)(i)(o)
- Compressed Gases (16)(s)(i)(o)
- \* Adhesives (16)(s)(i)(o)
- Printing Inks (16)(s)
- Writing Inks (16)(s)
- Typewriter Supplies (17)(s)
- Buttons, Buckles and Fasteners (17)(s)
- Artificial Flowers and Feathers (17)(s)
- Hair Goods (17)(s)
- Stamps and Stencils 17(s)
- Miscellaneous Industries, n.e.c. (17)(s)(i)(o)

(d) UNCLASSIFIABLE

- \*\* Starch and Glucose (1)(s)
- \* Canvas Products (5)(s)(i)(o)
- \* Plywood and Veneer Mills (7)(s)(i)(o)
- Miscellaneous Wood Products (7)(s)(i)(o)
- Commercial Printing (9)(s)
- Engraving, Stereotype and Allied Industries (9)(s)
- Printing and Publishing (9)(s)
- Heating and Cooking Apparatus (10)(s)(i)(o)
- \* Sheet Metal Products (10)(s)(i)(o)
- \* Miscellaneous Iron and Steel Products (10)(s)(i)(o)
- Machine Shop Products (10)
- Miscellaneous Transportation Equipment (11)(s)
- \* Brass and Copper Products (12)(s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products (12)
- Glass and Glass Products (14)(s)(i)(o)
- \* Petroleum Refining and Products (15)(s)(i)
- \* Paints and Varnishes (16)(s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (16)(s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

C O N C E P T S

Shipments - (Tables 1 to 5) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 1 to 4) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 1 to 4) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 1 to 5) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 1 to 4) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 1 to 4) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 1 to 5) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 6) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 4) and the Standard Industrial Classification groupings of industries used in Tables 2, 5 and 6, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 3, and 5) will be found in the December 1958 report, Page 5.

S O U R C E S

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,934 plants in 95 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

(1) BREAK IN SERIES SEE FOOTNOTE 3, PAGE I.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND UNFILLED ORDERS IN ALL MANUFACTURING INDUSTRIES;

## RATIOS OF INVENTORY TO SHIPMENTS; AND RATIOS OF UNFILLED ORDERS TO SHIPMENTS

TREND SUMMARY

Preliminary estimates indicate the following trends for April:

**Shipments** Manufacturers' shipments in April were valued at an estimated \$1,902,359,000, up 2% from the revised March value of \$1,867,874,000, and up 5% from the April 1958 value of \$1,812,575,000. In the preceding seven years there were April-over-March increases of 2% in 1952 and in 1958, while the remaining five years had an average decrease of 2%. Cumulative shipments in the first four months in this year were valued at \$7,184,461,000, five percent higher than last year's corresponding total of \$6,851,730,000.

Using the Economic-Use Classification, the comparison of shipments values in April with the revised values for March 1959, showed increases in six of the ten industry groups. The increases were as follows: Motor Vehicles and Related Industries group (6%); Intermediate Goods and Supplies group (4%); Industries Producing Largely for Export group (4%); Construction Goods group (3%); Perishable Consumers' Goods group (3%); and the Durable Consumers' Goods group (2%). In the seven preceding years the Motor Vehicles and Related Industries group showed changes ranging from a 13% decrease in 1957 to a 56% increase in 1955. The Intermediate Goods and Supplies group had increases of 1% and 5% in 1953 and 1958, respectively, with the remaining five years averaging a 4% decrease. The Industries Producing Largely for Export group increased by 4% in April 1958 but averaged a 5% decrease in the preceding six years. The Construction Goods group decreased in 1952 and 1953 by 1% and in 1957 by 4%, but increased by an average of 5% in the remaining four years. The Perishable Consumers' Goods group decreased marginally in 1953 and by 3% in 1954, but increased by an average of 4% in the remaining five years. The Durable Consumers' Goods group increased by 3% in 1952 and by 2% in 1953, but had decreases ranging from 18% (1955) to 2% (1956) in the remaining five years.

Decreases in April 1959 as compared with March 1959, occurred in the Semi-Durable Consumers' Goods group (6%), the Heavy Transportation and Equipment group (4%), and in the Other Capital Goods and the Unclassifiable group (a fractional decrease). In the seven preceding years, the Semi-Durable Consumers' Goods group showed an average decrease of 11%. The Heavy Transportation and Equipment group increased by 5% and 15% in 1952 and 1953 respectively, but decreased by an average of 11% in the remaining five years. The Other Capital Goods group decreased in 1954 and 1955 by 2% and in 1958 by 1%, but increased by an average of 3% in the remaining four years. The Unclassified group decreased by an average of 1% in the seven preceding years.

The comparison of April 1959 shipments with April 1958 (using the Economic-Use Classification) showed increases in eight of the ten industry groups as follows: Motor Vehicles and Related Industries group (17%); Intermediate Goods and Supplies group (11%); Semi-Durable Consumers' Goods group (11%); Durable Consumers' Goods group (8%); Unclassifiable group (7%); Perishable Consumers' Goods group (4%); Other Capital Goods group (2%); and the Industries Producing Largely for Export group (2%). Decreases occurred in the Heavy Transportation and Equipment group (24%); and the Construction Goods group (2%).

Cumulative shipments for the first four months of 1959 were higher in seven of the ten industry groups when compared to the total for the same five months last year. The increases were as follows: Motor Vehicles and Related Industries group (21%); Intermediate Goods and Supplies group (10%); Semi-Durable Consumers' Goods group (9%); Unclassifiable group (8%); Perishable Consumers' Goods group (6%); Durable Consumers' Goods group (4%); and Industries Producing Largely for Export group (1%). Decreases occurred in the Heavy Transportation and Equipment group (26%); Construction Goods group (5%); and in the Other Capital Goods group (1%).

**Inventories** Estimated value of total inventory owned by manufacturers at the end of April was \$4,001,395,000, which was almost unchanged (down 0.2%) from the revised March value of \$4,008,121,000, and only slightly (0.4%) below the April, 1958 level of \$4,016,605,000. Changes in inventory from March to April are generally very small, and this year's movement appears in line with the normal pattern.

Progress payments holdings declined slightly during April, so that total inventory held (including both inventory owned by manufacturers and inventory held under progress payments arrangement) at \$4,418,318,000 was also fractionally (0.2%) below the revised March level of \$4,428,564,000. Progress payments holdings at \$416,723,000 have, however, declined by 16% from the April, 1958 level of \$493,571,000, so total inventory held at the end of April was 2% below the April, 1958 value of \$4,510,176,000. Within the total of inventory held, raw materials, at \$1,951,879,000, were down 0.4% from the March level and 1% from April, 1958; goods in process, at \$1,201,932,000 were practically unchanged from the March level and down 4% from April, 1958; and finished products, at \$1,264,307,000 were down 0.2% from the March level and 0.6% from April, 1958.

Changes by Economic-Use groups in April, as compared with March, were all small, and with two exceptions, were within what appear to be normal narrow ranges for April. The exceptions were the Consumers' Durable Goods group, which declined by 1%, although in each of the previous four years increases of approximately 1%; and Motor Vehicles and Related Industries, which declined only fractionally (0.3%) although in three of the four previous years decreases ranged from 5 to 9%.

On a year-over-year comparison, half the groups were above the April 1958 level. The only large increase was in the Consumers' Durable Goods group (up 7%); the Consumers' Perishable Goods group was up 3.5%; Motor Vehicles and Related Industries, and Intermediate Goods and Supplies were each up 2%; and the Industries Producing Largely for Export group was up 1%. In the groups showing declines, the largest occurred in the Heavy Transportation Equipment group (down 21%); the Other Capital Goods and Unclassifiable groups were each down 3%; the Semi-Durable Consumers' Goods group was down 2%; and the Construction Goods was down 1%.

The April ratio of total inventory owned to shipments, at 2.10 was down from the March value of 2.15 and from the April 1958 value of 2.22. The April ratio of finished products to shipments at 0.66 was also below both the March level of 0.68 and the March, 1958 level of 0.70.

Orders Value of new orders received during April was \$1,889,677,000, which was 1.5% higher than in March, and 7% higher than in April, 1958. In 1958, new orders in April, as compared with March, rose fractionally more than they did this year, but the six previous years had shown either declines or smaller increases than this year's April values.

Although new orders were higher in April than in March, they were \$12,682,000 lower than shipments for the month, with the result that unfilled orders declined by this amount. Unfilled orders were valued at \$2,068,894,000, 0.6% below the March level of \$2,081,576,000 and 13% below the April, 1958 value of \$2,376,240,000.

Changes in new orders during April by Economic-Use groups of Industries were relatively small. In most cases, they followed the normal pattern for the month as shown over the previous six years, or, in cases where there is no apparent trend for the month, were within the normal range of change. There were only two exceptions; the Industries Producing Largely for Export group had a decline of 1%, which was smaller than any April decline in the previous 6 years, the other drops having ranged from 4 to 15%. The Motor Vehicles and Related Industries group had an increase of 4%, but most of the previous six years had shown considerably larger increases than this.

A comparison of unfilled orders at the end of April with March levels shows small increases in each of the Consumers' Goods groups, no change in the Construction Goods group, and small declines in all the remaining groups. A comparison with values for April, 1958 shows large increases in two groups (20% for Consumers' Durable Goods and 16% for Intermediate Goods and Supplies), and smaller increases in the Perishable Consumers' Goods group (5%), Semi-Durable Consumers' Goods group (10%), and Motor Vehicles and Related Goods group (5%). There was no change in the year-over-year comparison for the Industries Producing Largely for Export group. The remaining four groups showed declines from the previous year's level; the Heavy Transportation Equipment group was down 44%, the Other Capital Goods group down 3%, the Construction Goods group down 8%, and the Unclassifiable Industries down 7%.

TRADING OUTLETS Sales from Manufacturers' Trading Outlets in April were valued at an estimated \$239,762,000 up 1% from the revised March sales of \$236,597,000. In the four previous years, April sales increased in 1957 and 1958 (a fractional increase and a 2% increase, respectively), but decreased in 1955 and 1956 (6% and 2%, respectively). The Rubber Industries showed the largest sales increase in April 1959 (up 18%), followed by the Chemical Industries (up 11%), with the remainder increasing or decreasing by smaller percentages ranging from fractions of 1% to 2%.

The value of inventories held at Manufacturers' Trading Outlets was estimated at \$257,133,000, up by almost 1% from the revised March value of \$255,519,000 and down 6% from the April 1958 level. March-to-April changes in inventories in the four previous years were all upward, ranging from increases of 1% to almost 4%. The Wood and Paper Industries showed the largest inventory change in April 1959 (up 6%), followed by the Iron and Steel Industries (up 3%), the Chemical Industries (up 2%), and the All Other group of industries (up 1%). The remaining groups were down by 1% or less.

(1) Table 1 includes estimates for all items in all industries; in Tables 2 and 3 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 2. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 13. (5) Change in series between December 1958 and January 1959, see footnote 2, page 46. (6) Preliminary.

Table 2. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(in thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,  
(For definitions, see Page 51.)  
(For industries included, see Page 49.)

Date	SHIPMENTS <sup>(2)</sup>	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held			
						TOTAL	Raw Materials	Goods in Process	Finished Products
1955 -		(3)	(3)

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) See footnote 3, page 1.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owned, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 46. (6) Preliminary.

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 1. (2) See footnote 2, page 1. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 1. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 1.

(4) Change in series between December 1958 and January 1959, see footnote 2, page 46. (5) Preliminary.

Table 3 (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(in thousands of dollars)

CAPITAL GOODS INDUSTRIES

(b1) - Total Capital Goods Industries. (1)

(For definitions, see Page 51.)

(For industries included, see Page 49.)

MISCELLANEOUS INDUSTRIES

(dl) - Industries Producing Largely For Export

(For definitions, see Page 51.)

(For industries included, see Page 49.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys.

(2) The value of inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of inventory owned as well.

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 6 Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

(in thousands of dollars)

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 4. A double asterick indicates that the data for the industry are shown in Table 4 combined with data for one or more similar industries as indicated in the footnotes for that table.

PERISHABLE CONSUMER GOODS INDUSTRIES

\*\* Slaughtering and Meat Packing (1)(s)(i)  
 \*\* Sausages and Casings (1)(s)  
 \*\* Butter and Cheese Factories (1)(s)(i)  
 \*\* Concentrated Milk (1)(s)(i)(o)  
 \*\* Processed Cheese (1)(s)(i)  
 \*\* Other Dairy Products (1)(s)(i)  
 \* Fruit and Vegetable Preparations (1)(s)(i)(o)  
 Breakfast Foods (1)(s)(i)(o)  
 \* Biscuits and Crackers (1)(s)(i)(o)  
 Bread and Other Bakery Products (1)(s)  
 Aerated Waters (1)(s)  
 Distilled Liquors (1)(s)(i)  
 \* Breweries (1)(s)(i)  
 \* Wines (1)(s)(i)(o)  
 \* Confectionery (1)(s)(i)(o)  
 Macaroni (1)(s)(i)  
 \*\* Miscellaneous Food Preparations (1)(s)(i)(o)  
 Tobacco Processing and Packing (2)(s)(i)  
 Tobacco, Cigars and Cigarettes (2)  
 Salt (14)(s)(i)  
 \* Medicinal and Pharmaceutical  
 Preparations (16)(s)(i)(o)  
 \* Soaps, Washing and Cleaning  
 Compounds (16)(s)(i)(o)  
 \* Toilet Preparations (16)(s)(i)  
 Polishes and Dressings (16)(s)(i)(o)  
 Candles (17)(s)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES

\* Rubber Footwear (3)(s)(i)  
 \* Leather Footwear (4)(s)(i)(o)  
 Leather Gloves and Mittens (4)(s)  
 Miscellaneous Leather Products (4)(s)  
 \* Carpets, Mats and Rugs (5)(s)(i)(o)  
 \* Oilcloth, Linoleum and Other Coated  
 Fabrics (5)(s)(i)(o)  
 \*\* Automobile Accessories, Fabric (5)(s)  
 \*\* Embroideries etc. (5)(s)  
 \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)  
 \*\* Men's Clothing (6)(s)(i)(o)  
 \*\* Men's Clothing Contractors (6)(s)  
 \*\* Children's Clothing (6)(s)(i)(o)  
 \*\* Women's Clothing (6)(s)(i)(o)  
 \*\* Women's Clothing Contractors (6)(s)  
 \* Hosiery (6)(s)(i)(o)  
 \* Other Knit Goods (6)(s)(i)(o)  
 \* Corsets and Foundation Garments (6)(s)(i)(o)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

Fur Goods (6)(s)(i)  
 Hats and Caps (6)(s)(i)(o)  
 Oiled and Waterproof Clothing (6)(s)  
 Fabric Gloves and Mittens (6)(s)  
 Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)  
 \* Brooms, Brushes and Mops (17)(s)(i)(o)  
 Fountain Pens and Pencils (17)(s)(i)(o)  
 Sporting Goods (17)(s)(i)  
 Toys and Games (17)(s)(i)  
 Lamps, electric, and lamp shades (17)(s)  
 Pipes, lighters and smokers' supplies (17)(s)  
 Umbrellas (17)(s)

DURABLE CONSUMER GOODS INDUSTRIES

\* Furniture (7)(s)(i)(o)  
 Bicycles and Parts (11)(s)(i)(o)  
 Boat Building (11)(s)  
 \* Jewellery and Silverware (12)(s)(i)(o)  
 \* Radios and Parts (13)(s)(i)(o)  
 \* Refrigerators and Appliances (13)(s)(i)(o)  
 Musical Instruments (17)(s)(i)(o)  
 Clocks and Watches (17)(s)

HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

Aircraft (11)(s)(i)(o)  
 \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)  
 Shipbuilding and Repairing (11)(s)(i)(o)

OTHER CAPITAL GOODS INDUSTRIES

\* Agricultural Implements (10)(s)(i)(o)  
 \* Hardware and Tools (10)(s)(i)(o)  
 \* Household, Office and Store Machinery (10)(s)(i)(o)  
 \* Machine Tools (10)(s)(i)(o)  
 \* Industrial Machinery n.e.c. (10)(s)(i)(o)  
 \* Heavy Electrical Equipment and  
 Machinery (13)(s)(i)(o)  
 Signs (17)(s)

CONSTRUCTION GOODS INDUSTRIES

Sash, Door and Planing Mills (7)(s)(i)(o)  
 Hardwood Flooring (7)(s)(i)(o)  
 \* Roofing Paper (8)(s)(i)(o)  
 \* Boilers and Plate Work (10)(s)(i)(o)  
 \* Fabricated and Structural Steel (10)(s)(i)(o)

CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

MISCELLANEOUS INDUSTRIES

(a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)

## CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### CONCEPTS

Shipments - (Tables 1 to 5) - represent an estimated projection, on a monthly basis, of the latest available Census of industry values.

New Orders - (Tables 1 to 4) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 1 to 4) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 1 to 5) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 1 to 4) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 1 to 4) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 1 to 5) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to repayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 6) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also included, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 4) and the Standard Industrial Classification groupings of industries used in Tables 2, 5 and 6, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 3, and 5) will be found in the December 1955 report, page 5.

### SOURCES

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries report one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

### REVISIONS TO PREVIOUSLY PUBLISHED ESTIMATES

In view of the fact that final gross values of factory shipments from the Census of Industry were available almost six months earlier for 1957 than has normally been the case, the monthly shipments series for 1957, 1958 and 1959 have been revised in this publication to incorporate these final values, rather than waiting for the December publication which normally contains all benchmark revisions.

This shipments revision necessitated a revision to the New Orders series for the same years, since new orders are derived from shipments and unfilled orders.

In addition, the Unfilled Orders series was revised for 1958 and 1959 to incorporate a number of late returns which had not been included in the earlier published estimates.

### NEW SERIES

A new series has been included in this report giving a breakdown of the total monthly shipments estimates by province of origin. This series is given in Table I.

Provincial shipments values will run one month behind the rest of the material in the report. Because of the time involved in compilation, the cross-classification cannot be made on the preliminary estimates for any month.

There will be a slight difference in the estimating procedure for shipments for the preliminary month and the revised month, as a result of the provincial breakdown. The preliminary month will, as before, be based on reported values inflated to total for each industry on the basis of the proportion of total shipments in the industry accounted for by firms in the sample in the latest benchmark year. The revised month will be based on reported values inflated to total for each industry by provinces, with the all-Canada industry total arrived at by summation. Since the difference in total between the two methods, using the same reported data, is generally less than half of one percent, this change does not have any practical effect on the comparability of the preliminary month with all earlier months.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

Preliminary estimates indicate the following trends for May:

Shipments Manufacturers' shipments in May were valued at an estimated \$1,955,855,000, fractionally (0.4%) below the revised April value of \$1,963,917,000, but up 2% from the May 1958 level of \$1,910,252,000. Shipments values normally increase in May; in 1953 and 1954, increases were fractional (0.7%), but in the four following years they ranged from 5 to almost 8%. Cumulative shipments for the first five months of the year were valued at \$9,203,964,000, which was 4.5% higher than last year's corresponding total of \$8,807,466,000.

Inventories Estimated value of total inventory owned by manufacturers at the end of May was \$3,984,896,000, down fractionally (0.3%) from the revised April value of \$3,997,572,000, but fractionally (0.2%) above the May 1958 level of \$3,978,494,000. Changes from April to May are generally very small, and this year's movement appears in line with the normal pattern.

Progress payments holdings also declined slightly in May, so that total inventory held (including both inventory owned by manufacturers and inventory held under progress payments arrangements) at \$4,404,582,000 was also fractionally (0.3%) below the revised April level of \$4,415,649,000. Progress payments holdings at \$419,686,000 were 13% below the May 1958 value of \$482,847,000, with the result that total inventory held at the end of May was over 1% below the May 1958 value of \$4,461,341,000.

Within the total of inventory held, raw materials at \$1,925,345,000 were down 0.3% from the April level and 2% below May, 1958; goods in process, at \$1,218,979,000, were practically unchanged from the April level and 1% below May, 1958; and finished products, at \$1,260,258,000, were 0.6% below April values but practically unchanged from May, 1958.

The May ratio of total inventory owned to shipments, at 2.04, was unchanged from the revised April value, and slightly below the May, 1958 value of 2.08. The May ratio of finished products to shipments, at 0.64, was slightly below both the revised April value of 0.65 and the May 1958 value of 0.66.

Orders Value of new orders received during May was \$1,997,874,000, 2.5% higher than in April and almost 4% higher than in May, 1958. The increase over April values was lower than in any of the previous 5 years, when April-May increases ranged from 4 to 12%.

New orders were higher than shipments during May by \$42,019,000 with the result that unfilled orders rose by this amount. Total unfilled orders at the end of the month were valued at \$2,106,219,000, 2% above the April level, but 12% below the May 1958 value.

(1) Table 1 includes estimates for all items in all industries; in Tables 2 and 3 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 2. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments in certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 14. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

TABLE 3. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(in thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) See footnote 3, page 2.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owned, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

TABLE 3. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

TABLE 4. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(in thousands of dollars)

## CONSUMER GOODS INDUSTRIES

(a1)-Total Consumer Goods Industries (1)

(For definitions, see Page 52.)

(For industries included, see Page 50.)

Date	SHIPMENTS	ORDERS		INVENTORY AT END OF MONTH

December									

(1) See footnote 1, page 2. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 2. (4) Change in series between December 1958 and January 1959, see footnote 2, page 47. (5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(in thousands of dollars)

## CAPITAL GOODS INDUSTRIES

(b1) - Total Capital Goods Industries. (1)

(For definitions, see Page 52.)

(For industries included, see Page 50.)

Date	SHIPMENTS	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)

MISCELLANEOUS INDUSTRIES

(dl) - Industries Producing Largely For Export

(For definitions, see Page 52.)

(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total export.

Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting to the Electrical Apparatus Industry group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 7. Cont'd. - MANUFACTURERS' TRADING OUTLETS

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant sales.

(3) Preliminary.

# INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 5. A double asterick indicates that the data for the industry are shown in Table 5 combined with data for one or more similar industries as indicated in the footnotes for that table.

## PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
- \* Fruit and Vegetable Preparations (1)(s)(i)(o)
- \* Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- \* Bread and Other Bakery Products (1)(s)
- \* Aerated Waters (1)(s)
- \* Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- \* Macaroni (1)(s)(i)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- \* Tobacco Processing and Packing (2)(s)(i)
- \* Tobacco, Cigars and Cigarettes (2)(s)(i)
- \* Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- \* Polishes and Dressings (16)(s)(i)(o)
- \* Candles (17)(s)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
- \* Leather Gloves and Mittens (4)(s)
- \* Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
- \* Hosiery (6)(s)(i)(o)
- \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- \* Fountain Pens and Pencils (17)(s)(i)(o)
- \* Sporting Goods (17)(s)(i)
- \* Toys and Games (17)(s)(i)
- \* Lamps, electric, and lamp shades (17)(s)
- \* Pipes, lighters and smokers' supplies (17)(s)
- \* Umbrellas (17)(s)

## DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- \* Bicycles and Parts (11)(s)(i)(o)
- \* Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- \* Musical Instruments (17)(s)(i)(o)
- \* Clocks and Watches (17)(s)

## HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

## OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)
- \* Industrial Machinery n.e.c. (10)(s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)
- \* Signs (17)(s)

## CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (7)(s)(i)(o)
- Hardwood Flooring (7)(s)(i)(o)
- \* Roofing Paper (8)(s)(i)(o)
- \* Boilers and Plate Work (10)(s)(i)(o)
- \* Fabricated and Structural Steel (10)(s)(i)(o)

CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

MISCELLANEOUS INDUSTRIES

(a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

(b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)
- \* Acids, Alkalis and Salts (16)(s)(i)(o)
- \* Fertilizers (16)(s)(i)(o)
- Vegetable Oil Mills (1)(s)(i)(o)
- \* Primary Plastics (16)(s)(i)(o)
- Compressed Gases (16)(s)(i)(o)
- \* Adhesives (16)(s)(i)(o)
- Printing Inks (16)(s)
- Writing Inks (16)(s)
- Typewriter Supplies (17)(s)
- Buttons, Buckles and Fasteners (17)(s)
- Artificial Flowers and Feathers (17)(s)
- Hair Goods (17)(s)
- Stamps and Stencils (17)(s)
- Miscellaneous Industries, n.e.c. (17)(s)(i)(o)

(d) UNCLASSIFIABLE

- \*\* Starch and Glucose (1)(s)
- \* Canvas Products (5)(s)(i)(o)
- \* Plywood and Veneer Mills (7)(s)(i)(o)
- Miscellaneous Wood Products (7)(s)(i)(o)
- Commercial Printing (9)(s)
- Engraving, Stereotype and Allied Industries (9)(s)
- Printing and Publishing (9)(s)
- Heating and Cooking Apparatus (10)(s)(i)(o)
- \* Sheet Metal Products (10)(s)(i)(o)
- \* Miscellaneous Iron and Steel Products (10)(s)(i)(o)
- Machine Shop Products (10)
- Miscellaneous Transportation Equipment (11)(s)
- \* Brass and Copper Products (12)(s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products (12)
- Glass and Glass Products (14)(s)(i)(o)
- \* Petroleum Refining and Products (15)(s)(i)
- \* Paints and Varnishes (16)(s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (16)(s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

# CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

## CONCEPTS

Shipments - (Tables 1 to 6) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 2 to 5) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 2 to 5) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 2 to 6) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 2 to 5) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 2 to 5) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 2 to 6) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 7) - are defined as any establishments (other than retail stores) operated by manufacturers apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning, or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are all excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Tables 3, 6 and 7, are defined according to the Standard Industrial Classification Manual. description of the Economic-Use groupings of industries (Tables 4, and 6) will be found in the December 1955 report Page 5.

## SOURCES

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

ESTIMATED ANNUAL VALUE OF SHIPMENTS<sup>(1)</sup> IN SELECTED INDIVIDUAL INDUSTRIES

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

(1) BREAK IN SERIES: SEE FOOTNOTE 3, PAGE 2.

TREND SUMMARY

Preliminary estimates indicate the following trends for June:

Shipments:- Manufacturers' shipments in June were valued at an estimated \$2,030,175,000 up 2% from the revised May value of \$1,992,787,000 and up 6% from the June 1958 value of \$1,907,730,000. In the preceding seven years, there were greater June-over-May increases in 1953 to 1955 inclusive, and decreases averaging 3% in 1952, 1956 and 1957. Cumulative shipments in the first six months of this year were valued at \$11,271,071,000, five percent higher than last year's corresponding total of \$10,715,196,000.

Using the Economic-Use Classification, the comparison of shipments values in June with the revised values for May 1959, showed increases in eight of ten industry groups. The increases were as follows: Motor Vehicles and Related Industries group (8%); Durable Consumers' Goods group (5%); Construction Goods group (4%); Other Capital Goods group (3%); Unclassifiable group (3%); Perishable Consumers' Goods group (2%); Heavy Transportation and Equipment group (2%); Intermediate Goods and Supplies group (2%). In the seven preceding years, June shipments in the Motor Vehicles and Related Industries group decreased by percentages ranging from 1% in 1952 and 1953 to 20% in 1957. The Durable Consumers' Goods group decreased by 4% in 1957 but increased from 1% to 7% in the remaining six preceding years. Similarly, the Construction Goods group decreased by 5% in 1957 but increased from 1% to 13% in the remaining six preceding years. The Other Capital Goods group followed a mixed pattern ranging from a 7% decrease in 1952 to a 4% increase in 1956 for an average decrease of 2% for the seven preceding years. The Unclassifiable group of industries averaged a 1% increase over these same seven years. The Perishable Consumers' Goods group showed a 5% decrease in 1952 but increased by percentages ranging from 1% in 1958 to 11% in 1954 in the remaining six preceding years. The Heavy Transportation and Equipment group generally increased in June by increases ranging from 1% in 1955 to 10% in 1953 and 1957, except for 1956 when a 3% decrease occurred. The Intermediate Goods and Supplies group generally decreased in June by percentages ranging from 1% to 8% except for 1953 when a fractional increase occurred.

Decreases in June 1959, as compared with May 1959, occurred in the Semi-Durable Consumers' Goods group (2%) and the Industries Producing Largely for Export group (2%). The former decreased in each of the seven preceding years by percentages ranging from 19% in 1957 to 7% in 1955. The Industries Producing Largely for Export group decreased by 4% in June 1957 but increased in each of the remaining six preceding years by percentages ranging from 1% in 1958 to 7% in 1954.

The comparison of June 1959 shipments with June 1958 (using the Economic-Use Classification) showed increases in eight of ten industry groups as follows: Motor Vehicles and Related Industries group (23%); Semi-Durable Consumers' Goods group (17%); Intermediate Goods and Supplies group (13%); Industries Producing Largely for Export group (8%); Durable Consumers' Goods group (7%); Other Capital Goods group (7%); Perishable Consumers' Goods group (5%); Unclassifiable group (4%). Decreases occurred in the Heavy Transportation and Equipment group (16%), and the Construction Goods group (8%).

Cumulative shipments for the first six months of 1959 were higher in eight of the ten industry groups when compared to the total for the same six months last year. The increases were as follows: Motor Vehicles and Related Industries group (17%); Intermediate Goods and Supplies group (11%); Semi-Durable Consumers' Goods group (9%); Unclassifiable group (7%); Perishable Consumers' Goods group (6%); Durable Consumers' Goods group (6%); Industries Producing Largely for Export group (4%); and the Other Capital Goods group (2%). Decreases occurred in the Heavy Transportation and Equipment group (21%), and the Construction Goods group (6%).

Inventories:- The estimated value of total inventory owned by manufacturers at the end of June was \$3,977,865,000, down 0.4% from the revised May value of \$3,992,125,000 and 1.2% above the June 1958 level of \$3,929,163,000. Changes in inventory from May to June are generally small and this year's movement appears to be in line with the normal pattern.

Progress payments holdings increased marginally during June with the result that total inventory held (including both inventory owned by manufacturers and inventory held under progress payments arrangements) at \$4,390,305,000 remained slightly (0.3%) below the revised May level of \$4,404,413,000. Progress payments holdings at \$412,440,000 declined 17% from the June 1958 level of \$495,610,000, thus contributing to the June 0.8% decline of total inventory held from the June 1958 value of \$4,424,773,000. Within the total inventory held, raw materials at \$1,916,330,000 were down 0.4% from the May level and down 1.3% from June 1958; goods in process inventories at \$1,211,846,000 were down 0.4% from the May level and down 1.5% from June 1958; and finished products at \$1,262,129,000 were only marginally lower than the May level and up 0.7% from June 1958.

Changes by Economic-Use groups in June, as compared with May, were less than 1% with three exceptions. Of these, the Semi-Durable Consumers' Goods group increased by 2%, lower than the increase in any of the four previous years. The Motor Vehicles and Related Industries group was down by 2%, a decrease smaller than the 4% average for the four previous years but greater than June 1957. The Unclassifiable group was down by 1%, as compared to smaller decreases in 1957 and 1958 and small increases in 1955 and 1956. The remaining groups seem to be following what appear to be normal narrow ranges for June, with the exception of the Heavy Transportation and Equipment group which was down by an average of 4% in the four previous years of 1955 to 1958 inclusive.

On a year-over-year comparison, six of the ten industry groups were above the June 1958 level. The largest increase was in the Durable Consumers' Goods group (10%), followed by the Motor Vehicles and Related Industries group (8%), Construction Goods group (4%), Intermediate Goods and Supplies group (3%), Perishable Consumers' Goods group (3%), and Other Capital Goods (2%). In the groups showing declines, the largest was in the Heavy Transportation and Equipment group (7%), followed by the Industries Producing Largely for Export group (4%), the Semi-Durable Consumers' Goods group (2%), and a marginal decrease in the Unclassifiable group.

The June ratio of total inventory owned to shipments at 1.96 was down from the May value of 2.00 and down from the June 1958 value of 2.06. The June ratio of finished products to shipments at 0.62 was down from the May level of 0.63 and the June 1958 level of 0.66.

Orders:- The value of new orders received during June was \$2,023,786,000, fractionally greater than the May value of \$2,015,345,000, and 9% higher than in June 1958. New orders in June, as compared with May, increased in 1953 and 1954 but decreased in the remaining five of the seven preceding years.

Although new orders in June were higher than new orders in May, they were \$6,389,000 lower than shipments, with the result that unfilled orders declined by this amount. Unfilled orders were valued at \$2,080,369,000, fractionally lower than the May level of \$2,086,758,000, and 10% lower than the June 1958 value of \$2,318,002,000.

A comparison of new orders at the end of June with May levels, showed increases in six of the ten Economic-Use groups of industries. The largest increase (14%), was in the Construction Goods group, followed by the Other Capital Goods group (10%), the Motor Vehicles and Related Industries group (9%), and the Unclassifiable group of industries (8%). The Perishable Consumers' Goods group and the Intermediate Goods and Supplies group, each increased by 1%. The large June decline in new orders in the Heavy Transportation and Equipment group followed the pattern of previous years when similar large declines occurred, but the erratic pattern of changes for this group makes it difficult to find any generalization as to trend. The three remaining groups, (Semi-Durable Consumers' Goods group, Industries Producing largely for Export group, Durable Consumers' Goods group) decreased by percentages ranging from 1% to 4%. In the preceding seven years, the Construction Goods group decreased in 1952 (a fraction of 1%) and in 1955 (23%) with increases averaging 15%, in the remaining five years. The Other Capital Goods group decreased in 1955 (3%) but increased by an average of 13% in the remaining six years. The Motor Vehicles and Related Industries group increased by 2% in 1955 but decreased by an average of 8% in the remaining six years. The Unclassifiable group decreased by an average of 1% over the seven preceding years. A fractional decrease in 1958 and a 4% decrease in 1952 occurred in the Perishable Consumers' Goods group, the remaining five years increasing by an average of 7%. The Intermediate Goods and Supplies group showed an average increase of 4% in 1953 to 1955 inclusive and an average decrease of 11% in the remaining four previous years. The decrease in new orders in June 1959 in the Semi-Durable Consumers' Goods group followed the pattern of decreases in earlier years. A decrease of 2% in 1957 in the Industries Producing largely for Export group was an exception to the general pattern of increases (averaging 10%) in the remaining six previous years. In the Durable Consumers' Goods group, the irregular pattern of changes in recent years makes difficult any generalizations as to whether or not this year's changes followed normal patterns.

A comparison of unfilled orders at the end of June with May levels, shows small increases in the following: Durable Consumers' Goods group, Other Capital Goods group, Construction Goods group, Intermediate Goods and Supplies group, and the Unclassifiable group. The Semi-Durable Consumers' Goods group was the exception with an 8% increase. There were declines of 4% to 5% in the remaining groups.

A comparison with values for June 1958 shows large increases for four groups as follows: Intermediate Goods and Supplies group (29%), Durable Consumers' Goods group (18%), Motor Vehicles and Related Industries group (17%), and Perishable Consumers' Goods group (15%). The Semi-Durable Consumers' Goods group increased by 1%. The remaining five groups showed declines ranging between a fraction of 1% in the Construction Goods group, to 40% in the Heavy Transportation and Equipment group.

Trading Outlets:- Sales from Manufacturers' Trading Outlets in June were valued at an estimated \$244,522,000, up 4% from the revised May sales of \$235,229,000 and up 3% from the June 1958 level. In the four previous years, June sales increased by 2% in 1958 and decreased by an average of 3% in the remaining three years. The Petroleum and Coal Industries showed the largest sales increase in June 1959 (up 6%) with the remainder increasing or decreasing by smaller percentages ranging from 1% to 5%.

The value of inventories held at Manufacturers' Trading Outlets were estimated at \$266,184,000 up 2% from the revised May value of \$261,100,000 and down 5% from the June 1958 level. There was a fractional May to June decrease in inventories in 1955, and an average increase of 3% in the years 1956 to 1958 inclusive. There were increases in inventories in all groups of industries in June 1959, with increases ranging between 1% and 3%.

#### Revisions to Previously Published Estimates

New orders have been revised for the months of May, June, July, and August in 1958. Unfilled orders have been revised for the months of May, June, and July in 1958. These revisions are a result of corrections made by respondents to reported data in the Heavy Electrical Machinery and Equipment industry and affect entries on pages 2, 14, 23, 25, and 39.

(1) Table 1 includes estimates for all items in all industries; in Tables 3 and 4 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 3. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 14. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

TABLE 3. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(in thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,  
(For definitions, see Page 52.)

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) See footnote 3, page 2.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owned, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

(7) See page iv - "Revisions, etc".

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

TABLE 4. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(1) See footnote 1, page 2. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 2.

(4) Change in series between December 1958 and January 1959, see footnote 2, page 47. (5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)  
MISCELLANEOUS INDUSTRIES  
(dl) - Industries Producing Largely For Export  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys.

(2) The value of inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well.

(3) Preliminary

Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 7. Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

(in thousands of dollars)

(For description, see December 1958 report, page iv)

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

# INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 5. A double asterick indicates that the data for the industry are shown in Table 5 combined with data for one or more similar industries as indicated in the footnotes for that table.

## PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
- \* Fruit and Vegetable Preparations (1)(s)(i)(o)
- Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- Bread and Other Bakery Products (1)(s)
- Aerated Waters (1)(s)
- Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- Macaroni (1)(s)(i)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- Tobacco Processing and Packing (2)(s)(i)
- Tobacco, Cigars and Cigarettes (2)
- Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- Polishes and Dressings (16)(s)(i)(o)
- Candles (17)(s)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
- Leather Gloves and Mittens (4)(s)
- Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
- \* Hosiery (6)(s)(i)(o)
- \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- Fountain Pens and Pencils (17)(s)(i)(o)
- Sporting Goods (17)(s)(i)
- Toys and Games (17)(s)(i)
- Lamps, electric, and lamp shades (17)(s)
- Pipes, lighters and smokers' supplies (17)(s)
- Umbrellas (17)(s)

## DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- Bicycles and Parts (11)(s)(i)(o)
- Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- Musical Instruments (17)(s)(i)(o)
- Clocks and Watches (17)(s)

## HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

## OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)
- \* Industrial Machinery n.e.c. (10)(s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)
- Signs (17)(s)

## CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (7)(s)(i)(o)
- Hardwood Flooring (7)(s)(i)(o)
- \* Roofing Paper (8)(s)(i)(o)
- \* Boilers and Plate Work (10)(s)(i)(o)
- \* Fabricated and Structural Steel (10)(s)(i)(o)

CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

MISCELLANEOUS INDUSTRIES

(a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

(b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)
- \* Acids, Alkalis and Salts (16)(s)(i)(o)
- \* Fertilizers (16)(s)(i)(o)
- Vegetable Oil Mills (1)(s)(i)(o)
- \* Primary Plastics (16)(s)(i)(o)
- Compressed Gases (16)(s)(i)(o)
- \* Adhesives (16)(s)(i)(o)
- Printing Inks (16)(s)
- Writing Inks (16)(s)
- Typewriter Supplies (17)(s)
- Buttons, Buckles and Fasteners (17)(s)
- Artificial Flowers and Feathers (17)(s)
- Hair Goods (17)(s)
- Stamps and Stencils (17)(s)
- Miscellaneous Industries, n.e.c. (17)(s)(i)(o)

(d) UNCLASSIFIABLE

- \*\* Starch and Glucose (1)(s)
- \* Canvas Products (5)(s)(i)(o)
- \* Plywood and Veneer Mills (7)(s)(i)(o)
- Miscellaneous Wood Products (7)(s)(i)(o)
- Commercial Printing (9)(s)
- Engraving, Stereotype and Allied Industries (9)(s)
- Printing and Publishing (9)(s)
- Heating and Cooking Apparatus (10)(s)(i)(o)
- \* Sheet Metal Products (10)(s)(i)(o)
- \* Miscellaneous Iron and Steel Products (10)(s)(i)(o)
- Machine Shop Products (10)
- Miscellaneous Transportation Equipment (11)(s)
- \* Brass and Copper Products (12)(s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products (12)
- Glass and Glass Products (14)(s)(i)(o)
- \* Petroleum Refining and Products (15)(s)(i)
- \* Paints and Varnishes (16)(s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (16)(s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

## CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### C O N C E P T S

Shipments - (Tables 1 to 6) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 2 to 5) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 2 to 5) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 2 to 6) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 2 to 5) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 2 to 5) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 2 to 6) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 7) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Tables 3, 6 and 7, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 4, and 6) will be found in the December 1955 report, Page 5.

### S O U R C E S

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

(1) BREAK IN SERIES SEE FOOTNOTE 3, PAGE 2.

TREND SUMMARY

Preliminary estimates indicate the following trends for July:

**SHIPMENTS:** - Manufacturers' shipments in July were valued at an estimated \$2,001,797,000 down 4% from the revised June value of \$2,081,775,000 and up 9% from the July 1958 value of \$1,839,692,000. June-to-July decreases in shipments were general in the preceding seven years.

Cumulative shipments in the first seven months of this year were valued at \$13,324,468,000, 6% higher than last year's corresponding total of \$12,554,888,000.

Using the Economic-Use Classification, the comparison of shipments values in July with the revised values for June 1959, showed increases in the Semi-Durable Consumers' Goods group (4%) and the Heavy Transportation and Equipment group (2%). The remaining groups showed decreases as follows: Motor Vehicles and Related Industries group (13%); Durable Consumers' Goods group (9%); Intermediate Goods and Supplies group (6%); Other Capital Goods group (5%); Construction Goods group (4%); Perishable Consumers' Goods group (3%); Industries Producing Largely for Export group (2%); and the Unclassifiable group of industries (2%). In the seven preceding years, July declines were the normal pattern for six of the ten industry groups. These were as follows: Durable Consumers' Goods, Other Capital Goods, Construction Goods, Industries Producing Largely for Export, Motor Vehicles and Related Industries, and Intermediate Goods and Supplies. In the remaining four industry groups, the Perishable Consumers' Goods group increased in 1952, 1957 and 1958 by an average of 3% and decreased by an average of 4% in the remaining four years; the Semi-Durable Consumers' Goods group increased in 1957 and 1958 (11% and 9%, respectively) and decreased in the remaining five years by an average of 8%; the Heavy Transportation and Equipment group increased in 1953, 1955 and 1956 by an average of 1% and decreased in the remaining four years by an average of 4%; and the Unclassifiable group increased in 1957 and 1958, with decreases averaging 4% occurring in the remaining five years.

The comparison of July 1959 shipments with July 1958 (using the Economic-Use Classification) showed increases in all groups except Heavy Transportation and Equipment where a 10% decline occurred. The increases ranged from 1% in the Perishable Consumers' Goods group and the Unclassifiable group, to 36% in the Motor Vehicles and Related Industries group.

Cumulative shipments for the first seven months of 1959 were higher in all but two of the ten industry groups. The increases were as follows: Motor Vehicles and Related Industries group (19%); Intermediate Goods and Supplies group (12%); Semi-Durable Consumers' Goods group (9%); Durable Consumers' Goods group (7%); Perishable Consumers' Goods group (6%); Industries Producing Largely for Export group (6%); Unclassifiable group (6%); and the Other Capital Goods group (5%). Decreases occurred in the Heavy Transportation and Equipment group (19%) and the Construction Goods group (2%).

**INVENTORIES:** - Estimated value of total inventory owned by manufacturers at the end of July was \$3,953,665,000 down 0.3% from the revised June value of \$3,966,418,000 and up 1.8% from the July 1958 total of \$3,884,453,000. This year's June-to-July change in inventories appears to be in line with the normal pattern.

Progress payment holdings decreased fractionally (0.2%) during July with the result that total inventory held (including both inventory owned by manufacturers and inventory held under progress payments arrangements) at \$4,374,963,000 remained slightly (0.3%) below the revised June level of \$4,388,688,000. Progress payments holdings at \$421,298,000 declined 17% from the July 1958 level of \$509,025,000 thus contributing to the 0.4% decline of total inventory held from the July 1958 value of \$4,393,478,000. Within the total inventory held, raw materials at \$1,942,351,000 were up 1.5% from the June level and down 0.4% from July 1958; goods in process inventories at \$1,195,196,000 were down 1.7% from the June level and down 2.2% from July 1958; and finished products at \$1,237,416,000 were down 1.8% from June and up 1.3% from July 1958.

Changes by Economic-Use groups in July, as compared with June, were less than 1% with three exceptions. Of these, the Motor Vehicles and Related Industries group decreased by 9% following a similar pattern of decreases in the four previous years. The Industries Producing Largely for Export group was up by 3%; slightly lower than the increase in 1956 but greater than the increases in 1955, 1957 and 1958. The Perishable Consumers' Goods group was down by slightly over 1%, compared to a 2% increase in 1957 and differing slightly from decreases in 1955, 1956 and 1958. The remaining groups seem to be following what appears to be normal narrow ranges for July.

On a year-over-year comparison, eight of the ten industry groups were above the July 1958 level. The largest increase was in the Durable Consumers' Goods group (12%), followed by the Motor Vehicles and Related Industries group (10%), the Construction Goods group (6%), the Intermediate Goods and Supplies group (5%), Other Capital Goods group (3%), Perishable Consumers' Goods group (2%), and increases of less than 1% in the Semi-Durable Consumers' Goods group and the Unclassifiable group. The groups showing declines were the Heavy Transportation and Equipment group (6%), and the Industries Producing Largely for Export group (4%).

The July ratio of total inventory owned to shipments at 1.98 was up from the June value of 1.91 and down from the July 1958 value of 2.11. The July ratio of finished products to shipments at 0.62 was up from the June value of 0.61 and down from the July 1958 level of 0.66.

**ORDERS:** - The value of new orders received during July was \$2,001,247,000, 7% lower than the revised June value of \$2,147,076,000 and 10% higher than in July 1958. New orders in July as compared with June, increased slightly in 1957 but decreased in the remaining six of the preceding seven years.

New orders were \$550,000 lower than shipments during July, resulting in a corresponding decrease in unfilled orders during the month. Unfilled orders were valued at \$2,151,509,000 almost unchanged from the June level of \$2,152,059,000 and 6% lower than the July 1958 value of \$2,291,514,000.

A comparison of new orders at the end of July with June levels, showed decreases in all industry groups as follows: Perishable Consumers' Goods (4%); Semi-Durable Consumers' Goods (11%); Durable Consumers' Goods (8%); Heavy Transportation and Equipment (38%); Other Capital Goods (11%); Construction Goods (4%); Industries Producing Largely for Export (2%); Motor Vehicle and Related Industries (10%); Intermediate Goods and Supplies (5%), and Unclassifiable group (3%). The Perishable Consumers' Goods group showed increases in July of 1956, 1957 and 1958, but averaged a fractional decline in July of the seven years preceding 1959. The Semi-Durable Consumers' Goods group increased in 1957 and 1958 (3% and 6%, respectively) but decreased by an average of 15% in the remaining five preceding years. The irregular pattern of previous changes in the Durable Consumers' Goods group and the Heavy Transportation and Equipment group, makes difficult any generalizations as to whether or not this year's changes followed normal patterns. The Other Capital Goods group decreased in July of each of the seven preceding years. Increases occurred in 1955 and 1957 in the Construction Goods group but the remaining five years decreased by an average of 9%. The Industries Producing Largely for Export group also had increases in two years (1952 and 1957), with decreases averaging 9% occurring in the remaining five years. The Motor Vehicles and Related Industries group decreased in each of the seven preceding years. The Intermediate Goods and Supplies group increased by 6% in 1952 and 1956, but decreased by an average of 10% in the remaining five years. Finally, the Unclassifiable group decreased in 1954 but increased in July of each of the remaining six preceding years.

A comparison of unfilled orders at the end of July with June levels shows small increases in the following: Durable Consumers' Goods group, Construction Goods group, Motor Vehicles and Related Industries group, Intermediate Goods and Supplies group, and the Unclassifiable group. The largest decreases were in the Perishable Consumers' Goods group (10%), and the Industries Producing Largely for Export group (5%), with the remaining three groups decreasing by smaller percentages from a fraction of 1% to 2%.

Unfilled orders at the end of July 1959, as compared to July 1958, were higher in five groups as follows: Intermediate Goods and Supplies group (29%); Perishable Consumers' Goods group (24%); Motor Vehicle and Related Industries group (17%); Durable Consumers' Goods group (15%); and the Construction Goods group (4%). The remaining five groups were lower by percentages ranging from 2% in the Other Capital Goods group, to 29% in the Heavy Transportation Equipment group.

Sales from Manufacturers' Trading Outlets in July were valued at an estimated \$241,487,000 down 7% from the revised June sales of \$258,714,000 and up 4% from the July 1958 sales. In the four previous years, July sales increased by 2% in 1957 and decreased by an average of 1% in the remaining three years.

The value of inventories held at Manufacturers' Trading Outlets were estimated at \$271,380,000 up 1% from the revised June value of \$269,530,000 and down 5% from the June 1958 level. There were June-to-July increases of 1% in each of the preceding years.

(1) Table 1 includes estimates for all items in all industries; in Tables 3 and 4 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 3. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 14. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

TABLE 3. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(in thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) See footnote 3, page 2.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owned, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 2. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 2.  
(4) Change in series between December 1958 and January 1959, see footnote 2, page 47. (5) Preliminary.

(5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)  
MISCELLANEOUS INDUSTRIES  
(dl) - Industries Producing Largely For Export  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys.

(2) The value of Inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well.

(3) Preliminary

December								
Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 7. Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 5. A double asterick indicates that the data for the industry are shown in Table 5 combined with data for one or more similar industries as indicated in the footnotes for that table.

PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
  - \* Fruit and Vegetable Preparations (1)(s)(i)(o)
  - Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- Bread and Other Bakery Products (1)(s)
- Aerated Waters (1)(s)
- Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- Macaroni (1)(s)(i)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- Tobacco Processing and Packing (2)(s)(i)
- Tobacco, Cigars and Cigarettes (2)
- Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- Polishes and Dressings (16)(s)(i)(o)
- Candles (17)(s)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- Fountain Pens and Pencils (17)(s)(i)(o)
- Sporting Goods (17)(s)(i)
- Toys and Games (17)(s)(i)
- Lamps, electric, and lamp shades (17)(s)
- Pipes, lighters and smokers' supplies (17)(s)
- Umbrellas (17)(s)

DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- Bicycles and Parts (11)(s)(i)(o)
- Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- Musical Instruments (17)(s)(i)(o)
- Clocks and Watches (17)(s)

HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)
- \* Industrial Machinery n.e.c. (10)(s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)
- Signs (17)(s)

CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (7)(s)(i)(o)
- Hardwood Flooring (7)(s)(i)(o)
- \* Roofing Paper (8)(s)(i)(o)
- \* Boilers and Plate Work (10)(s)(i)(o)
- \* Fabricated and Structural Steel (10)(s)(i)(o)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
  - Leather Gloves and Mittens (4)(s)
- Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
  - \* Hosiery (6)(s)(i)(o)
  - \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

# CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

## MISCELLANEOUS INDUSTRIES

### (a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

### (b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

### (c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

### (c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)
- \* Acids, Alkalis and Salts (16)(s)(i)(o)
- \* Fertilizers (16)(s)(i)(o)
- Vegetable Oil Mills (1)(s)(i)(o)
- \* Primary Plastics (16)(s)(i)(o)
- Compressed Gases (16)(s)(i)(o)
- \* Adhesives (16)(s)(i)(o)
- Printing Inks (16)(s)
- Writing Inks (16)(s)
- Typewriter Supplies (17)(s)
- Buttons, Buckles and Fasteners (17)(s)
- Artificial Flowers and Feathers (17)(s)
- Hair Goods (17)(s)
- Stamps and Stencils (17)(s)
- Miscellaneous Industries, n.e.c. (17)(s)(i)(o)

### (d) UNCLASSIFIABLE

- \*\* Starch and Glucose (1)(s)
- \* Canvas Products (5)(s)(i)(o)
- \* Plywood and Veneer Mills (7)(s)(i)(o)
- Miscellaneous Wood Products (7)(s)(i)(o)
- Commercial Printing (9)(s)
- Engraving, Stereotype and Allied Industries (9)(s)
- Printing and Publishing (9)(s)
- Heating and Cooking Apparatus (10)(s)(i)(o)
- \* Sheet Metal Products (10)(s)(i)(o)
- \* Miscellaneous Iron and Steel Products (10)(s)(i)(o)
- Machine Shop Products (10)
- Miscellaneous Transportation Equipment (11)(s)
- \* Brass and Copper Products (12)(s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products (12)
- Glass and Glass Products (14)(s)(i)(o)
- \* Petroleum Refining and Products (15)(s)(i)
- \* Paints and Varnishes (16)(s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (16)(s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

## CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### C O N C E P T S

Shipments - (Tables 1 to 6) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 2 to 5) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 2 to 5) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 2 to 6) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 2 to 5) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 2 to 5) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 2 to 6) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 7) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Tables 3, 6 and 7, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 4, and 6) will be found in the December 1955 report, Page 5.

### S O U R C E S

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

### TREND SUMMARY

Preliminary estimates indicate the following trends for August:

SHIPMENTS: - Manufacturers' shipments in August, valued at \$1,890 million, continued the downward trend which started in July. This preliminary estimate for August places shipments, in total, 3% lower than July shipments (\$1,957 million) which were in turn 6% below those in June. The upward movement in shipments which, beginning in February, had not only begun a month earlier than in the two previous years, 1957 and 1958, but continued a month longer to a new peak in June. August shipments were, however, higher than shipments in August 1958 by 8% and the cumulative shipments for the year up to the end of August (\$15,169 million) were 6% higher than in 1958 (\$14,297 million).

The decline in shipments in August was concentrated in the motor vehicle and related industries, down 39% from July, capital goods industries, down 9%, and the construction industry, down 10%. Perishable consumers' goods shipments also declined, by 4%, reflecting the decline in the foods and beverages industry of 3% and in the tobacco industry of 16%. Shipments in the semi-durable and durable consumers' goods industries were however higher in August than in July; the semi-durable group by 24% and the durable group by 6%. Changes in the three remaining groups in the classification by economic-use were very small, the value of shipments in the industries producing goods largely for export, in industries producing intermediate goods and supplies and in the unclassifiable group were practically unchanged from July.

It is interesting to note that not only have total shipments declined in August in the past three years but that all but one of the groups, the construction industry, showing declines this month, also registered declines in each of these years. Shipments in the capital goods and motor vehicles and related industries have shown consistent August over July declines for the past seven years. Similarly the two groups with increases in shipments in August over July, semi-durable and durable consumers' goods industries have displayed the same pattern in the past seven years.

Since the total value of shipments in August this year was considerably higher, by 8%, than shipments in August 1958, it is not surprising that in only two of the economic-use groups of industries were shipments lower this year. Shipments of semi-durable consumers' goods were 2% lower than in August 1958 and shipments of goods in the construction industry were down by 6%. The lower level of shipments in the semi-durable goods this August as compared with last year, reflects the level of shipments in the clothing industry (S.I.C. group No. 6); shipments in this group were \$83 million this year as compared with \$87 million last year, and, it may be noted, this is the first month in 1959 in which shipments have been lower than shipments in the comparable month last year. The cumulative total of shipments of clothing in 1959 up to the end of August (\$585.5 million) is 5% higher than the comparable total for 1958 (\$558.3 million).

INVENTORIES: - The level of inventories in manufacturing at the end of August was up slightly from the July level. At an estimated value of \$4,412 million total inventories are not quite 1% above the revised July estimate of \$4,375 million, and less than half of 1% above the August 1958 level of \$4,396 million. Levels of inventory, in total, characteristically move slowly and this month's change is not unusual.

However, the slight movement in total does result from some fairly wide changes in certain components. The greatest shift is in progress payments which are considered a part of goods in process in inventory held and, of course, excluded from inventory owned by manufacturers. Progress payments in August, at \$443 million, were nearly 4% higher than in July but were 14% below the level they had been the year before. The level of inventory owned in August (\$3,969 million) was accordingly somewhat closer to the July estimate of inventory owned (\$3,947 million) but the increase over August 1958 was much greater, at 2.3%, than the comparison in total inventory had shown.

The decline in progress payments in 1959 which has been reversed in July and August actually began in October last year. It has been largely confined to the capital goods industries and in particular to the heavy transportation equipment group; aircraft, railroad rolling stock and shipbuilding. The decline in progress payments in the other capital goods industries although pronounced between mid-1958 and 1959 had also declined in 1958 from the previous year. Progress payments in construction have been running about 9% lower this year than last and here again a peak appears to have been reached in the late summer of 1958. Progress payments in the telecommunication part of the radio industry, which is included in the consumers' durable goods group, had however, begun to increase in February and have been higher in 1959 than in 1958.

A comparison of the level of manufacturers' inventories held as goods in process with and without progress payments also points up the shift in this part of inventory held over the past year. The increase of goods in process inventory in August 1959 as compared with last August was less than 1%; excluding progress payments, the increase was nearly 12%. Raw materials held in inventory were fractionally higher at the end of August than they had been at the end of July and slightly lower than the level in August 1958. Finished goods inventories were lower at the end of August as compared with July but 3% higher than they'd been in August 1958.

Although the increase in the level of manufacturers' owned inventories in August is only slightly above the July level one group, the automobile industry, stands out with an increase of more than 4%. The change in this group from August 1958 was also one of the largest, 12%, along with durable consumers' goods inventories which are 14% higher this year than last. Only two groups in the economic-use groups showed inventory decline in August as compared with July and both of these in consumers' goods; semi-durable consumers' goods inventories were 1% lower in August than in July and durable consumers' goods inventories were 2% lower. The slight increase of 1% in inventories of perishable consumer goods, however, reflects opposing movements in inventories of the food and beverage industry (S.I.C. No. 1) which rose by 3% and in the tobacco industry (S.I.C. No. 2) where inventories fell by 4%.

The generally higher level of inventories in August this year as compared with last is not as much indicative of a high level of inventories as a reflection of the very low levels to which they had fallen in the last half of 1958 when, from July to December, they were at their lowest levels since the autumn of 1956. The long period of inventory accumulation which had begun in September 1955 reached a plateau early in 1957 and began to decline in October of that year; it was not until January of this year that an upward movement began again. The comparative increase is not without exceptions; the heavy transportation industries have inventories slightly below August 1958 - 1%, and the industries producing largely for export have inventories of 7% below those held a year ago.

The ratio of inventory owned to shipments in August was 2.10 as compared with 2.02 in July reflecting both the slight increase in inventories and the slightly greater decline in shipments. The ratio of inventories of finished products to shipments was also up slightly in August, 0.65 as compared with July, 0.63. Both ratios are below the comparable August 1958 ratios.

**ORDERS:** - New orders received in August, \$1,989 million, were slightly higher than new orders received in July; this, combined with the decline in shipments left a total of \$2,262 million unfilled orders on manufacturers' books at the end of the month. This increase in unfilled orders is not only the largest month over month increase in 1959 but also marks the fourth successive month in which unfilled orders have risen. During the previous two years, 1957 and 1958, the movement of unfilled orders has shown a steady decline from month to month to the end of the year following a rise in January. The one exception in 1958 was in August when unfilled orders moved up slightly before continuing their downward course. This year's downward movement appears to have been checked in May and the upward movement has continued since then. The level of unfilled orders in August is at the highest point since August 1958 and within 2% of unfilled orders at that time (\$2,316 million).

**TRADING OUTLETS:** - Sales from manufacturers' trading outlets increased fractionally in August, \$242.2 million, as compared with July, \$241.7 million although up by slightly more than 4% as compared with August 1958 sales of \$232.1 million. Inventories held at trading outlets declined fractionally in August but in fact since June have remained almost constant at \$270 million.

The stable level of total sales reflected a fairly narrow range in changes by industrial groups; the largest increase in August was in sales in the iron and steel industries, up 8% with sales values at \$28.9 million and the largest decline in the "all other" group where sales dropped by 5% to \$15.5 million. Sales also rose in the rubber industries group, at \$15.7 million they were up 5% over July's sales of \$15.0 million, and in the wood and paper industries to \$10.0 million, up 7% over July sales. Sales in the foods and beverages industries (\$22.6 million) the electrical apparatus industries (\$22.3 million) and the chemical industries (\$11.3 million) declined by 2%, 3% and 4%, respectively. Sales of purchased goods in the electrical apparatus industries and sales in the petroleum and coal industries were less than 1% off from the July sales level.

Stability in the inventories held at the manufacturers' trading outlets was also characteristic of each of the industries covered as well as for trading outlets in total. Only two industries showed changes from the July level of more than 2%, the electrical apparatus industries' inventories of goods of their own manufacture were up by 3% in August, to \$25.6 million, as compared with July and inventories in the chemical industries trading outlets fell by just less than 4% to \$10.9 million.

(1) Table 1 includes estimates for all items in all industries; in Tables 3 and 4 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 3. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1950 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 14. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

TABLE 3. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(In thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

Date	SHIPMENTS <sup>(2)</sup>	ORDERS		INVENTORY AT END OF MONTH

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) See footnote 3, page 2.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owne, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

TABLE 4. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.  
(in thousands of dollars)  
CONSUMER GOODS INDUSTRIES  
(a1)-Total Consumer Goods Industries (1)  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

(1) See footnote 1, page 2. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 2.  
(4) Change in series between December 1958 and January 1959, see footnote 2, page 47. (5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)  
MISCELLANEOUS INDUSTRIES  
(d1) - Industries Producing Largely For Export  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys. (2) The value of Inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates of this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (3) Preliminary.

Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 7. Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

(in thousands of dollars)

(For description, see December 1958 report, page iv)

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

# INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 5. A double asterick indicates that the data for the industry are shown in Table 5 combined with data for one or more similar industries as indicated in the footnotes for that table.

## PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
- \* Fruit and Vegetable Preparations (1)(s)(i)(o)
- Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- Bread and Other Bakery Products (1)(s)
- Aerated Waters (1)(s)
- Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- Macaroni (1)(s)(i)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- Tobacco Processing and Packing (2)(s)(i)
- Tobacco, Cigars and Cigarettes (2)
- Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- Polishes and Dressings (16)(s)(i)(o)
- Candles (17)(s)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
- Leather Gloves and Mittens (4)(s)
- Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
- \* Hosiery (6)(s)(i)(o)
- \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- Fountain Pens and Pencils (17)(s)(i)(o)
- Sporting Goods (17)(s)(i)
- Toys and Games (17)(s)(i)
- Lamps, electric, and lamp shades (17)(s)
- Pipes, lighters and smokers' supplies (17)(s)
- Umbrellas (17)(s)

## DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- Bicycles and Parts (11)(s)(i)(o)
- Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- Musical Instruments (17)(s)(i)(o)
- Clocks and Watches (17)(s)

## HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

## OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)
- \* Industrial Machinery n.e.c. (10)(s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)
- Signs (17)(s)

## CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (7)(s)(i)(o)
- Hardwood Flooring (7)(s)(i)(o)
- \* Roofing Paper (8)(s)(i)(o)
- \* Boilers and Plate Work (10)(s)(i)(o)
- \* Fabricated and Structural Steel (10)(s)(i)(o)

CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

MISCELLANEOUS INDUSTRIES

(a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

(b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)
- \* Acids, Alkalis and Salts (16)(s)(i)(o)
- \* Fertilizers (16)(s)(i)(o)
- Vegetable Oil Mills (1)(s)(i)(o)
- \* Primary Plastics (16)(s)(i)(o)
- Compressed Gases (16)(s)(i)(o)
- \* Adhesives (16)(s)(i)(o)
- Printing Inks (16)(s)
- Writing Inks (16)(s)
- Typewriter Supplies (17)(s)
- Buttons, Buckles and Fasteners (17)(s)
- Artificial Flowers and Feathers (17)(s)
- Hair Goods (17)(s)
- Stamps and Stencils 17(s)
- Miscellaneous Industries, n.e.c. (17)(s)(i)(o)

(d) UNCLASSIFIABLE

- \*\* Starch and Glucose (1)(s)
- \* Canvas Products (5)(s)(i)(o)
- \* Plywood and Veneer Mills (7)(s)(i)(o)
- Miscellaneous Wood Products (7)(s)(i)(o)
- Commercial Printing (9)(s)
- Engraving, Stereotype and Allied Industries (9)(s)
- Printing and Publishing (9)(s)
- Heating and Cooking Apparatus (10)(s)(i)(o)
- \* Sheet Metal Products (10)(s)(i)(o)
- \* Miscellaneous Iron and Steel Products (10)(s)(i)(o)
- Machine Shop Products (10)
- Miscellaneous Transportation Equipment (11)(s)
- \* Brass and Copper Products (12)(s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products (12)
- Glass and Glass Products (14)(s)(i)(o)
- \* Petroleum Refining and Products (15)(s)(i)
- \* Paints and Varnishes (16)(s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (16)(s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

## CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### CONCEPTS

Estimated Selling Values (Tables 2 to 5) - represent an estimated projection, on a monthly basis, of the latest available Census of manufacturing values.

New Orders - (Tables 2 to 5) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Estimated Selling Values - (Tables 2 to 5) - are defined as estimated selling value, at the end of the period stated, of goods that have not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 2 to 6) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 2 to 5) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts for work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 2 to 5) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 2 to 6) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 7) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices, which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Tables 3, 6 and 7, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 4, and 6) will be found in the December 1955 report, Page 5.

### SOURCES

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

Preliminary estimates indicate the following trends for September:

**SHIPMENTS:** - Manufacturers' shipments in September valued at \$1,941 million reversed the downward trend shown in July and August. The preliminary estimate for September shows shipments up by 4.4% from the revised August estimate of \$1,859 million and also 4% higher than shipments in September 1958 (\$1,864 million). The cumulative estimate of shipments for 1959 to the end of the third quarter, \$17,079 million, continues to run almost 6% over shipments in 1958 accumulated for the same period, (\$16,162 million).

The increase in shipments in September was general throughout manufacturing as only industries in the heavy transportation group (considering the industries as grouped by economic-use) showed a level of shipments below August and even in this group the decline was not sufficient to offset the increase in shipments in the other capital goods industries so that the capital goods as a whole showed an increase over the previous month. For the year to date however shipments here continue to lag behind 1958 and in the total capital goods group the level of shipments is running more than five percent below the previous year. Shipments of construction goods were also running behind shipments in 1958 and September shipments at \$162 million are nearly 5% lower than shipments in September 1958. Since the construction industries shipments in July and August this year were at record highs the decline for the first nine months this year is still less than 3% of shipments in the same period in 1958.

The higher level of shipments in September as compared with August has been the general pattern for the past seven years for most industries with the exception of industries producing chiefly for export and the motor vehicle industry which for most years have shown declines in September. This year both these groups had heavier shipments in September than in August, by almost 2 percent in industries producing export goods and by nearly 16 percent in the motor vehicle group. Since the motor vehicle industry reached the low point for the year in August both this year and last the increase in September this year over September 1958 was slight, however, the increase in shipments for the first nine months of 1959 as compared with last is over 16 percent.

Turning to the industries grouped according to the standard industrial classification minor declines are shown in foods and beverages, less than 1% and in leather and petroleum products of just over 1%. Some of the shifts in shipments in the food industries in September as compared with August clearly reflect the change in season as shipments from butter and cheese factories, the carbonated beverage industries and breweries are down and shipments of processed fruits and vegetables, and from the sugar factories are up.

Large increases in shipments in September as compared with August are shown in the tobacco (16%), rubber (18%), textiles (10%) and clothing (11%), electrical (14%) and chemical (14%) industries and for the tobacco, rubber and textiles groups shipments are also well above the average increase of 6% shown for shipments in the first nine months of this year as compared with last. Clothing shipments for the first nine months of this year are, however, running at 5 percent above last year's but both the electrical and chemical products industries show shipments falling behind shipments in 1958 by about 3%. The remaining groups, wood, paper, iron and steel, non-ferrous metal, non-metallic minerals and miscellaneous industries show increases in September shipments as compared with August of 4 to 6%, except for the miscellaneous group which increased shipments by 9%, and for the first three quarters of the year are 5 to 10% higher than for the first three quarters of last year. The transportation group, reflecting the decline in the shipments of the heavy transportation industries as commented on in the economic use groupings shows an increase of only 3 percent in September over August, and is just fractionally higher for the first nine months of 1959 as compared with 1958. As compared with the level of shipments in September 1958 transportation industries show a decline of about 12%. Shipments in the wood products industries and the electrical industries are also lower by 7 and 11 percent than shipments in the corresponding month last year.

**INVENTORIES:** - The level of inventories in manufacturing industries at the end of September \$4,454 million, was up slightly from the level at the end of August, \$4,442 million, an increase of less than half of one percent. The decline in inventories of goods produced under progress payments although large, 3.4%, left the level of total goods in process inventory in September, \$1,244.6 million, fractionally higher than the August level, \$1,240.7 million, and at the highest level this year. Total inventory owned was up by slightly less than one percent in September, \$4,021 million, as compared with August, \$3,994 million, and by 3.3% as compared with September 1958, \$3,893 million.

The contrast in the movement of inventory holdings as between raw materials and goods in process on the one hand and finished products on the other which has begun to show up in August and September is interesting especially when considered in relation to the higher level of shipments which has been sustained during the first three quarters of this year. Total inventory held at the

end of September was 1.5% higher than the level of total inventories at the end of the second quarter and somewhat less than one percent higher than inventories both at the end of the first quarter this year and at the end of September 1958. Raw materials and goods in process inventory holdings were up by 3.4% and 2.4% respectively from the end of the second quarter and although raw materials stocks were only 1% higher than stocks at the end of the first quarter, goods in process were 3.5% higher. Finished goods inventories were down by just over 2% from the level at the end of the first and second quarters of this year but almost 3 percent higher than their level in September 1958.

The higher level of raw materials and goods in process inventories contrasted with a decline in finished products inventories at the end of the third quarter contrasted with the first two quarters this year is shown in the rubber goods industries (S.I.C. group no.3), the leather products group (S.I.C. no. 4), textile products (S.I.C. no. 5), iron and steel products (S.I.C. no. 10), non-ferrous metal products (S.I.C. no. 12), and electrical apparatus and supplies (S.I.C. no. 13). The clothing industry (S.I.C. no. 6) shows a decline in finished products inventory in September but the level, although lower than the level of finished products inventory at the end of June, is above the levels prevailing at the end of 1958 and during the first quarter of the year. Inventories of goods in process and raw materials are being sustained at the higher levels which were shown at the end of the second quarter. Goods in process inventory in the transportation equipment group (S.I.C. no.11) has risen considerably in both August and September to reach the highest point in 1959 (\$385.8 million) although this is lower than the low point in 1958 which was obtained in January of that year. Raw materials inventories have risen in this quarter and are higher than at the end of the second quarter but are lower than the levels at the beginning of this year. Inventories of finished products in this group, transportation equipment, after falling in August rose in September to the highest point since the end of 1957. Finished products inventory in the non-ferrous metal industries (S.I.C. no.12) are lower at the end of September, \$55.2 million, than at the end of the second or third quarter but levels of inventory of goods in process and raw materials have been maintained at a fairly constant level throughout the year. In the non-metallic minerals industries (S.I.C. no.14) a slight increase in finished products inventories has been accompanied by a small but definite decline in goods in process inventories while raw materials inventories are somewhat higher at the end of September than at the end of the first and second quarters. A very pronounced decline in inventory levels of finished products in the tobacco and tobacco products industries (S.I.C. no.2) was accompanied by drawing down raw materials stocks and an increase in goods in process. The decline in raw materials holdings in September, of course, follows the well defined seasonal pattern in this industry. The foods and beverage industries (S.I.C. no. 1) also reflect seasonal factors with the pronounced increase in stocks of finished products in September. Raw materials inventories have also gone up in each of the last three months, while goods in process stocks have been sustained at a high but constant level since June of this year.

The ratio of inventory owned to shipments was 2.07 in September reflecting both the slight increase in inventories and the larger increase in shipments during the month. The revised ratio for August, 2.15 as compared with the preliminary estimate of 2.10, reflects both the slight upward revision in inventories and the slight downward revision in shipments for August. The ratio of finished products inventory to shipments at the end of September was 0.63 a decline from 0.66 at the end of August reflecting again the increase in shipments during the month.

ORDERS: - Unfilled orders at the end of September were estimated at a level of \$2,215 million, a decline of \$32 million from the revised August estimate of \$2,247 million, reflecting both the increase in shipments and the decline in new orders during the month. Although the decline in unfilled orders reversed the upward trend which had continued from April this year, the comparison with a year ago has narrowed this month to less than one percent.

TRADING OUTLETS: - Sales from manufacturers' trading outlets in September are estimated at \$256.1 million, five percent higher than the revised estimate for August of \$243.3 million. This level of sales is only fractionally higher (\$31,000) than sales in September 1958 but although it is a rather pronounced drop in the amount by which sales this year have been exceeding those in the previous year - during the first six months of 1959, sales were at a level almost six percent higher than during the same period in 1958 and in July and August just less than five percent higher - the difference is largely the result of a sharp increase in sales last September. Since sales through trading outlets not only tend to reflect the level of business activity but are also, since they represent only a small fraction of the total value of manufacturers' shipments, very sensitive to any change in the distribution practices of manufacturers it may be somewhat misleading to refer to a trend in sales from the values reported here. This year the contrast has been particularly marked in the electrical goods industry where, as noted in a footnote to the table, the lower level of sales in January this year as compared with December and for each month in 1959 as compared with the corresponding month in 1958 is the result of the cessation of trading outlet operations in part of this industry.

Inventories at trading outlets after rising in May and June have been held fairly steady during the third quarter. During the year, however, they have been maintained at a level below that of 1958 and considerably below those in 1957.

(1) Table 1 includes estimates for all items in all industries; in Tables 3 and 4 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 3. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 14. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

TABLE 3. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(in thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

Date	SHIPMENTS <sup>(2)</sup>	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held			
						TOTAL	Raw Materials	Goods in Process	Finished Products

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) See footnote 3, page 2.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owned, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

December									

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

TABLE 4. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(in thousands of dollars)  
CONSUMER GOODS INDUSTRIES  
(a1)-Total Consumer Goods Industries (1)  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

Date	SHIPMENTS	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held			
						TOTAL	Raw Materials	Goods in Process	Finished Products (3)

(1) See footnote 1, page 2. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 2. (4) Change in series between December 1958 and January 1959, see footnote 2, page 47. (5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(in thousands of dollars)

CAPITAL GOODS INDUSTRIES

(b1) - Total Capital Goods Industries. (1)

(For definitions, see Page 52.)

(For industries included, see Page 50.)

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)  
MISCELLANEOUS INDUSTRIES  
(d1) - Industries Producing Largely For Export  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys. (2) The value of Inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates of this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (3) Preliminary.

December								
Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 7. Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

(in thousands of dollars)

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

# INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 5. A double asterick indicates that the data for the industry are shown in Table 5 combined with data for one or more similar industries as indicated in the footnotes for that table.

## PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
- \* Fruit and Vegetable Preparations (1)(s)(i)(o)
- \* Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- \* Bread and Other Bakery Products (1)(s)
- \* Aerated Waters (1)(s)
- \* Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- \* Macaroni (1)(s)(i)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- \* Tobacco Processing and Packing (2)(s)(i)
- \* Tobacco, Cigars and Cigarettes (2)(s)(i)
- \* Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- \* Polishes and Dressings (16)(s)(i)(o)
- \* Candles (17)(s)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
- \* Leather Gloves and Mittens (4)(s)
- \* Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
- \* Hosiery (6)(s)(i)(o)
- \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- Fountain Pens and Pencils (17)(s)(i)(o)
- Sporting Goods (17)(s)(i)
- Toys and Games (17)(s)(i)
- Lamps, electric, and lamp shades (17)(s)
- Pipes, lighters and smokers' supplies (17)(s)
- Umbrellas (17)(s)

## DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- Bicycles and Parts (11)(s)(i)(o)
- Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- Musical Instruments (17)(s)(i)(o)
- Clocks and Watches (17)(s)

## HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

## OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)
- \* Industrial Machinery n.e.c. (10)(s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)
- Signs (17)(s)

## CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (7)(s)(i)(o)
- Hardwood Flooring (7)(s)(i)(o)
- \* Roofing Paper (8)(s)(i)(o)
- \* Boilers and Plate Work (10)(s)(i)(o)
- \* Fabricated and Structural Steel (10)(s)(i)(o)

# CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

## MISCELLANEOUS INDUSTRIES

### (a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

### (b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

### (c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

### (c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)
- \* Acids, Alkalis and Salts (16)(s)(i)(o)
- \* Fertilizers (16)(s)(i)(o)
- Vegetable Oil Mills (1)(s)(i)(o)
- \* Primary Plastics (16)(s)(i)(o)
- Compressed Gases (16)(s)(i)(o)
- \* Adhesives (16)(s)(i)(o)
- Printing Inks (16)(s)
- Writing Inks (16)(s)
- Typewriter Supplies (17)(s)
- Buttons, Buckles and Fasteners (17)(s)
- Artificial Flowers and Feathers (17)(s)
- Hair Goods (17)(s)
- Stamps and Stencils 17(s)
- Miscellaneous Industries, n.e.c. (17)(s)(i)(o)

### (d) UNCLASSIFIABLE

- \*\* Starch and Glucose (1)(s)
- \* Canvas Products (5)(s)(i)(o)
- \* Plywood and Veneer Mills (7)(s)(i)(o)
- Miscellaneous Wood Products (7)(s)(i)(o)
- Commercial Printing (9)(s)
- Engraving, Stereotype and Allied Industries (9)(s)
- Printing and Publishing (9)(s)
- Heating and Cooking Apparatus (10)(s)(i)(o)
- \* Sheet Metal Products (10)(s)(i)(o)
- \* Miscellaneous Iron and Steel Products (10)(s)(i)(o)
- Machine Shop Products (10)
- Miscellaneous Transportation Equipment (11)(s)
- \* Brass and Copper Products (12)(s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products (12)
- Glass and Glass Products (14)(s)(i)(o)
- \* Petroleum Refining and Products (15)(s)(i)
- \* Paints and Varnishes (16)(s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (16)(s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Fabricated Plastic Products (17)(s)(i)
- \* Professional and Scientific Equipment (17)(s)(i)(o)
- Statuary and Art Goods (17)(s)
- Artificial Ice (17)(s)

## CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### CONCEPTS

Shipments - (Tables 1 to 6) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 2 to 5) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 2 to 5) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 2 to 6) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 2 to 5) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 2 to 5) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 2 to 6) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 7) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Tables 3, 6 and 7, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 4, and 6) will be found in the December 1955 report, Page 5.

### SOURCES

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

APPENDIX

EMPLOYMENT AND EARNINGS IN MANUFACTURING BY INDUSTRY AND PROVINCE

1957-1958

For a number of years it has been the practice to publish, late in the year, the Preliminary Statement of Manufactures which showed advance data of principal statistics for the previous year by industry and province together with shipments or production of specified commodities collected in monthly, quarterly or annual surveys. The Preliminary Statement of Manufactures report has now been discontinued and the monthly report on Inventories, Shipments and Orders in Manufacturing Industries will henceforth contain whatever preliminary annual principal statistics can be compiled from available data. The present report has contained for some time the monthly value of shipments by industry and group of industries and, since May, 1959, has also shown total value of manufacturing shipments by province. The annual totals for these series will now serve as the official preliminary figures until the actual Census of Manufactures results can be made available.

In order to compensate for the loss of employment and earnings data previously contained in the Preliminary Statement of Manufactures estimates of the total number of employees and total earnings by major industry group and by province for the latest year are presented in the table and will, in future, be published in this report as soon as the estimates can be compiled. These figures are projections of the latest Census of Manufactures data of number of employes and of salaries and wages based on averages of the monthly indexes of employment and payrolls prepared and published by the Labour Division of the Bureau.

The data for 1958 shown in the table are compiled by applying to the 1957 Census of Manufactures figure for each component industry and province the percentage change between 1957 and 1958 as indicated by the corresponding monthly average indexes of employment and payrolls. The sums of the individual industry figures for 1958 are taken as the Canada totals and the slightly different totals obtained by summing the individual provincial estimates are adjusted pro rata to the industry totals. As soon as the 1958 Census of Manufactures data are available, in the early part of 1960, the 1959 annual estimates of employment and payrolls will be projected in the same manner from the revised 1958 figures and published in this report.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

(1) BREAK IN SERIES SEE FOOTNOTE 3, PAGE 2.

# TREND SUMMARY

Preliminary estimates indicate the following trends for October:

**SHIPMENTS:** - Manufacturers' shipments, estimated at \$2,034 million in October, are up fractionally from the revised September value of \$2,026 million. The increase over October 1958 was, however, nearly five percent and shipments for the year to date, at \$19,198 million, are continuing to hold at a level about six percent higher than last year's.

Most of the changes in shipments in individual industries were relatively small, with only four of the industrial groups, under the S. I. C. groupings, showing changes of more than four percent: tobacco, leather products and clothing industries all showed declines and the transportation industries showed an increase. It is interesting to note that all four industries have shown a similar pattern in the previous five years, although it is perhaps misleading to use the word pattern in relation to shipments in the tobacco industry where shipments vary somewhat from month to month but with little apparent regularity. The leather products and clothing industries however show a pronounced seasonal pattern in shipments. Leather products shipments have reached a peak in August or September in each of the past five years with the subsequent decline continuing to the end of the year. The heaviest shipments of clothing from manufacturers regularly occurs in September, although in 1956 the peak was delayed until October, with a gradual decline in the month following and a continuing decline for the remainder of the winter.

The rise in shipments in the transportation group (S.I.C. No. 11) in the late fall reflects the pattern of production with the release of new model cars in the automotive industry. The pattern can be followed in the economic-use group of motor vehicles and related industries. During the past five years a decline in shipments had begun in May and June each year and continued until August or September. Both this year and last the upturn although beginning only gradually began in September and continued through October and November.

The movement in the remaining industries grouped by the standard industrial classification was very slight. In the economic-use groups, in addition to motor vehicle group already mentioned, a higher than average increase in shipments was shown in the industries producing mainly for export and in the industries producing intermediate goods and supplies. The most striking contrast in both these groups however is the comparison with the year before. Shipments from industries producing mainly for export are running six percent higher than last year up to the end of October with exports in October nearly ten percent above October last year. The increase has not been consistent over the year as first quarter shipments were slightly less, 98% of 1958, and the increase beginning in the second quarter, also reached the highest point in these months; second quarter shipments were up 10 percent and third quarter shipments 8 percent over the corresponding quarter in 1958.

In the intermediate goods industries shipments have been consistently higher each quarter from the beginning of the year: 10 percent higher in the first quarter, 12 percent higher in the second and 15 percent higher in the third. In October the preliminary estimate shows shipments up 17 percent over shipments in October last year and for the year to date shipments are running 13 percent over last year.

**INVENTORIES:** - Inventories in manufacturing industries at the end of October were valued at \$4,449 million slightly lower than the revised estimate for the end of September of \$4,464 million. The slight change in the level of total inventory held reflects correspondingly minor changes in each of the components with raw materials stocks falling slightly more (by 0.6 percent) than the goods in process (by 0.1 percent) and finished goods (by 0.2 percent) inventories. The change as compared with October 1958 is wider and in the opposite direction as total inventories this month are nearly two percent higher and finished products inventories are just over four percent higher than a year ago.

The food industries show a slight decline this month at \$724 million compared with the September estimate of \$726 million with the total decline showing up in raw materials and supplies. The revised September estimate of goods in process shows a new high, at \$174 million, which is higher than the level reached in June of this year (\$173 million) and indeed the highest level to that date; the value at the end of October was higher again at \$175 million. The increase in stocks of finished

goods between September and October was slightly greater than the increase in goods in process inventories. The wine industry accounted for a substantial part of the increase in goods in process inventories in October; the greatest part of the decline in raw materials is accounted for in the dairy industry; both seasonal changes.

The seasonal decline in raw materials stocks of tobacco was responsible for the decline in total inventory holdings in the tobacco industry as goods in process increased slightly and finished goods inventories quite considerably in October.

The decline in clothing inventories reflected a drop across all three components. Raw materials have been declining since August although goods in process levels were maintained until September. The decline in finished goods inventory, beginning in July reflects the increase in shipments from August to October.

Slight decline in total inventories of the iron and steel products industries, non-ferrous metal industries, electrical apparatus and non-metallic mineral industries reflect a degree of levelling out in manufacturing activity in these industries but at a high level for this year and a level considerably above that of a year ago. The transportation industries show a slight increase in October as compared with September although the decline in work in process under progress payments during this year as compared with 1958 has left the general level of inventories held and shipments in this industry lower this fall than last.

The ratio of total inventory held at the end of October to shipments in October is lower, 1.97, than the September ratio of 1.99 reflecting the slight increase in shipments and decline in inventories; the change in the ratio of finished goods stocks to shipments is also fractional, from 0.61 in September to 0.60 in October.

ORDERS: - Unfilled orders at the end of October are estimated at \$2,225 million slightly lower than the revised estimate for the end of September of \$2,232 million but over five percent higher than the value of unfilled orders at the end of October 1958, of \$2,113 million. The upward revision of the September estimate also means that unfilled orders in September for the first time this year were higher, if only fractionally, than unfilled orders a year ago. The wider change in October reflects the sharp drop in unfilled orders in the autumn of 1958 as compared with the more stable levels this year.

New orders have been higher each month this year, from February, than in the corresponding month last year and having reached a peak in May and June of this year of \$2,015 million and \$2,147 million have again reached over two million dollars in both the revised September value and in October. This is the first time since the series was begun in 1952 that new orders have exceeded two million dollars and is an indication of the increased activity in the manufacturing industries during 1959. The rise in new orders have been concentrated in the construction goods industries, the capital goods industries excluding transportation equipment, the motor vehicle industries and intermediate goods industries.

TRADING OUTLETS: - Sales through manufacturers' trading outlets are estimated at \$257 million in October a slight decline (1.5 percent) from the revised September estimate of \$261 million. Inventories in October were up fractionally, by less than half of one percent. Sales in October were also fractionally lower than sales in October 1958 for the first month this year. Sales during the first three quarters of 1959 have been consistently higher than sales in the first three quarters of 1958 by about five percent.

The change in most industry sales in October as compared with September was slight, the food industries and the group of non-specified industries were down slightly, the iron and steel and petroleum industries had higher sales. Sales in the wood and paper products industries were nearly three percent lower in October and sales in the rubber and chemical industries by over five percent; the electrical products industry sales were down by just over eight percent.

Inventories for the most part increased slightly, with only inventories in the petroleum and all other industries groups showing a slight drop.

(1) Table 1 includes estimates for all items in all industries; in Tables 3 and 4 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 3. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industries. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 14. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

TABLE 3. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

(in thousands of dollars)  
(a) S.I.C. Group 1 - FOODS AND BEVERAGES,  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

Date	SHIPMENTS <sup>(2)</sup>	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held			
						TOTAL	Raw Materials	Goods in Process	Finished Products

December									

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) See footnote 3, page 2.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owned, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

December									

(1) See footnote 1, page 2. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 2.  
(4) Change in series between December 1958 and January 1959, see footnote 2, page 47. (5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.

(1) This table is a sub-total for Tables 4, b2 and 3, b3. (2) See footnote 3, page 2. (3) See footnote 4, page 14.  
(4) Change in series between December 1958 and January 1959, see footnote 2, page 47.  
(5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)  
CAPITAL GOODS INDUSTRIES  
(b2) Heavy Transportation Equipment Industries. (2)  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

Date	SHIPMENTS	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held			
						TOTAL	Raw Materials	Goods in Process	Finished Products

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)  
MISCELLANEOUS INDUSTRIES  
(dl) - Industries Producing Largely For Export  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys. (2) The value of inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates of this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (3) Preliminary.

November								
December								
Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 7. Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

(in thousands of dollars)

(For description, see December 1958 report, page iv)

Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 5. A double asterick indicates that the data for the industry are shown in Table 5 combined with data for one or more similar industries as indicated in the footnotes for that table.

PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
- \* Fruit and Vegetable Preparations (1)(s)(i)(o)
- Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- Bread and Other Bakery Products (1)(s)
- Aerated Waters (1)(s)
- Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- Macaroni (1)(s)(1)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- Tobacco Processing and Packing (2)(s)(i)
- Tobacco, Cigars and Cigarettes (2)
- Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- Polishes and Dressings (16)(s)(i)(o)
- Candles (17)(s)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
- Leather Gloves and Mittens (4)(s)
- Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
- \* Hosiery (6)(s)(i)(o)
- \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- Fountain Pens and Pencils (17)(s)(i)(o)
- Sporting Goods (17)(s)(i)
- Toys and Games (17)(s)(i)
- Lamps, electric, and lamp shades (17)(s)
- Pipes, lighters and smokers' supplies (17)(s)
- Umbrellas (17)(s)

DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- Bicycles and Parts (11)(s)(i)(o)
- Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- Musical Instruments (17)(s)(i)(o)
- Clocks and Watches (17)(s)

HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)
- \* Industrial Machinery n.e.c. (10)(s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (13)(s)(i)(o)
- Signs (17)(s)

CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (7)(s)(i)(o)
- Hardwood Flooring (7)(s)(i)(o)
- \* Roofing Paper (8)(s)(i)(o)
- \* Boilers and Plate Work (10)(s)(i)(o)
- \* Fabricated and Structural Steel (10)(s)(i)(o)

CONSTRUCTION GOODS INDUSTRIES (Cont'd)

- \* Iron Castings (10)(s)(i)(o)
- Aluminum Products (12)(s)(i)(o)
- \* Miscellaneous Electrical Products (13)(s)(i)(o)
- \* Wire and Cable (13)(s)(i)(o)
- \* Asbestos Products (14)(s)(i)(o)
- \*\* Cement Hydraulic (14)(s)(i)
- \*\* Concrete Products (14)(s)(i)(o)
- Clay Products from Imported Clay (14)(s)(i)(o)
- Gypsum Products (14)(s)(i)(o)
- Stone Products (14)(s)(i)(o)
- Brick and Tile (14)(s)(i)
- Sand-lime Brick (14)(s)
- Clay Products from Domestic Clay (14)(s)(i)
- Miscellaneous Non-Metallic Mineral Products (14)(s)(i)
- Miscellaneous Products of Petroleum and Coal (15)(s)(i)
- Coal Tar Distillation (16)(s)(i)

MISCELLANEOUS INDUSTRIES

(a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (1)(s)(i)(o)
- \* Flour Mills (1)(s)(i)(o)
- Sawmills (7)(s)(i)(o)
- \* Pulp and Paper Mills (8)(s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (12)(s)(i)(o)
- \* Abrasives and Abrasive Products (14)(s)(i)(o)

(b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products (except Footwear) (3)(s)(i)(o)
- \* Motor Vehicles (11)(s)(i)
- \* Motor Vehicle Parts and Accessories (11)(s)(i)(o)
- \* Batteries (13)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (1)(s)(i)(o)
- \* Sugar Refineries (1)(s)(i)
- \*\* Malt Products (1)(s)(i)
- Animal Oils and Fats (1)(s)
- Feed and Chopping Mills (1)
- \* Leather Tanneries (4)(s)(i)(o)
- Belting Leather (4)(s)
- Boot and Shoe Findings (4)(s)
- Cotton Thread (5)(s)(i)
- \* Cotton Yarn and Cloth (5)(s)(i)(o)
- Miscellaneous Cotton Goods (5)(s)
- \* Woollen Cloth (5)(s)(i)(o)
- \* Woollen Yarn (5)(s)(i)(o)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES (Cont'd)

- Miscellaneous Woollen Goods (5)(s)(i)(o)
- \* Synthetic Textiles (5)(s)(i)(o)
- Dyeing and Finishing of Textiles (5)(s)(i)(o)
- Laces, Tapes and Bindings (5)(s)(i)(o)
- \* Cordage, Rope and Twine (5)(s)(i)
- \* Cotton and Jute Bags (5)(s)(i)(o)
- Fur Dressing and Dyeing (6)
- \* Paper Boxes and Bags (8)(s)(i)(o)
- Miscellaneous Paper Products (8)(s)(i)(o)
- \* Primary Iron and Steel (10)(s)(i)(o)
- \* Wire and Wire Goods (10)(s)(i)(o)
- White Metal Alloys (12)(s)(i)(o)
- Lime (14)(s)
- Coke and Gas Products (15)(s)(i)(o)

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### C O N C E P T S

Shipments - (Tables 1 to 6) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 2 to 5) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 2 to 5) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 2 to 6) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 2 to 5) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 2 to 5) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 2 to 6) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 7) - are defined as any establishments (other than retail stores) operated by manufacturers apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owner or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Tables 3, 6 and 7, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 4, and 6) will be found in the December 1955 report, Page 5.

### S O U R C E S

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

(1) BREAK IN SERIES SEE FOOTNOTE 3, PAGE 2.

TREND SUMMARY

Preliminary estimates indicate the following trends for November:

**SHIPMENTS:** - Manufacturers' shipments in November this year were valued at an estimated \$1,998 million, approximately four percent lower than the revised October value of \$2,091 million but higher by ten percent than the shipments, valued at \$1,818 million, in November 1958. The decline this year from October has also been less than the decline a year ago when November shipments fell by six percent from the previous month. A general decline in shipments is customary in November but the decline this year was augmented by a large and unusual decline in shipments of motor vehicles. This decline is reflected especially in the economic-use group, motor vehicles and related industries, where shipments declined by over 21 percent from October and were 25 percent less than shipments in November 1958. The decline shown in S.I.C. group 11 is much less, just over 10 percent, since the heavy transportation equipment industries had higher shipments in November as compared with October. This increase shows up in the economic-use group, heavy transportation equipment, where shipments were up by 14 percent over shipments in October.

The increase in heavy transportation equipment combined with a slight increase in the other capital goods industries put shipments in the capital goods industries, in total, up by 6 percent over October shipments and nearly 20 percent higher than in November 1958. For the eleven months of 1959, however, shipments in total for the capital goods industries are lower by not quite 3 percent than shipments in the corresponding period in 1958 reflecting the lower level of shipments in the heavy transportation industry throughout the year which overshadowed the higher level of shipments in the other capital goods industries from April to November. There were also slight increases in shipments from tobacco manufacturing plants and in the non-ferrous metal products group; the increase here being confined to the smelting and refining plants. In all other industrial groups declines in shipments were shown and although large in absolute terms in some groups, the decline in the value of shipments in S.I.C. group 1, for example, foods and beverages was the largest absolute decline in the S.I.C. groupings, \$24.6 million, were not spectacular in percentage terms and with the exception discussed above were not confined to any one industry but the result of a lower level of shipments general to all industries. As compared with a year ago, however, shipments for all industries for the first eleven months of 1959 are still running at the considerably higher rate of nearly 7 percent above shipments in 1958.

**INVENTORIES:** - Inventories in manufacturing industries at the end of November were estimated at \$4,421 million just slightly lower than the revised October value of \$4,445 million and somewhat higher than inventories at the end of November 1958, \$4,367 million. The change as compared with a year ago was marked for inventories of goods in process held under progress payments account which fell by approximately eighteen percent; goods in process owned by manufacturers were, however, considerably higher at the end of November than at the same time last year, up by nine percent. The change in inventories of finished goods as compared with the end of November last year was also marked, with an increase of nearly five percent. The change from the October level was fractional in all components except goods in process held under progress payments account which were approximately six percent lower at the end of November. This change shows up in the contrast between goods in process inventory-held, which was up and one half percent lower at the end of November as compared with the end of October, and goods in process inventory-owned which was fractionally lower, by six-tenths of one per cent.

The largest change in inventory holdings in absolute although not in percentage terms was in the foods and beverages group where total holdings were up by \$16 million in November. The major increases were in slaughtering and meat packing, flour mills and sugar refineries, breweries and wineries.

In all of these, with the exception of flour mills and wineries, the largest part of the increase was in the finished products. Raw materials inventories in the flour milling industry increased by approximately \$5.7 million leaving a net decline in the remaining components; in wines the increase of \$1.2 millions included a small decline in raw materials, a considerable decline in finished products with a substantial increase in goods in process. The increase of \$7 million in finished products in the sugar industry appears to be a seasonal increase as stocks of finished products have risen in both November and December in the past several years.

The large increase in inventories in the rubber products industries is almost entirely concentrated in the tires and tubes industry as the change in total stocks in rubber footwear was negligible; increases in raw materials inventories in the rubber footwear industry were balanced by slight declines in goods in process and in stocks of finished products. Inventories in the tires and tubes industry moved quite differently as raw materials stocks fell slightly, goods in process increased slightly fractionally while finished goods held rose by nearly 9 percent. Such a movement between October and November although not unprecedented (in 1958 the increase was nearly six percent and in 1955, eighteen percent,) is much higher than in any year back to 1955.

Although the level of raw material inventories and of goods in process in the automotive industry at the end of November were being maintained at the October level the combination of an extraordinary decline in shipments and an almost equally unusual but not as severe a decline in inventories of finished goods underlines the stringent conditions in the automobile industry in the last two months. Stocks of finished goods in the automobile and related industries, excluding the tires and tubes industry, fell by 15% during November in contrast to the smaller decrease in 1958 and the considerable increase in the years 1955 to 1957.

The large decline in total inventory holdings in the transportation equipment industry (S.I.C.11) however reflects the substantial decline in goods in process in the heavy equipment industries which declined by \$28 million rather than the decline in finished automobiles. The decline in the value of finished products in the heavy transportation industry group although high, percentage wise, is small in value terms, amounting to only \$342 thousand dollars. The total decline in inventories in the heavy transportation industries amounted to \$32 million out of the total decline in the industry group (S.I.C.11) of \$35 million. The decline in inventories in the transportation equipment industries and particularly in the heavy equipment industries has been reflecting substantial and almost continuous declines in production under progress payment accounts during the past year.

The ratio of total inventory owned at the end of November to the value of shipments in November was up to 2.02, as compared with the corresponding (revised) ratio at the end of October of 1.92, largely reflecting the decline in shipments since the increase in total inventory owned was fractional. The ratio of inventories of finished products to shipments at the end of November also rose to 0.62 as compared with the revised October ratio of 0.59.

ORDERS: - Unfilled orders at the end of November were estimated at \$2,200 million, up only fractionally from the revised October estimate of \$2,195 million, but almost 6 percent higher than the level of unfilled orders at the end of November 1958 of \$2,085 million. Although the revision in the October values lowered values by something less than two percent rather than fractionally from the September level the decline in unfilled orders from August this year, which has been rather a levelling off than a decline, has been in sharp contrast to the rapid decline from August to October in 1958 with the decline continuing at a reduced rate in November and December. It would appear as if unfilled orders have begun this year to stabilize at a level in line with the value of new orders coming in each month. The gap between the level of unfilled orders and new orders received has been narrowing since February and during the second quarter became almost nothing.

New orders declined in November, however, after having risen from August to October, to \$1,993 million nearly 3 percent below the October value of \$2,054 million.

TRADING OUTLETS: - Sales through manufacturers' trading outlets in November were valued at \$257 million a slight decline, just over one percent, from the revised October value of \$260 million. A drop in sales in November is customary and in the past three years has been much greater than this year. The slighter decline this year reflects an unusually slight decline in sales in the iron and steel industries and an increase in sales in the electrical apparatus industries which have usually shown a decline in November. The decline in sales in the all other industries group is also less than usual although sales here were almost seven percent below October sales. Sales increased in the foods industries this month; this industry has customarily shown either an increase or a very slight decline in sales in November.

The revised October sales estimate, at \$259 million, reserved the slight decline shown by the preliminary estimate as compared with sales in October 1958; sales in October 1958 are estimated at \$258 million. November sales were just over eleven per cent higher than the sales in November 1958 of \$231 million. The level of sales in the first eleven months of 1959 continues at just over five per cent above 1958 sales.

Inventories in trading outlets increased only fractionally in November to \$284.1 million from the revised October estimate of \$283.5 million. The increase reflects an unusual increase in stocks held at food industries trading outlets balanced, however, by an equally unusual decline in stocks in the electrical apparatus outlets.

(1) Table 1 includes estimates for all items in all industries; in Tables 3 and 4 following, which represent two different breakdowns of the all-industry totals, some items were omitted as noted, and SIC group 9 (Printing and Publishing) has been omitted from Table 3. (2) Annual shipments values differ slightly from published Census of Industry totals, due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values. (3) Unfilled Orders data from January 1956 on are not comparable to earlier data due to changes in methods of reporting by a number of firms in 5 industry. The bracketed value represents a December 1955 estimate on the same basis as 1956 estimates. (4) See footnote 4, page 14. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

TABLE 3. - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES GROUPED ACCORDING TO THE STANDARD INDUSTRIAL CLASSIFICATION, by months. (1)

December									

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) See footnote 3, page 2.

(4) A correction of reporting methods, which cannot be carried back to 1955 data, accounts for the bulk of the decrease between December 1955 and January 1956 in Inventory Held but not Owned, Total Inventory Held and Goods in Process Inventory. (5) Change in series between December 1958 and January 1959, see footnote 2, page 47. (6) Preliminary.

December									

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled orders for industries in this group is small, and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 2. (2) See footnote 2, page 2. (3) The value of Unfilled Orders for industries in this group is small and sample coverage is not adequate to provide separate estimates for the group. (4) The value of Inventory Held but Not Owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes, this can be considered the equivalent of Inventory Owned as well. (5) Preliminary.

(1) See footnote 1, page 2. (2) This grouping does not include the Consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the Electronic equipment portion of Radios and Parts, (Telecommunication Equipment) and the office and store portion of Furniture. The bulk of Inventory Held but Not Owned in this group is applicable to the electronic equipment portion of Radios and Parts. (3) See footnote 3, page 2. (4) Change in series between December 1958 and January 1959, see footnote 2, page 47. (5) Preliminary.

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months.  
(in thousands of dollars)  
CAPITAL GOODS INDUSTRIES  
(b1) - Total Capital Goods Industries. (1)  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

Date	SHIPMENTS	ORDERS		INVENTORY AT END OF MONTH					
		New Orders Received During Month	Unfilled Orders at end of Month	Owned	Held but not Owned	All Inventory Held			
						TOTAL	Raw Materials	Goods in Process	Finished Products (4)

TABLE 4. (Cont'd.) - ESTIMATED VALUE OF SHIPMENTS, ORDERS AND INVENTORY, AT PLANT, IN MANUFACTURING INDUSTRIES  
GROUPED ACCORDING TO AN ECONOMIC USE CLASSIFICATION, by months. (1)  
(in thousands of dollars)  
MISCELLANEOUS INDUSTRIES  
(dl) - Industries Producing Largely For Export  
(For definitions, see Page 52.)  
(For industries included, see Page 50.)

This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys. (2) The value of Inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates of this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well. (3) Preliminary.

TABLE 5. - ESTIMATED VALUE OF SHIPMENTS, ORDERS, AND INVENTORIES AT PLANT, IN SELECTED INDIVIDUAL INDUSTRIES

December								
Total								

(1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) Part of the change in values from December 1958 to January 1959, is a result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups. (3) Preliminary.

TABLE 7. Cont'd. - MANUFACTURERS' TRADING OUTLETS

Estimated Value of Sales and Inventories of Goods of Own Manufacture.

(in thousands of dollars)

December						
Total						

(1) Includes sales and inventories of purchased goods.

(2) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet data could not be separated from plant values.

(3) Preliminary.

INDUSTRIES INCLUDED IN EACH ECONOMIC USE GROUPING IN TABLE 3

The bracketed numbers following each industry title indicate the Standard Industrial Classification Grouping (Table 2) to which the industry belongs.

The bracketed letters following the individual industry titles indicate the series in which the industry is included on the basis of monthly reports from firms or from special estimates - (s) means that the industry is covered for the shipments series; (i) for the inventory series; (o) for the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group total estimates as described in the December, 1958 publication, page 89.

A single asterick preceding the individual industry title indicates that the data for the industry are shown separately in Table 5. A double asterick indicates that the data for the industry are shown in Table 5 combined with data for one or more similar industries as indicated in the footnotes for that table.

PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (1)(s)(i)
- \*\* Sausages and Casings (1)(s)
- \*\* Butter and Cheese Factories (1)(s)(i)
- \*\* Concentrated Milk (1)(s)(i)(o)
- \*\* Processed Cheese (1)(s)(i)
- \*\* Other Dairy Products (1)(s)(i)
- \* Fruit and Vegetable Preparations (1)(s)(i)(o)
- Breakfast Foods (1)(s)(i)(o)
- \* Biscuits and Crackers (1)(s)(i)(o)
- Bread and Other Bakery Products (1)(s)
- Aerated Waters (1)(s)
- Distilled Liquors (1)(s)(i)
- \* Breweries (1)(s)(i)
- \* Wines (1)(s)(i)(o)
- \* Confectionery (1)(s)(i)(o)
- Macaroni (1)(s)(i)
- \*\* Miscellaneous Food Preparations (1)(s)(i)(o)
- Tobacco Processing and Packing (2)(s)(i)
- Tobacco, Cigars and Cigarettes (2)(s)(i)
- Salt (14)(s)(i)
- \* Medicinal and Pharmaceutical Preparations (16)(s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (16)(s)(i)(o)
- \* Toilet Preparations (16)(s)(i)
- Polishes and Dressings (16)(s)(i)(o)
- Candles (17)(s)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (3)(s)(i)
- \* Leather Footwear (4)(s)(i)(o)
- Leather Gloves and Mittens (4)(s)
- Miscellaneous Leather Products (4)(s)
- \* Carpets, Mats and Rugs (5)(s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (5)(s)(i)(o)
- \*\* Automobile Accessories, Fabric (5)(s)
- \*\* Embroideries etc. (5)(s)
- \*\* Miscellaneous Textiles, n.e.s. (5)(s)(i)(o)
- \*\* Men's Clothing (6)(s)(i)(o)
- \*\* Men's Clothing Contractors (6)(s)
- \*\* Children's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing (6)(s)(i)(o)
- \*\* Women's Clothing Contractors (6)(s)
- \* Hosiery (6)(s)(i)(o)
- \* Other Knit Goods (6)(s)(i)(o)
- \* Corsets and Foundation Garments (6)(s)(i)(o)

SEMI-DURABLE CONSUMER GOODS INDUSTRIES (Cont'd)

- Fur Goods (6)(s)(i)
- Hats and Caps (6)(s)(i)(o)
- Oiled and Waterproof Clothing (6)(s)
- Fabric Gloves and Mittens (6)(s)
- Miscellaneous Clothing, n.e.s. (6)(s)(i)(o)
- \* Brooms, Brushes and Mops (17)(s)(i)(o)
- Fountain Pens and Pencils (17)(s)(i)(o)
- Sporting Goods (17)(s)(i)
- Toys and Games (17)(s)(i)
- Lamps, electric, and lamp shades (17)(s)
- Pipes, lighters and smokers' supplies (17)(s)
- Umbrellas (17)(s)

DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (7)(s)(i)(o)
- Bicycles and Parts (11)(s)(i)(o)
- Boat Building (11)(s)
- \* Jewellery and Silverware (12)(s)(i)(o)
- \* Radios and Parts (13)(s)(i)(o)
- \* Refrigerators and Appliances (13)(s)(i)(o)
- Musical Instruments (17)(s)(i)(o)
- Clocks and Watches (17)(s)

HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (11)(s)(i)(o)
- \* Railroad and Rolling Stock Equipment (11)(s)(i)(o)
- Shipbuilding and Repairing (11)(s)(i)(o)

OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (10)(s)(i)(o)
- \* Hardware and Tools (10)(s)(i)(o)
- \* Household, Office and Store Machinery (10)(s)(i)(o)
- \* Machine Tools (10)(s)(i)(o)

## CONCEPTS AND SOURCES

For further detail, and for description of Methods Used, see December, 1958 report, Page 89.

### CONCEPTS

Shipments - (Tables 1 to 6) - represent an estimated projection, on a monthly basis, of the latest available Census of Industry values.

New Orders - (Tables 2 to 5) - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period, at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - (Tables 2 to 5) - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled.

Total Inventory Owned - (Tables 2 to 6) - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of: raw materials, goods in process, finished goods of own manufacture at plant and warehouse, less value of inventory held but not owned which cannot be assigned to specific components. Since the series relates to manufacturing inventory only, value of goods purchased for re-sale is not included.

Inventory Held but Not Owned - (Tables 2 to 5) - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common, although because of the nature of the item, the value per industry is high.

Because of variations in accounting methods, there are a few cases where it is not possible to obtain values for this type of inventory. The estimated value shown for this item must therefore be considered, to some extent, incomplete.

Total Inventory Held - (Tables 2 to 5) - represents the estimated total value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from inventory owned by the inclusion of amounts held under progress payments arrangements.

Inventory Components - (Tables 2 to 6) - (Raw Materials, Goods in Process, and Finished Products) are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate for each industry as a whole.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings, but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Trading Outlets - (Table 7) - are defined as any establishments (other than retail stores) operated by manufacturers, apart from their plants or plant-warehouses, which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock, or which carry small quantities only for demonstration purposes, are not included. Sales for this series represent direct sales from the outlet of goods manufactured by the owning or associated manufacturing company, with sales arranged by outlets but shipped direct from plant excluded wherever possible; goods purchased for re-sale from sources other than the owning or associated manufacturing company are also excluded, except for the Petroleum Products industry group, where a separation of purchased products is not feasible. Inventories for this series represents owned inventories held at Trading Outlets or in warehouses serving the trading outlets; again, goods purchased for re-sale are excluded except for the Petroleum Products industry.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Tables 3, 6 and 7, are defined according to the Standard Industrial Classification Manual. A description of the Economic-Use groupings of industries (Tables 4, and 6) will be found in the December 1955 report, Page 5.

### SOURCES

Monthly (or, in a few cases, quarterly) reports covering value of inventories and shipments are now submitted on a voluntary basis by 2,700 plants in 119 industries; in addition, 2,700 small plants in 95 of these industries and one additional industry report monthly shipments only. Of the first group, 1,034 plants in 94 industries also report new and unfilled orders. Six industries are included in the total shipments estimates by using data available from other Bureau series, and two of these are also included in the total inventory estimates.

REVISIONS TO PREVIOUSLY PUBLISHED ESTIMATES

SHIPMENTS: - The annual revision of the monthly shipments series to base current survey trends on the latest available census data was advanced to May this year when the 1957 census values became available. Consequently no revisions have been made to 1957 and 1958 shipments at this time and the revisions to the 1959 series have consisted solely of revisions for late returns for earlier months and adjustments to the group of reporting firms.

INVENTORIES: - Values from the 1957 Census of Industry have been incorporated as benchmarks in the inventory series. All monthly values for 1957 have, therefore, been adjusted to spread the error in the series as at December, 1957 equally over the preceding 11 months and all monthly estimates from January, 1958 on have been adjusted to project the December, 1957 values.

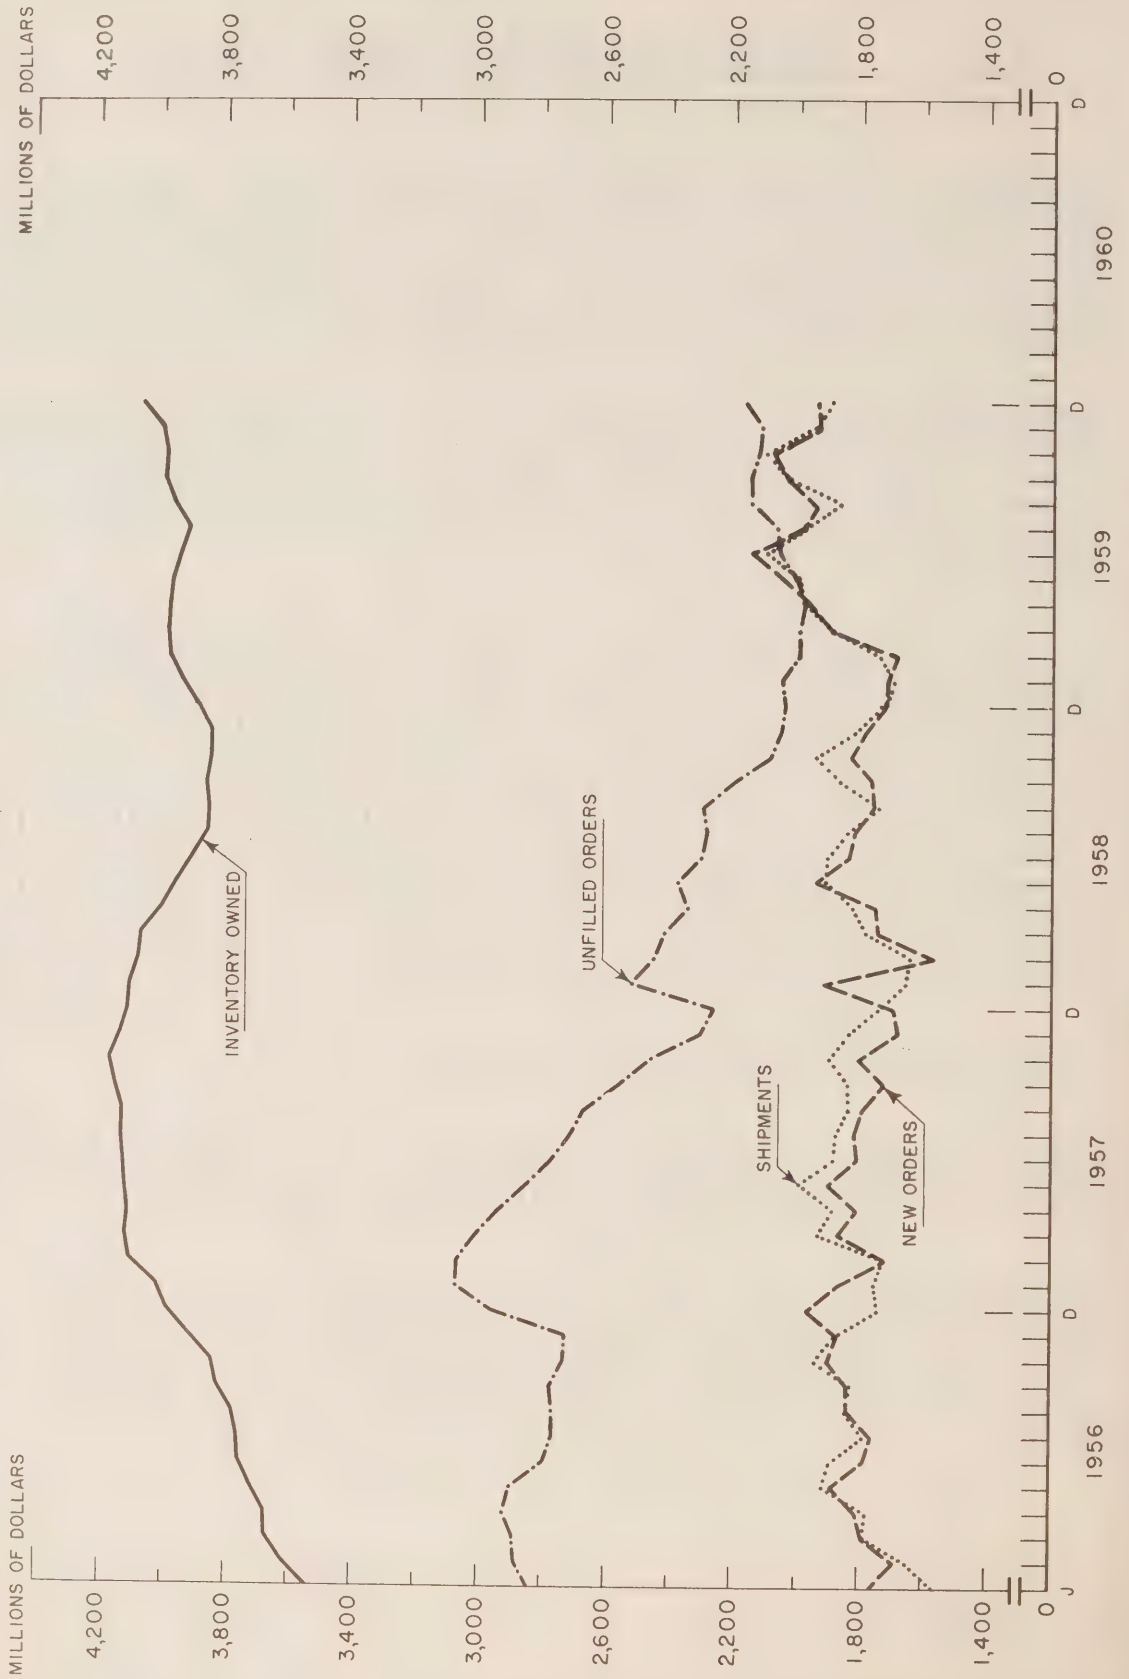

The component parts of the inventory estimates for Standard Industrial Classification, group 7 - Wood and Wood Products have been revised following the redefinition of work in process in wood planing mills, the hardwood flooring industry, the boxes and baskets industry and the miscellaneous wood products industry. In these wood products industries it is now considered that all inventory holdings are either raw materials, which includes rough sawn lumber, or finished products; the manufacturing process is such that no stocks are held in a semi-manufactured state. Inventories in sawmills have also been re-defined to exclude goods in process for the same reason. In this industry, of course, rough sawn lumber is the finished product. Goods in process inventories are still held in the furniture and coffins and caskets industries and in plywood and veneer mills.

The revision made for 1958 and 1959 year-end estimates has been extended for the monthly series back to 1956.

ORDERS: - Values from the 1957 Census of Industry for year end unfilled orders have been incorporated as benchmarks in the unfilled orders series. All data for 1957 on have been re-calculated for new orders on the basis of the revised unfilled orders series and the shipments series.

TRADING OUTLETS: - The trading outlets values have been revised on the basis of a special 1957 year-end survey of manufacturers' trading outlets. Values of shipments and inventories for subsequent years have been revised to incorporate 1957 values. Values for 1956 have been revised as more adequate information for trading outlets in this year was received.

# ESTIMATED VALUES OF SHIPMENTS, INVENTORY OWNED, AND ORDERS IN ALL MANUFACTURING INDUSTRIES

TREND SUMMARY

Preliminary estimates indicate the following trends for December:

**SHIPMENTS:** Preliminary estimates of shipments in 1959 show a record of \$23,238 million over seven percent higher than shipments in 1958 of \$21,656 million and almost five percent above the previous peak year, 1957 when shipments reached \$22,178 million. Shipments during 1959 were consistently higher in each quarter as compared with the corresponding quarter in the previous year and as in 1958 reached a peak in the second quarter.

December shipments are estimated at \$1,892 million just less than three percent lower than the revised estimate of shipments for November of \$1,948 million but nine percent higher than shipments in December 1958. December shipments have been consistently less than November shipments since 1955; this year's decline, indicative of the higher level of shipments this year is appreciably less than usual.

Thirteen of the sixteen standard industrial groups published in the bulletin shared in this new peak level of shipments in 1959, all that is except S.I.C. 11, transportation equipment, S.I.C. 12, non-ferrous metal products and S.I.C. 13, electrical apparatus and supplies. Shipments in both the non-ferrous metals industries and in the electrical apparatus and supplies industries were higher this year, however, than in the previous year, by twenty-two percent and two percent respectively, although neither regained the previous peak reached in 1956. Shipments in the transportation industries having reached a peak in 1957 of \$2,269 million declined both in 1958 to \$2,037 and again in 1959 to \$1,981 million; this decline in shipments was the only decline shown in the S.I.C. groupings in 1959. (The comparison of shipments in the electrical apparatus industries is invalidated to some extent by a shift in the structure of distribution activities in the industries although the initial and essential aspect of the change was to increase stocks of finished products at the plant level.)

Turning to the industries grouped according to an economic-use the decline of shipments in the transportation industries shows up in the decline of eighteen percent in shipments in heavy transportation equipment which is reflected in the decline, by three percent, of shipments in the capital goods group. One other group, construction goods industries, showed only a fractional increase in shipments in 1959; in fact shipments in this group during the last three years have remained very stable with annual shipments of \$1,834 million in 1957, \$1,823 million in 1958 and \$1,828 in 1959.

The general increase in shipments in 1959 ranged from the two percent increase in shipments in the electrical apparatus industries to the twenty-two percent increase in shipments of non-ferrous metals, already mentioned. The largest industry group, foods and beverages had shipments of \$4,687 million, five percent higher than in 1958 (\$4,471 million) and marking a steady increase from shipments in 1957 (\$4,171 million) and 1956 (\$3,823 million). The clothing and wood products industries both showed shipments up four percent over 1958 to \$933 million and \$1,447 million respectively. The remaining groups had increases of seven percent, the general average, or more. Shipments in non-metallic minerals, chemical products and tobacco industries were seven percent higher than in 1958; textiles, excluding clothing were up by eight percent; products of petroleum and coal were up by nine percent; the iron and steel industries had shipments in 1959 of \$2,979 million, twelve percent higher than the year before, \$2,663 million, although shipments here as in the petroleum and coal and clothing industries were only slightly higher than shipments in 1957. Shipments in the leather products industries, the miscellaneous industry group and in the rubber industries were twelve, thirteen and fourteen percent higher respectively than in 1958 although, in contrast to the rubber industries where shipments are only fractionally higher at \$356 million than their previous peak in 1956, both the leather products industries and the miscellaneous industry group have shown a steady increase in shipments during the past four years. Shipments in the non-ferrous metal industries although twenty-two percent higher in 1959 at \$1,694 million than in 1958 (\$1,385 million) are only fractionally higher than shipments in 1957 and eight percent lower than shipments in 1956 (\$1,844 million).

Consideration of the movement of shipments by economic-use groupings shows considerable contrast between the different groups. Shipments in the consumer goods industries, perishable, semi-durable and durable, have all been increasing steadily from 1956 to reach a peak in 1959 of \$6,724 million, six percent higher than shipments in 1958 of \$6,337 million. The motor vehicle industry group none of which, for statistical not conceptual reasons, is included in durable consumer goods and the industries producing largely for export both show a greater increase in 1959 shipments, up by ten and eleven percent respectively from 1958 than the consumer goods industries but neither has yet regained the level of shipments sustained in 1956. The construction goods group where shipments increased only fractionally this year has been at a consistently high level for the past three years. The decline in shipments of heavy transportation equipment has already been referred to; at the same time other capital goods industries although higher this year than last year have not reached the level of shipments shown in 1957. Both the intermediate goods industries and industries in the unclassifiable group which includes such varied industries as printing and publishing, petroleum refining, sheet metal products and plywood and veneer mills increased shipments in 1959 as compared with 1958, by sixteen and six and one-half percent respectively but shipments in that year, in both industry groups, were lower than in 1957.

**INVENTORIES:** The preliminary estimate of the book value of total manufacturing inventory owned at the end of 1959 at \$4,065 million is nearly two percent higher than the revised November estimate of \$3,997 million. The December level is the highest since March 1958 and almost equal to the value in that month, a point reached in the decline which started in November 1957 and continued with only minor pause in September 1958 until December of that year. The movement during 1959 has been much more varied but the trend has been upward.

The movement in the component parts, raw materials, goods in process and finished products has also shown considerable variation during the year. Although the peak in stocks of finished products was reached in March to be followed by a steady but slight decline from April to September, the level at no time during 1959 fell to the level of the last six months of 1958. The level of the stocks of finished goods in relation to shipments has been significantly lower in the last three quarters of 1959 as compared to the ratios prevailing during 1957 and 1958 reflecting the upward trend in shipments during this period.

Inventories of raw materials and goods in process during the past year have not shown the same upward trend although it is apparent that most industries have higher levels of both at the end of this year than at the end of 1958 and that both are lower than stocks held during 1957 and the first half of 1958. Goods in process inventory holdings cannot actually be discussed in total, they show a decline of nearly six percent in December 1959 from the end of 1958, as significant differences appear in the trend between the industries manufacturing under progress payment arrangements and other industries. The value of inventory held but not owned is largely included with goods in process inventory and this part of inventory has fallen sharply from the September 1958 peak of \$522 million to \$324 million at the end of December 1959, a decline of nearly forty percent. The decline from the year-end in 1958 to December 1959 was thirty-two percent. Generally it appears as if both raw materials and goods in process inventories are being sustained at a high and fairly stable level somewhat below the levels reached in 1957 when stocks were being built up.

Industry differences are however considerable and the largest industry group, foods and beverages has, along with the tobacco industry, been moving quite differently from the general pattern during the last three years. In these industries goods in process inventories reached a peak at the end of this year, having risen steadily each year end from 1956. Raw material stocks were lower at the end of 1957 than at the end of 1956 but were higher at the end of 1958 and rose again at the end of this year. The steady increase in shipments however has prevented a comparable rise in stocks of finished goods which in foods and beverages have been successively lower at the end of December each year from 1957 to 1959, this has resulted in very low ratios of stocks of finished products to shipments during the year. The situation in the tobacco industry is similar except that stocks of finished goods reached a peak in 1957, were lower at the end of 1958, and were six percent higher at the end of this year than the year before.

The textile industries, both S.I.C. group 5 and 6, show an interesting pattern of stability in goods in process inventory during the past four years, a decided drop in raw materials stocks in 1958 and 1959 as compared with 1956 and 1957, with stocks of finished goods rising from the beginning of 1956 through the first six months of 1958 and declining from then until the beginning of this year. Steadily higher shipments in 1959 have resulted in a considerably lower ratio of finished products to shipments during this year than in the two previous years.

The main industries producing under progress payments are included in three S.I.C. groups: 10 - Iron and Steel Products; 11 - Transportation Equipment; and 13 - Electrical Apparatus and Supplies. In all three groups inventories held but not owned have fallen during 1959 but in only one group, transportation equipment, has the decline been reflected in a decline in total goods in process inventory. In the iron and steel products industry the amount of inventory held under progress payments is fairly high, something over a third of goods in process, but the decline in this industry has been moderate; in the electrical apparatus and supplies group it ran at almost forty percent of total goods in process from 1956 to mid 1958 but has fallen now to about twenty percent. In the transportation equipment group inventory held but not owned fell from \$336 million at the end of 1958 to \$201 million at the end of this year, a decline of forty percent which was reflected in a decline of twenty-five percent of the total goods in process inventory.

This contrast in the level of goods in process inventories is borne out by consideration of the levels shown in the economic-use groups where the consumer goods industries and the perishable consumer goods industries in particular show an increase in goods in process inventories and the capital goods industries show a decided decline. This decline is again the result of the substantial decline in the inventory held but not owned in the transportation equipment group. The separation of the motor vehicle industries in the economic use grouping brings out the very great increase in goods in process in this industry during the year as it increased by twenty percent to \$92 million to bring it almost up to the level obtained at the end of 1956. The increase is also considerably higher than the increase in goods in process inventory in the durable goods industries which rose by twelve percent between the end of December 1958 and the end of December 1959. Here again the level is back to the same level as of December 1956 although in this industry group the level fell much less and remained quite stable in the intervening years.

**ORDERS:** The value of manufacturers' unfilled orders at the end of 1959 reversed the trend of the previous two years to show an increase of six percent as compared with the previous year-end. The level of unfilled orders although only four percent below the level at the end of 1957 is still only seventy-three percent of the value of unfilled orders at the end of 1956.

The increase in the level of unfilled orders during this past year being accompanied by an increase of seven percent in shipments was the result of a considerable increase in new orders particularly in the last three quarters of the year. New orders in the last three quarters not only ran eleven percent above new orders in 1958 but averaged \$6,027 million a quarter a rate considerably higher than in any of the past four years.

The increase in new orders in 1959 was general throughout the industry groups the exception being in durable consumer goods and motor vehicles. The increase in new orders in the capital goods industries and especially in the heavy transportation goods industries being particularly noteworthy in view of the very substantial decline in orders in 1957 and 1958. Unfilled orders in the heavy transportation goods industries were still at the end of December some six percent below the level at the end of 1958 and almost forty percent below the level at the end of 1956.

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys. (2) The value of Inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates of this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well.

(1) Includes Pig Iron, Steel Ingots and Castings, Rolled Iron and Steel Products and Ferro-Alloys. (2) The value of Inventory held but not owned in this industry is very small, and sample coverage is not adequate to provide separate data. Estimates of this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned as well.

(1) Part of the change in values from December 1958 to January 1959, is the result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups.

# INDUSTRIAL GROUPINGS

The industries shown in the Standard Industrial Classification Groups and the Economic Use Groups are listed below.

A single asterisk (\*) preceding the individual industry title indicates that the industry is shown separately in Table 5 - Statistics for Selected Individual Industries.

A double asterisk (\*\*) preceding the individual industry title indicates that the industry is shown in Table 5 combined with one or more other industries. The industries grouped are listed in footnotes to the table.

The bracketed letters following the individual industry titles indicate the statistical series - shipments, inventories and orders-in which the industry is included monthly: (s) means the industry is included in the shipments series; (i) in the inventory series; and (o) in the orders series. Industries for which monthly coverage is not indicated are included in the all-industry and group totals estimates as described on page 79.

Industries included in the Standard Industrial Classification Groups - Table 3 and Table 7.

## S.I.C. Group 1. Foods and Beverages

- \*\* Slaughtering and Meat Packing (s)(i)
- \*\* Sausages and Casings (s)
- Animal Oils and Fats (s)
- \*\* Butter and Cheese Factories (s)(i)
- \*\* Concentrated Milk (s)(i)
- \*\* Processed Cheese (s)(i)
- \*\* Other Dairy Products (s)(i)
- Canned and Cured Fish (s)(i)
- \* Fruit and Vegetable Preparations (s)(i)(o)
- \* Flour Mills (s)(i)(o)
- Breakfast Foods (s)(i)
- Prepared Stock and Poultry Feeds (s)(i)
- \* Biscuits and Crackers (s)(i)
- Bread and Other Bakery Products (s)
- Aerated Waters (s)
- Distilled Liquors (s)(i)
- \* Breweries (s)(i)
- \* Wines (s)(i)
- \* Confectionery (s)(i)
- \* Sugar Refineries (s)(i)
- \*\* Miscellaneous Food Preparations (s)(i)
- Macaroni (s)(i)
- \*\* Starch and Glucose (s)
- \*\* Malt Products (s)(i)

## S.I.C. Group 2. Tobacco and Tobacco Products

- Tobacco Processing and Packing (s)(i)
- Tobacco, Cigars and Cigarettes

## S.I.C. Group 3. Rubber Products

- \* Rubber Footwear (s)(i)
- \* Tires, Tubes and Other Rubber Products(s)(i)(o)

## S.I.C. Group 4. Leather Products

- \* Leather Footwear (s)(i)(o)
- Leather Gloves and Mittens (s)
- \* Leather Tanneries (s)(i)(o)
- Belting Leather (s)
- Miscellaneous Leather Products (s)
- Boot and Shoe Findings (s)

## S.I.C. Group 5. Textile Products(except clothing)

- Cotton Thread (s)(i)
- \* Cotton Yarn and Cloth (s)(i)(o)
- Miscellaneous Cotton Goods (s)
- \* Woollen Cloth (s)(i)(o)
- \* Woollen Yarn (s)(i)(o)
- Miscellaneous Woollen Goods (s)(i)(o)
- \* Synthetic Textiles (s)(i)(o)

## S.I.C. Group 5. Textile Products (except clothing)-(Concl'd)

- Dyeing and Finishing of Textiles (s)(i)(o)
- Laces, Tapes and Bindings (s)(i)(o)
- \* Canvas Products (s)(i)(o)
- \* Carpets, Mats and Rugs (s)(i)(o)
- \* Cordage, Rope and Twine (s)(i)
- \* Cotton and Jute Bags (s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics (s)(i)(o)
- \*\* Automobile Accessories, Fabric (s)
- \*\* Embroideries etc. (s)
- \*\* Miscellaneous Textiles, n.e.s. (s)(i)(o)

## S.I.C. Group 6. Knitting Mills and Clothing (textiles and fur)

- \*\* Men's Clothing (s)(i)(o)
- \*\* Men's Clothing Contractors (s)
- \*\* Children's Clothing (s)(i)(o)
- \*\* Women's Clothing (s)(i)(o)
- \*\* Women's Clothing Contractors (s)
- \* Hosiery (s)(i)(o)
- \* Other Knit Goods (s)(i)(o)
- \* Corsets and Foundation Garments (s)(i)(o)
- Fur Dressing and Dyeing
- Fur Goods (s)(i)
- Hats and Caps (s)(i)(o)
- Oiled and Waterproof Clothing (s)
- Fabric Gloves and Mittens (s)
- Miscellaneous Clothing, n.e.s. (s)(i)(o)

## S.I.C. Group 7. Wood Products

- \* Plywood and Veneer Mills (s)(i)(o)
- Sash, Door and Planing Mills (s)(i)(o)
- Hardwood Flooring (s)(i)(o)
- Sawmills (s)(i)(o)
- \* Furniture (s)(i)(o)
- Miscellaneous Wood Products (s)(i)(o)

## S.I.C. Group 8. Paper Products

- \* Paper Boxes and Bags (s)(i)(o)
- \* Pulp and Paper Mills (s)(i)(o)
- \* Roofing Paper (s)(i)(o)
- Miscellaneous Paper Products (s)(i)(o)

## S.I.C. Group 9. Printing, Publishing and Allied Industries

- Commercial Printing (s)
- Engraving, Stereotype and Allied Industries (s)
- Printing and Publishing (s)

S.I.C. Group 10. Iron and Steel Products

- \* Agricultural Implements (s)(i)(o)
- \* Boilers and Plate Work (s)(i)(o)
- \* Fabricated and Structural Steel (s)(i)(o)
- \* Hardware and Tools (s)(i)(o)
- Heating and Cooking Apparatus (s)(i)(o)
- \* Household, Office and Store Machinery (s)(i)(o)
- \* Iron Castings (s)(i)(o)
- Machine Shop Products
- \* Machine Tools (s)(i)(o)
- \* Industrial Machinery n.e.c. (s)(i)(o)
- \* Primary Iron and Steel (s)(i)(o)
- \* Sheet Metal Products (s)(i)(o)
- \* Wire and Wire Goods (s)(i)(o)
- \* Miscellaneous Iron and Steel Products (s)(i)(o)

S.I.C. Group 11. Transportation Equipment

- Aircraft (s)(i)(o)
- Bicycles and Parts (s)(i)(o)
- Boat Building (s)
- \* Motor Vehicles (s)(i)
- \* Motor Vehicle Parts and Accessories (s)(i)(o)
- \* Railroad and Rolling Stock Equipment (s)(i)(o)
- Shipbuilding and Repairing (s)(i)(o)
- Miscellaneous Transportation Equipment (s)

S.I.C. Group 12. Non-Ferrous Metal Products

- Aluminum Products (s)(i)(o)
- \* Brass and Copper Products (s)(i)(o)
- \* Jewellery and Silverware (s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (s)(i)(o)
- White Metal Alloys (s)(i)(o)
- Miscellaneous Non-Ferrous Metal Products

S.I.C. Group 13. Electrical Apparatus and Supplies

- \* Batteries (s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (s)(i)(o)
- \* Radios and Parts (s)(i)(o)
- \* Refrigerators and Appliances (s)(i)(o)
- \* Miscellaneous Electrical Products (s)(i)(o)
- \* Wire and Cable (s)(i)(o)

S.I.C. Group 14. Non-Metallic Mineral Products

- \* Abrasives and Abrasive Products (s)(i)(o)
- \* Asbestos Products (s)(i)(o)
- \*\* Cement Hydraulic (s)(i)
- \*\* Concrete Products (s)(i)(o)
- Clay Products from Imported Clay (s)(i)(o)
- Brick and tile (s)(i)
- Sand-lime brick (s)(i)
- Gypsum Products (s)(i)(o)
- Stone Products (s)(i)(o)

Industries included in the Economic use Groups - Table 4 and Table 7.

PERISHABLE CONSUMER GOODS INDUSTRIES

- \*\* Slaughtering and Meat Packing (s)(i)
- \*\* Sausages and Casings (s)
- \*\* Butter and Cheese Factories (s)(i)
- \*\* Concentrated Milk (s)(i)
- \*\* Processed Cheese (s)(i)
- \*\* Other Dairy Products (s)(i)
- \* Fruit and Vegetable Preparations (s)(i)(o)
- Breakfast Foods (s)(i)
- \* Biscuits and Crackers (s)(i)
- Bread and Other Bakery Products (s)
- Aerated Waters (s)
- Distilled Liquors (s)(i)
- \* Breweries (s)(i)

S.I.C. Group 14. Non-Metallic Mineral Products (concl'd)

- Clay Products from Domestic Clay (s)(i)
- Glass and Glass Products (s)(i)(o)
- Lime (s)
- Miscellaneous Non-Metallic Mineral Products (s)(i)
- Salt (s)(i)

S.I.C. Group 15. Products of Petroleum and Coal

- Coke and Gas Products (s)(i)(o)
- \* Petroleum Refining and Products (s)(i)
- Miscellaneous Products of Petroleum and Coal (s)(i)

S.I.C. Group 16. Chemical Products

- \* Acids, Alkalis and Salts (s)(i)(o)
- Explosives, Ammunitions and Pyrotechnics (s)(i)(o)
- \* Fertilizers (s)(i)(o)
- \* Medicinal and Pharmaceutical Preparations (s)(i)(o)
- \* Paints and Varnishes (s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (s)(i)(o)
- \* Toilet Preparations (s)(i)
- Vegetable Oil Mills (s)(i)
- \* Primary Plastics (s)(i)(o)
- Miscellaneous Chemical Products (16)(s)(i)(o)
- Printing Inks (s)
- Writing Inks (s)
- Polishes and Dressings (s)(i)(o)
- Coal Tar Distillation (s)(i)
- Compressed Gases (s)(i)(o)
- \* Adhesives (s)(i)(o)

S.I.C. Group 17. Miscellaneous Manufacturing Industries

- \* Brooms, Brushes and Mops (s)(i)(o)
- Fabricated Plastic Products (s)(i)
- Musical Instruments (s)(i)(o)
- Typewriter Supplies (s)
- Fountain Pens and Pencils (s)(i)(o)
- \* Professional and Scientific Equipment (s)(i)(o)
- Clocks and Watches (s)
- Sporting Goods (s)(i)
- Toys and Games (s)(i)
- Buttons, Buckles and Fasteners (s)
- Candles (s)
- Hair Goods (s)
- Artificial Flowers and Feathers (s)
- Lamps, electric, and lamp shades (s)
- Miscellaneous Industries, n.e.c. (s)(i)(o)
- Pipes, lighters and smokers' supplies (s)
- Signs (s)
- Stamps and stencils (s)
- Statuary and Art Goods (s)
- Umbrellas (s)
- Artificial Ice (s)

PERISHABLE CONSUMER GOODS INDUSTRIES (Concl'd)

- \* Wines (s)(i)
- \* Confectionery (s)(i)
- Macaroni (s)(i)
- \*\* Miscellaneous Food Preparations (s)(i)
- Tobacco Processing and Packing (s)(i)
- Tobacco, Cigars and Cigarettes (s)(i)
- Salt (s)(i)
- \* Medicinal and Pharmaceutical Preparations (s)(i)(o)
- \* Soaps, Washing and Cleaning Compounds (s)(i)(o)
- \* Toilet Preparations (s)(i)
- Polishes and Dressings (s)(i)(o)
- Candles (s)

## SEMI-DURABLE CONSUMER GOODS INDUSTRIES

- \* Rubber Footwear (s)(i)
- \* Leather Footwear (s)(i)(o)
  - Leather Gloves and Mittens (s)
  - Miscellaneous Leather Products (s)
- \* Carpets, Mats and Rugs (s)(i)(o)
- \* Oilcloth, Linoleum and Other Coated Fabrics(s)(i)(o)
- \*\* Automobile Accessories, Fabric (s)
- \*\* Embroideries etc. (s)
- \*\* Miscellaneous Textiles, n.e.s. (s)(i)(o)
- \*\* Men's Clothing (s)(i)(o)
- \*\* Children's Clothing (s)(i)(o)
- \*\* Women's Clothing (s)(i)(o)
- \*\* Women's Clothing Contractors (s)
- \* Hosiery (s)(i)(o)
- \* Other Knit Goods (s)(i)(o)
- \* Corsets and Foundation Garments (s)(i)(o)
  - Fur Goods (s)(i)
  - Hats and Caps (s)(i)(o)
  - Oiled and Waterproof Clothing (s)
  - Fabric Gloves and Mittens (s)
  - Miscellaneous Clothing, n.e.s. (s)(i)(o)
- \* Brooms, Brushes and Mops (s)(i)(o)
- \* Fountain Pens and Pencils (s)(i)(o)
- \* Sporting Goods (s)(i)
- \* Toys and Games (s)(i)
- \* Lamps, electric, and lamp shades (s)
- \* Pipes, lighters and smokers' supplies (s)
- \* Umbrellas (s)
- \*\* Men's Clothing Contractors (s)

## DURABLE CONSUMER GOODS INDUSTRIES

- \* Furniture (s)(i)(o)
  - Bicycles and Parts (s)(i)(o)
  - Boat Building (s)
- \* Jewellery and Silverware (s)(i)(o)
- \* Radios and Parts (s)(i)(o)
- \* Refrigerators and Appliances (s)(i)(o)
  - Musical Instruments (s)(i)(o)
  - Clocks and Watches (s)

## HEAVY TRANSPORTATION EQUIPMENT INDUSTRIES

- Aircraft (s)(i)(o)
- \* Railroad and Rolling Stock Equipment (s)(i)(o)
- Shipbuilding and Repairing (s)(i)(o)

## OTHER CAPITAL GOODS INDUSTRIES

- \* Agricultural Implements (s)(i)(o)
- \* Hardware and Tools (s)(i)(o)
- \* Household, Office and Store Machinery (s)(i)(o)
- \* Machine Tools (s)(i)(o)
- \* Industrial Machinery n.e.c. (s)(i)(o)
- \* Heavy Electrical Equipment and Machinery (s)(i)(o)
  - Signs (s)

## CONSTRUCTION GOODS INDUSTRIES

- Sash, Door and Planing Mills (s)(i)(o)
- Hardwood Flooring (s)(i)(o)
- \* Roofing Paper (s)(i)(o)
- \* Boilers and Plate Work (s)(i)(o)
- \* Fabricated and Structural Steel (s)(i)(o)
- \* Iron Castings (s)(i)(o)
- \* Aluminum Products (s)(i)(o)
- \* Miscellaneous Electrical Products (s)(i)(o)
- \* Wire and Cable (s)(i)(o)

## CONSTRUCTION GOODS INDUSTRIES (Concl'd)

- \* Asbestos Products (s)(i)(o)
- \*\* Cement Hydraulic (s)(i)
- \*\* Concrete Products (s)(i)(o)
  - Clay Products from Imported Clay (s)(i)(o)
  - Gypsum Products (s)(i)(o)
  - Stone Products (s)(i)(o)
  - Brick and Tile (s)(i)
  - Sand-lime Brick (s)
  - Clay Products from Domestic Clay (s)(i)
- Miscellaneous Non-Metallic Mineral Products (s)(i)
- Miscellaneous Products of Petroleum and Coal (s)(i)
- Coal Tar Distillation (s)(i)

## MISCELLANEOUS INDUSTRIES

### (a) INDUSTRIES PRODUCING LARGELY FOR EXPORT

- Canned and Cured Fish (s)(i)
- \* Flour Mills (s)(i)(o)
- Sawmills (s)(i)(o)
- \* Pulp and Paper Mills (s)(i)(o)
- \* Non-Ferrous Metal Smelting and Refining (s)(i)(o)
- \* Abrasives and Abrasive Products (s)(i)(o)

### (b) MOTOR VEHICLES AND RELATED INDUSTRIES

- \* Tires, Tubes and Other Rubber Products
  - (except Footwear) (s)(i)(o)
- \* Motor Vehicles (s)(i)
- \* Motor Vehicle Parts and Accessories (s)(i)(o)
- \* Batteries (s)(i)(o)

### (c) INDUSTRIES PRODUCING INTERMEDIATE GOODS AND SUPPLIES

- Prepared Stock and Poultry Feeds (s)(i)
- \* Sugar Refineries (s)(i)
- \*\* Malt Products (s)(i)
- Animal Oils and Fats (s)
- \* Leather Tanneries (s)(i)(o)
- Belting Leather (s)
- Boot and Shoe Findings (s)
- Cotton Thread (s)(i)
- \* Cotton Yarn and Cloth (s)(i)(o)
- Miscellaneous Cotton Goods (s)
- \* Woollen Cloth (s)(i)(o)
- \* Woollen Yarn (s)(i)(o)
- Miscellaneous Woollen Goods (s)(i)(o)
- \* Synthetic Textiles (s)(i)(o)
  - Dyeing and Finishing of Textiles (s)(i)(o)
  - Laces, Tapes and Bindings (s)(i)(o)
- \* Cordage, Rope and Twine (s)(i)
- \* Cotton and Jute Bags (s)(i)(o)
- Fur Dressing and Dyeing
- \* Paper Boxes and Bags (s)(i)(o)
- Miscellaneous Paper Products (s)(i)(o)
- \* Primary Iron and Steel (s)(i)(o)
- \* Wire and Wire Goods (s)(i)(o)
- White Metal Alloys (s)(i)(o)
- Lime (s)
- Coke and Gas Products (s)(i)(o)
- \* Acids, Alkalis and Salts (s)(i)(o)
- \* Fertilizers (s)(i)(o)
- Vegetable Oil Mills (s)(i)(o)
- \* Primary Plastics (s)(i)(o)
- Compressed Gases (s)(i)(o)
- \* Adhesives (s)(i)(o)
- Printing Inks (s)

(c) INDUSTRIES PRODUCING INTERMEDIATE GOODS  
AND SUPPLIES (Concl'd)

Writing Inks (s)  
Typewriter Supplies (s)  
Buttons, Buckles and Fasteners (s)  
Artificial Flowers and Feathers (s)  
Hair Goods (s)  
Stamps and Stencils (s)  
Miscellaneous Industries, n.e.c. (s)(i)(o)

(d) UNCLASSIFIABLE

\*\* Starch and Glucose (s)  
\* Canvas Products (s)(i)(o)  
\* Plywood and Veneer Mills (s)(i)(o)  
Miscellaneous Wood Products (s)(i)(o)  
Commercial Printing (s)  
Engraving, Stereotype and Allied Industries (s)  
Printing and Publishing (s)

(d) UNCLASSIFIABLE (Concl'd)

Heating and Cooking Apparatus (s)(i)(o)  
\* Sheet Metal Products (s)(i)(o)  
\* Miscellaneous Iron and Steel Products (s)(i)(o)  
Machine Shop Products  
Miscellaneous Transportation Equipment (s)  
\* Brass and Copper Products (s)(i)(o)  
Miscellaneous Non-Ferrous Metal Products  
Glass and Glass Products (s)(i)(o)  
\* Petroleum Refining and Products (s)(i)  
\* Paints and Varnishes (s)(i)(o)  
Explosives, Ammunitions and  
Pyrotechnics (s)(i)(o)  
Miscellaneous Chemical Products (s)(i)(o)  
Fabricated Plastic Products (s)(i)  
\* Professional and Scientific  
Equipment (s)(i)(o)  
Statuary and Art Goods (s)  
Artificial Ice (s)

CONCEPTS, METHODS AND LIMITATIONS

C O N C E P T S

PLANT SHIPMENTS, ORDERS, AND INVENTORIES (Tables 1, 2, 3, 4, 5 and 7):

Shipments - represent an estimated projection, on a monthly basis, of the latest available Gross Value of Factory Shipments from the annual Census of Industry. In the majority of cases, Census of Industry values include (a) sales from manufacturing plant of products made at the plant, (b) amounts received for repairs or custom work, (c) shipments of goods manufactured in the plant for further processing in another unit of the same company, and (d) shipments of finished products to manufacturers' sales branches for sale, for each establishment included. The value level used is defined as "factory selling value". Goods purchased for re-sale without further processing are not included. (1)

New Orders - This series is designed to indicate the rate at which new business is being received. It is defined as all New Orders Received during the period at estimated selling values. Thus it covers total new orders, net of cancellations, regardless of whether the orders will be filled from stock or as a result of activity during the same month (and, therefore, will also be reported as shipments in the month received) or whether they will be added to existing backlogs.

Unfilled Orders - are defined as estimated selling value, at the end of the period stated, of orders received but not yet shipped (or treated as a sale), irrespective of work done on them or of stocks from which they can be filled. (Since progress payments are treated for this survey as sales in the month received, total unfilled orders reported each month by firms operating on a progress payments basis are reduced by the total of progress accounts for these firms.) This definition of Unfilled Orders is therefore an expression in terms of future shipments values.

---

(1) There are a few exceptions to the definition of Census of Industry values given above:

- (i) In two industries, Sawmills, and Slaughtering and Meat Packing, custom work is valued at the estimated selling value of the product rather than by the amounts received for such work.
- (ii) In nine industries (Fish Processing, Veneer and Plywoods, Sawmills, Pulp and Paper, Non-Ferrous Metals, Smelting and Refining, Coke and Gas Products, Petroleum Products, and Miscellaneous Products of Petroleum and Coal) the Census of Industry values represent production of finished goods rather than shipments. For these industries the Census of Industry values are adjusted by change in finished products inventory before projection for the monthly series.
- (iii) In four industries, Fabricated and Structural Steel, Aircraft, Railroad Rolling Stock and Shipbuilding, the Census of Industry value is for "work done during the year", i.e. production of finished goods plus change in goods-in-process inventory during the year, rather than shipments. For these industries, the Census of Industry values are also adjusted by change in finished products inventory before projection for the monthly series.

There are three industries apart from those listed under (ii) and (iii) above, for which adjustments to Census of Industry values are made before projection for the monthly series. In the Flour Milling, Brewing and Fruit and Vegetable Preparations industries, all of which are characterized by large seasonal variations, many large firms operate on fiscal year periods (which are used in Census of Industry compilations) differing from the calendar year. In unusual years the projection of Census of Industry values for these industries, as if they represent calendar year values, could cause considerable distortion in the estimates. To avoid this, the Census of Industry values from 1954 on have been adjusted to estimated calendar year values before projection. This adjustment is based on values reported to the monthly survey.

Firms operating on long-term contracts represent a special problem for the monthly series. The value levels projected are those of the Census of Industry as described in the first paragraph (except for the four industries described under (iii) above). However, for the monthly series, all progress receipts on long-term contracts are included as sales in the month received, instead of the total sale being included in the month the sale is finalized. It is felt that this treatment gives a better indication of monthly activity but it does allow possible distortion of value levels in that, for the Census of Industry value which is being projected, any final sale will be recorded in one specific year, while the monthly series may have spread this sale over more than one calendar year. Since the bulk of the value of long-term contract work falls in the four industries noted (in (iii) above), for which adjustments for work done are made in compiling the Census of Industry value, this inconsistency does not affect the all-industry or group totals to any great extent.

---

Total Inventory Owned - represents the estimated book value of inventory owned by manufacturers in connection with manufacturing operations, whether held at plant or not, at the end of the period stated. It is made up of:

- (a) raw materials;
- (b) goods in process;
- (c) finished goods of own manufacture at plant and warehouse;
- less (d) value of inventory held but not owned. This item cannot be assigned to specific components.

Since the series relates to manufacturing inventory only, the value of inventory of goods purchased for re-sale without further processing is not included.

Inventory Held but Not Owned - represents, as far as possible, the portion of manufacturers' total inventory holdings which are no longer owned by the reporting manufacturers because of payments made on long-term contracts as work on these progresses. This item is applicable only to the relatively few industries where long-term contracts are common although, because of the nature of the item, the value per industry is high.

Because of variations in accounting methods there are a few cases where it is not possible to obtain values for this type of inventory - some firms treat progress receipts as sales and reduce book value of inventory as payments are received; in some of these cases they no longer have records of actual holdings above the book value level. Wherever estimates are available, these have been included, but the estimated value of inventory under this heading must be considered, to some extent, incomplete.

Total Inventory Held - represents the estimated total book value of manufacturers' inventory holdings in connection with manufacturing operations, regardless of ownership; it differs from total inventory owned because of the inclusion of inventory held under progress payments arrangements. It includes items (a) to (c) as shown above under total inventory owned.

Inventory Components: Raw Materials, Goods in Process, and Finished Products, are reported and compiled as on the books of each manufacturer, i.e. there has been no attempt to make definitions of components appropriate to each industry.

The inventory components are always a breakdown of total inventory held, not of total inventory owned. In industries where these two items differ, due to the inclusion of inventory held but not owned (see above), it is not possible to obtain value of inventory owned by components since, where separate progress accounts are maintained, firms concerned can only state that, of total holdings, a certain amount is no longer owned by them. It is fairly obvious that the bulk of such payments apply to goods in process holdings but due to time lags in shipments and to prepayments some of the total value of inventory held but not owned would be applicable to finished products or raw materials.

Any comparisons of shipments/inventory ratios should be made using total inventory owned, not total inventory held, since the latter includes values which have already been written off to sales. If shipments/inventory ratios are desired using inventory components, rather than total inventory, a reasonable approximation to total inventory owned by components would be obtained by assuming that all inventory held but not owned had been included with goods in process.

Industries and Groupings - All individual industries (Table 5) and the Standard Industrial Classification groupings of industries used in Table 3, are defined according to the Standard Industrial Classification Manual.

The Economic Use groups of industries (Table 4) were designed to facilitate the analysis of trends by a grouping based on the use made of each industry's products i.e. on the main demand factors affecting each industry. In drawing up this classification the groupings were designed to tie in with National Accounts concepts as closely as possible; as a result the three main groupings - Consumer Goods industries, Capital Goods industries, and Construction Goods industries - contain only industries producing mainly final products in each of these categories. Only industries in which substantially more than half the production is of items clearly belonging to one or other of these three specific categories or industries in which half the production falls into one such category and the remainder is scattered over two or more other categories, were assigned to one of the main groupings. All other industries were assigned to a miscellaneous category which was sub-divided into four further groupings of related industries: Industries Producing largely for Export, Intermediate Goods and Supplies, Motor Vehicles and Related Industries, and a final unclassifiable group. The latter groupings cut across the Economic Use criteria to some extent. For further detail on the considerations leading to the assignment of industries for these groupings reference should be made to the December, 1955 report.

TRADING OUTLETS SALES AND INVENTORIES (Table 8): See Page 72.

Trading Outlets are defined as any establishments operated by manufacturers, apart from their plants (or plant warehouses), which carry stocks and make sales direct to customers. Sales offices which merely arrange sales but do not carry stock or which carry small quantities for demonstration purposes are not included. Sales arranged by outlets carrying stock but shipped direct from plant are excluded wherever possible. Inventories of trading outlets include any holdings at warehouses which serve the outlets. Other warehouses, unless they have sales staffs, are excluded.

The Trading Outlets series has two purposes:

- (a) To clarify the manufacturing shipments and inventory series by excluding distribution activity (the extraneous activity which is most commonly included in reports by manufacturers) so that the manufacturing series is confined, as far as possible, to plant activities only at plant value levels;
- (b) To provide as complete and consistent a series as possible on manufacturers' distributional activity, so that this can be combined with the manufacturing series, if desired, for analytical purposes; or combined with data for independent wholesalers to provide a more complete picture of current wholesale activity than has previously been available.

Trading Outlets may or may not be separately incorporated wholesale companies. The majority of them are not separately incorporated. Any separately incorporated wholesale company owned by a manufacturing company or by a group of manufacturing companies is, however, included if the bulk of its sales are of goods manufactured by the owning or associated companies. Since it is obvious from the reports received that almost all unincorporated outlets handle mainly the products of the owning manufacturing company the Trading Outlets series may be taken to represent the activities of establishments the main function of which is to distribute the products of the manufacturing companies which own them.

This series was first published a year ago in the December 1958 bulletin. It is still to some extent in the experimental stage in the sense that the universes which are being projected monthly are not necessarily final, and the levels of the published data are, therefore, subject to revision over the next few years. In addition, only part of the total material collected for the series is considered adequate for publication at this time. It has, however, rectified to a large extent two areas of inconsistency in previous reports, one practical and the other conceptual.

The practical inconsistency was that many companies selling entirely or partially through their own sales organizations find it simpler to report total company sales monthly than to report "shipments leaving plant", which may be either final sales or shipments to their own selling outlets. Such reports were previously accepted in a large number of cases but were used to project the latest available Census of Industry values, which are generally defined as shipments from plant at plant selling value. For many of these companies it has now been possible to arrange for a monthly report covering an estimated value of plant shipments at plant selling value, in addition to the company sales figure. The former is now used for compilation of shipments values for Tables 1 to 5. To the extent that trends in the plant shipments series were being distorted by use of company sales values rather than plant shipments values this change represents an improvement. (It should, however, be noted that the change has not yet been possible in all relevant cases.)

The conceptual inconsistency was that, while shipments represented plant level shipments, the finished products inventories values previously represented total finished products owned by manufacturers, whether held at plant, warehouse or trading outlets, rather than plant finished products only. The two separate series, one for plant, and the other for trading outlets, now each cover sales and inventories for comparable activities.

(It should not, however, be assumed that the plant finished products series and the Trading Outlets inventory series are, when summed, the exact equivalent of the previous manufacturers' finished products series. As a matter of fact, they are reasonably close to being equivalent, but the former finished products series included some retail store operations of manufacturers (retail operations are excluded from the Trading Outlets series) and the Trading Outlet series includes a number of separately incorporated wholesale companies which were not previously included.)

The problems which have been raised by a separate series covering sales and inventories of Trading Outlets are due basically to difficulties of response. The major problems are:

- (a) In the cases remaining where it is still impossible to obtain plant level shipments values on a monthly basis it is often also impossible to obtain plant level finished products inventory holdings separately from Trading Outlets holdings. The inventory breakdown is, in these cases, available only at year-ends. There is, therefore, an element of uncertainty in the monthly finished products trends for the two series when used separately which did not exist when the two elements were combined. For one industry group, Tobacco Products, it was impossible to obtain separate Trading Outlets data, so total finished products inventory values for this group were left in the manufacturing series.

- (b) In a number of cases, Trading Outlet sales and inventory values, while easily available separately from plant values, are not available broken down as between "goods of own manufacture" and "goods purchased for re-sale". This is more often the case with separately incorporated wholesale companies than with other outlets. In most industry groups enough reports are available which distinguish between own and purchased goods to make a separation of values under this heading feasible. For one industry group, Petroleum Products, the separation is, however, not possible, so total sales and inventories have been included under the heading of "goods of own manufacture" for this group.
- (c) In a number of cases where the separation, by the appropriate reporting firms, of plant level shipments and Trading Outlets sales is not yet available it has been possible to estimate Trading Outlets sales of goods of own manufacture on the basis of the total sales figures for the companies concerned and the probable proportion of total sales which are being made through outlets. It did not, however, appear possible to estimate sales of purchased goods in these cases, because of the wide range of ratios of own to purchased goods in the sales values reported by the remaining companies. It is hoped that some improvement can be made in this area in the coming year. In the meantime, with the exception of the Electrical Apparatus and Supplies group where practically no estimating problem occurs, it is felt that the estimates of sales of goods purchased for re-sale do not yet warrant publication. This problem is not so acute for inventory values of goods purchased for re-sale, since year-end values at least are generally available for own and purchased goods separately, but it is felt that publication of this item should be postponed until comparable sales values are available.

Many of the companies operating trading outlets are multiple-unit firms with operations crossing two or more individual industries. No attempt has been made to obtain detail at this level for the Trading Outlets series. This means that the industry-group (e.g. Foods industries, Iron and Steel Industries) is the smallest unit for which data can be shown separately. There are a few cases where outlet operations cut across two industry-groups, and in these cases the values have been assigned to the group in which the bulk of the manufacturers' production falls.

Because of the relatively small number of companies included and because, on the whole, this type of operation tends to be large it can be expected that, when a company gives up its distributing organization or when new organizations are set up, the effect on the series will be to cause considerably larger sudden changes than are common in the plant shipments and inventory series.

#### METHODS

##### (a) Current Estimates -

For eight series (plant shipments, raw materials, goods in process, plant finished products, inventory held but not owned, unfilled orders, trading outlets sales, and trading outlets inventories,) current value estimates for each industry covered are made by applying the monthly percentage changes shown by the unweighted group of reporting firms in each industry to the latest available benchmark values for the same industries. Industries not covered are carried at the latest available benchmark levels.

(The above is subject to a few exceptions. In one industry, reporting firms are treated as a stratum sample, rather than as an unweighted group. In three industries, available physical data on stocks and shipments are valued using price indexes. In three industries, shipments estimates are based on employment data and price indexes.)

Total inventory held in each industry is the sum of the estimated values for raw materials, goods in process, and finished products. Total inventory owned in each industry is calculated by deducting the estimated value for inventory held but not owned from estimated total inventory held. Value of new orders in each industry is derived from estimated shipments and unfilled orders using the formula "Unfilled Orders at end of previous month plus Net New Orders during month less Shipments during month equals Unfilled Orders at end of Current month".

##### (b) Benchmark Revisions -

As new benchmarks become available, estimates for the year to which the benchmarks apply are revised as follows:

- For the plant shipments series, the Census of Industry value for the year for each industry is spread by months according to the trend shown by reporting firms in the original estimate for that year.

- For the trading outlets sales series, the estimated value for the year, obtained from the Annual Trading Outlets survey, for each industry is spread by months according to the trend shown by reporting firms in the original estimate for that year.

- For the five basic inventory series (raw materials, goods in process, plant finished products, inventory held but not owned and trading outlets inventory) and the unfilled orders series, where the benchmark values apply to the Year-End rather than to the entire year as in the shipments series, the error in the original estimate for the year-end for each industry is assumed to have accumulated equally over all twelve months of the year (i.e., one-twelfth of the amount of the error is added to the original estimate for January; two-twelfths is added to the original estimate for February; three-twelfths to March and so on).

- The three derived series (total inventory held, total inventory owned, and new orders) are re-calculated on the basis of the revised data for the other six series.

#### LIMITATIONS TO THE USES OF THE DATA IN THIS REPORT

- (1) Data for individual industries should not be interpreted as commodity data, since very few industries produce only one commodity or only one class of commodities.
- (2) Since the series are in terms of current values, changes over time may be the result of both price and volume changes. Some indication of the extent to which changes in value are due to price changes, thus isolating the physical change which has taken place, can be obtained by reference to the wholesale price index. This procedure is, however, inadequate for anything more than a general indication of trends. The main problem is that the wholesale price index is a commodity price index, while the shipments, orders, and inventory series are industry series with the possibility of changes in commodity content over time. These changes in commodity content could seriously affect the weighting pattern to be applied to price indexes considered applicable for any specific industry. In considering inventory values turnover rates and valuation methods are other important variables which should be taken into consideration but for which adequate data are seldom available.
- (3) Shipments data do not necessarily represent market sales for the manufacturing universe.  
(a) Apart from the few exceptions as noted under (b) below they are defined (see Page 72) to include total movement of goods out of manufacturing plants (or, in some cases, divisions of plants); shipments of goods for further processing by other plants of multiple-unit companies are, therefore, included as well as shipments for sale. (b) In a few special cases, the Census of Industry values include goods in-process change, and for these cases progress receipts on long-term contracts are included as shipments as they occur, rather than at the time sales are finalized. (c) Many manufacturers re-sell purchased goods, in addition to sales of their own products and these re-sale items are not included.
- (4) The component breakdown for inventories is on an establishment, not a commodity, basis. Since each manufacturer reports inventories as on his own books, both for the monthly and annual surveys, and since a number of industries contain plants at various stages of processing, the finished products for one plant might represent commodities which would be considered raw materials or goods in process for another plant in the same industry. The composition of each industry must be studied before attempting to use the component breakdown as applicable to the industry as such, rather than to the firms in the industry.
- (5) For Unfilled Orders, the following reservations apply:
  - (a) The series, by definition, excludes plants producing entirely for stock. Since approximately 40% of manufacturing is done by such plants the trends shown are not necessarily applicable to manufacturing in general.
  - (b) Since the series is defined as "unshipped" orders, rather than "unproduced" orders, there is always the probability that some of the Unfilled Orders are accounted for in inventory holdings. The reduction of unfilled orders by progress receipts eliminates to a considerable extent the effect of large goods-in-process holdings in connection with long-term contracts, but the amount of the remaining inventory, either goods-in-process or finished products, which is held in connection with existing unfilled orders would be difficult to evaluate.
  - (c) The series includes total orders, not just those considered as "binding", so estimates of future shipments trends based on these may be overstated due to the possibility of cancellations.
  - (d) Unfilled Orders for all industries include to some extent a duplication due to the fact that orders for final products in one industry may result in orders to firms at secondary or primary stages of processing. Since the total gross value of shipments will contain the same duplication, this does not invalidate the series for purposes of analysis. However, the total impact of any one order on future shipments levels will not necessarily be shown in the Unfilled Orders series since at any stage an order may be filled from stock rather than added to existing backlogs.

- (6) The Economic-Use grouping of industries (Table 4). The difficulties involved in classifying both commodities, and industries on the basis of commodities made, are sufficient to limit the usefulness of this compilation to indications of trends only. The main difficulty is that many commodities may be used for different purposes which cut across classification lines. Depending on the use made of it, the same product may be a "final" product or a component part; or a final product may be used for consumption, capital equipment, or in construction. A second difficulty is that the basic data for this survey are in terms of estimates for individual industries not for commodity data. An industry is a group of establishments primarily concerned with the production of a specified product or class of products. Many establishments produce other commodities in addition to those with which they are primarily concerned and, as a result, very few industries can be considered "pure" in the sense that they produce only the product or class of products implied in their title. Therefore, many industries which might fall quite clearly into specified groups on the basis of the chief use of their main products are much less clear-cut when the additional commodities produced in the establishments concerned are considered.

In this classification only those industries in which substantially more than half the production is of items clearly belonging to a specified grouping or in which half the production is of such items and the remainder is scattered over two or more groups were assigned to the main categories; all industries which could not be so assigned were placed in the "Unclassifiable" category. This means that the inclusion of extraneous commodities is kept to a minimum. It does not, unfortunately, do anything about the fact that each category does not necessarily include all important relevant items. The grouping that is most seriously affected by the forced exclusion of relevant items is the Durable Goods sub-group of the Consumer Goods category. It does not contain the consumer portion of the Automobile industry and, in addition, it does not include the stove portion of Heating and Cooking Apparatus, since the latter industry had to be assigned to the Unclassifiable group. On the other hand, it does include two large industries with important production of items which should not be assigned to Consumer Durables - these are the Furniture industry, which produces office and store furniture as well as household furniture; and the Radios and Parts industry which also produces electronic equipment. The sub-category "Other Capital Goods Industries" contains the highest proportion of industries in which only about half of total production actually should be assigned to the specific grouping but where the remainder of production is dispersed over a number of other groupings. It is, however, felt that this dispersion is not so likely to result in distortion as is possible with the large specific items involved in the Consumers' Durable Goods group.

FOOTNOTES TO TABLES

TABLE 1. - (1) Prince Edward Island and Nova Scotia combined for monthly estimates.

(2) Yukon and the Northwest Territories combined with British Columbia.

TABLE 2. - (1) Annual shipments values differ slightly from published Census of Industry totals due to inventory adjustments for certain industries where Census of Industry data represent production rather than shipments values.

(2) Part of the change in values from December 1958 to January 1959, is the result of the discontinuing of Trading Outlet operations for goods of own manufacture by some of the establishments reporting in the Electrical Apparatus Industries group. The sales and inventories previously shown in Trading Outlets are now included in the relevant manufacturing industries and industrial groups.

TABLE 3. - (1) See footnote (1), table 2.

(2) The value of Unfilled Orders for industries in S.I.C. groups - 1, 2, 3, 7, 8, 12, 14, 15, 16 and 17 is small, and sample coverage is not adequate to provide separate estimates for them.

(3) See footnote (2), table 2.

(4) The value of inventory held but not owned in this group is very small, and sample coverage is not adequate to provide separate data. Estimates for this type of inventory are included with Total Inventory Held; for all practical purposes this can be considered the equivalent of Inventory Owned.

TABLE 4. - (1) See footnote (2), table 2.

(2) This grouping does not include the consumer portion of Motor Vehicles, nor of Heating and Cooking Apparatus; it does include the electronic equipment portion of Radios and Parts, (Telecommunication Equipment), and the office and store portion of Furniture. The bulk of Inventory Held but not Owned in this group is applicable to the electronic equipment portion of Radios and Parts.

(3) This grouping does not include trucks and buses.

(4) This group comprises only the 6 industries which cannot be fitted into any of the other groups because of the high proportion of total production exported. Shipments are not to be taken as total exports.

TABLE 7. - (1) Ratios for this group were calculated using values of Total Inventory Held instead of values of Total Inventory Owned. See footnote (4), table 3.

TABLE 8. - (1) Includes sales and inventories of purchased goods for the Petroleum Refining Industry.

(2) See footnote (2), table 2.

(3) This grouping includes industries from the Textile group, the Clothing group, the Transportation Equipment group, the Non-Ferrous Metal Products group, the Non-Metallic Mineral Products group, and the Miscellaneous Industries group. The Leather Products group and the Printing, Publishing and Allied Industries group are not included since no firms in these industries reported Trading Outlets. The Tobacco Products group is not included because Trading Outlet values cannot be separated from plant values.
